ABSTRACT

The abstract should be written in English. It should briefly present the research background, research objectives, research methods used, Results and conclusions. Include one or two sentences to discuss the findings. The abstract must be written in both Indonesian and English, not exceeding 250 words, without references, and followed by keywords (a maximum of five words or phrases, arranged alphabetically, with capital letters of each word capitalized).(Latin scientific names should be written in 10pt Bold Italic.)

Keywords : *Growmore fertilizer, Hot chilli, Petroganic fertilizer.*

INTRODUCTION

Contains the background that underlies the research and mentions previous research that has been carried out, the research objectives, framework and brief literature, and the approach used in relation to the problem under study.

Agrifor Journal (ISSN P: 1412-6885, ISSN O: 2503-4960; http://ejurnal.untag-smd.ac.id/index.php/AG/index) is a scientific journal that publishes writings in the form of research results, book reviews, conceptual studies, and scientific works in the fields of Agriculture and Forestry related to relevant cultivation topics.

Manuscripts are written using Times New Roman, 12 pt, single-spaced, on A4 paper with margins of 3 cm on the left, 2.5 cm on the top, 2.5 cm on the bottom, and 2.5 cm on the right. The first line of each paragraph is indented by 1 cm (0.4 inch).

Agrifor is published twice a year, in March and October. The editorial office and secretariat are located at the Faculty of Agriculture, Universitas 17 Agustus 1945 Samarinda, Jl. Ir. H. Juanda No. 80, Samarinda 75124. Email: agrifor@untag-smd.ac.id.

RESEARCH METHOD

Describe in detail and clearly but concisely the location and time of the study, the tools and materials used. The method used is written clearly and systematically, including about statistical or research designs. This allows other researchers who will re-examine with a broader study to do it in a relatively similar way.

Each equation is written in the center of the column and given a number

written in parentheses and placed at the end of the right margin. Equations must be written using the Equation Editor in MS Word or [1] Microsoft Equation 3.0.

$$Y = a + bX \quad (1)$$

RESULTS AND DISCUSSION

Results should be clear and concise. Do not present the same data in both table and graphic and image format, it must be numbered and described in text. The title of the table is written in english and placed on the table, while graphics and pictures are placed under it. The discussion is structured by highlighting the results of research that have received broad attention, explaining their meaning, comparing them with other research results to provide direction for further research.

Table 1. Recapitulation of Research Data on the Effect of Petroganik Fertilizer and Growmore Fertilizer on the Growth and Yield of Cayenne Pepper (Capsicum frutescens L.) Variety Dewata 43 F1.
(*Tables and Figures are made in 1 column, only on one page*)

Treatment	Plant Height (cm)			Flowering Age (days)	Harvest Age (days)	Number of fruits (fruits)	Fruit Weight (g)
	15 DAP	30 DAP	45 DAP				
Petroganik Fertilizer (P) Variance Analysis	**	**	**	*	**	**	**
p_0	14,07 c	22,27 c	37,77 c	37,93 c	66.47 b	63,13 d	86,53 d
p_1	16,17 b	25,30 b	45,40 b	37,33 bc	66,47 b	86,53 c	128,60 c
p_2	18,43 a	29,03 a	50,60 a	35,93 ab	64,67 a	109,67 b	156,20 b
p_3	18,77 a	30,67 a	52,97 a	35.80 a	63,73 a	129,87 a	184,33 a
Growmore Fertilizer (D) Variance Analysis	**	**	tn	tn	tn	tn	*

Example of an image:

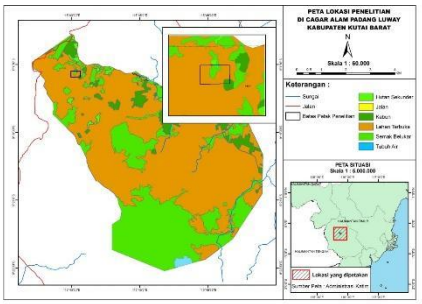

Figure 1. Research Location Map.

The results must be clear and concise. Do not present the same data in both tables and graphical or image formats. All figures and tables should be numbered and explained in the text. Table titles are written in Indonesian and placed

ISSN P : 1412-6885
ISSN O : 2503-4960
Akreditasi Sinta 4, Kemdiktisaintek

above the table, while captions for graphs and images are placed below them. The discussion should highlight the research findings broadly, explaining their significance and comparing them with other research results to provide direction for further studies.

CONCLUSION

The main conclusions of the research can be presented in a short Conclusion section, which can stand alone or form a subsection of the Results and Discussion section and are not numbered but in the form of paragraphs.

This section is required to be included in the manuscript!

Acknowledgements (Times New Roman 10): In this section, you can acknowledge any support given which is not covered by the author contribution or funding sections. This may include administrative and technical support, or donations.

Example: "I/We would like to thank….".

Author contributions (if the author more than one): If there is only a single author in the article, this section is not necessary. For research articles with several authors, a short paragraph specifying their individual contributions must be provided. Please turn to the CRediT taxonomy for the term explanation. Authorship must be limited to those who have contributed substantially to the work reported.

Example: "Conceptualization, X.X. and Y.Y.; methodology, X.X.; software, X.X.; validation, X.X., Y.Y. and Z.Z.; formal analysis, X.X.; investigation, X.X.; resources, X.X.; data curation, X.X.; writing-original draft preparation, X.X.; writing-review and editing, X.X.; visualization, X.X.; supervision, X.X.; project administration, X.X.; funding acquisition, Y.Y. All authors have read and agreed to the published version of the manuscript."

NOTE: X.X., Y.Y., and Z.Z. are the initial of the author's name.

Kontribusi penulis (jika penulis lebih dari satu): Jika hanya ada satu penulis dalam artikel, bagian ini tidak diperlukan. Untuk artikel penelitian dengan beberapa penulis, paragraf singkat yang menentukan kontribusi individu mereka harus disediakan. Silakan gunakan taksonomi CRediT untuk penjelasan istilah. Kepenulisan harus dibatasi hanya pada mereka yang telah memberikan kontribusi substansial terhadap karya yang dilaporkan. Contoh: "Konseptualisasi, X.X. dan Y.Y.; metodologi, X.X.; perangkat lunak, X.X.; validasi, X.X., Y.Y. dan Z.Z.; analisis formal, X.X.; investigasi, X.X.; sumber daya, X.X.; kurasi data, X.X.; penulisan-persiapan draf asli, X.X.; penulisan-tinjauan dan penyuntingan, X.X.; visualisasi, X.X.; supervisi, X.X.; administrasi proyek, X.X.; akuisisi pendanaan, Y.Y. Semua penulis telah membaca dan menyetujui versi naskah yang telah diterbitkan." CATATAN: X.X., Y.Y., dan Z.Z. adalah inisial dari nama penulis.

AI declaration: The authors would like to clarify the use of Artificial Intelligence (AI) tools in preparing this manuscript.

Example:

- If AI tools were used, please specify which tools were employed and their purpose: "All AI use complies with the journal's policies and may be verified through Turnitin, with the AI detection score kept below 20%. The authors take full responsibility for the content of this manuscript and for the appropriate and ethical use of any AI tools during its preparation and submission".
- If no AI tools were used, please declare, "The authors hereby declare that no Artificial Intelligence (AI) tools were utilized in the preparation, writing, analysis, or editing of this manuscript," and confirm that no AI tools were used at any stage prior to publication.

Ethical clearance: Authors are kindly requested to provide a statement confirming that the research has received ethical approval form the relevant institutional or national ethics committee, where applicable.

Examples:

- for authors, if ethical approval was obtained: "Ethical approval for this study was granted by the Institutional Review Board at [University/organization Name] (National). Informed consent was obtained from all individual participants included in the study."
- If not applicable: "his study did not involve human participants, animal subjects, or personal data."

Data availability statement: In this section, please provide details regarding where data supporting reported results can be found,

including links to publicly archived datasets analyzed or generated during the study. Please refer to Data Availability Policy.

Examples:

- if the data is not available publicly, the author can write: "The data is available by request to the author"
- If the study did not report any data, you might add "Not applicable" here.

Conflicts of interest: Authors must identify and declare any personal circumstances or interest that may be perceived as inappropriately influencing the representation or interpretation of reported research results.

Examples:

- If there is no role: "The funders had no role in the design of the study; in the collection, analyses, or interpretation of data; in the writing of the manuscript, or in the decision to publish the results".
- If there is no role conflicts of interest: "The authors declare no conflict of interest."

REFERENCE

Writing a Bibliography should use reference management applications such as Mendeley. Writing a Bibliography should use reference management applications such as Mendeley, End Note, and Zotero. A bibliography is all publications over the past 10 years, either in the form of textbooks, journals, and others. 80% of the bibliography is a scientific journal and is not anonymous. Arranged alphabetically by author's name, stating the title, publisher, city, volume, publication number. Each bibliography used must appear in the text. The bibliography is written with the second line and so on indented 1 cm, spaced 1. The spacing between the written references is 6 pt. Minimum 15 bibliographies, 80% from journals, the last 10 years and include their DOIs. The writing format used in the Agrifor journal is in accordance with the APA 7th Edition format (American Psychological Association).
