ASSESSMENT METHODS

For your formal work in the course, you are required to participate in online discussion forums, complete written assignments, participate in synchronous events, and complete a final project. See below for details.

Consult the Course Calendar for due dates.

Promoting Originality

One or more of your course activities may utilize a tool designed to promote original work and evaluate your submissions for plagiarism. More information about this tool is available in this document.

💬 *Discussion Forums*

In addition to an ungraded Introductions Forum, you are required to complete **eight** discussion forums. The discussion forums are on a variety of topics associated with the course modules.

Communication with your mentor and among fellow students is a critical component of online learning. Participation in online class discussions involves two principal activities: an initial post to a discussion question and at least one meaningful response to a classmate's original post.

- An initial post should articulate views supported by research, professional white papers, and evidence-based practice, moving beyond opinion to expert perspectives.

- A meaningful response to a classmate's original post should be relevant to its content, add value, and advance the discussion. This entails posing questions and sharing ideas.

At the doctoral level, discourse requires a scholarly voice, careful analysis of evidence, and engagement in the academic literature. Therefore, you must support your views with published research and professional resources.

Your participation in discussion forums should be timely, constructive, mature, and respectful. All postings should be well organized, documented, carefully written, and properly proofread and edited.

Note: Be sure to review the Discussion Forum rubric located in the Evaluation Rubrics folder of the course website for grading requirements. Consult the Course Calendar for due dates.

💬 *Synchronous Events*

You are required to participate in **two** synchronous events. The synchronous event schedule is posted on the first day of class in the Announcements section of the course website in Moodle. To attend the event, click on the Synchronous Event Space link in the Edison Live! Section of the Moodle course space. Use the following [Edison Live!](#) link for technical assistance. For additional details, refer to **Module 4** and **Module 6**.

Consult the Course Calendar for due dates.

📋 *Written Assignments*

You are required to complete **five** written assignments. The written assignments are on a variety of topics associated with the course modules. Grading rubrics for each of the written assignments can be found within the Evaluation Rubrics folder in Moodle.

📋 *Final Project*

For the final project in this course, you will develop two business export plans, one for a product and the other for a service. The project is divided into multiple parts, and detailed instructions can be found within the Final Project area of the course. A grading rubric for the final project can be found within the Evaluation Rubrics folder in Moodle. See the Course Calendar for due dates for each part of the final project.

GRADING AND EVALUATION

Your grade in the course will be determined as follows:

- **Online discussions (8)—**30%
- **Synchronous events (2)—**5%
- **Written assignments (5)—**35%
- **Final project—**30%
  - **Part 1: Topic Selection—**2% (Graded as approved/needs revision)
  - **Part 2A: Group A Business Export Plan—**14%
  - **Part 2B: Group B Business Export Plan—**14%

All activities will receive a numerical grade of 0–100. You will receive a score of 0 for any work not submitted. Your final grade in the course will be a letter grade. Letter grade equivalents for numerical grades are as follows:

```
A   = 93–100        B   = 83–87
A–  = 90–92         C   = 73–82
B+  = 88–89         F   = Below 73
```

To receive credit for the course, you must earn a letter grade of C or higher on the weighted average of all assigned course work (e.g., assignments, discussion postings, projects). Graduate students must maintain a B average overall to remain in good academic standing.

STRATEGIES FOR SUCCESS

First Steps to Success

To succeed in this course, take the following first steps:

- Read carefully the entire Syllabus, making sure that all aspects of the course are clear to you and that you have all the materials required for the course.

- Take time to read the entire Online Student Handbook. The Handbook answers many questions about how to proceed through the course and how to get the most from your educational experience at Thomas Edison State University.

- Familiarize yourself with the learning management systems environment—how to navigate it and what the various course areas contain. If you know what to expect as you navigate the course, you can better pace yourself and complete the work on time.

- If you are not familiar with web-based learning, be sure to review the processes for posting responses online and submitting assignments before class begins.

Study Tips

Consider the following study tips for success:

- To stay on track throughout the course, begin each week by consulting the Course Calendar. The Course Calendar provides an overview of the course and indicates due dates for submitting written assignments, posting discussions, and submitting the final project.

- Check Announcements regularly for new course information.
