

Note: I am very particular about mists! I like the spray to be very fine.

Lagom Cellus Mist Toner

This was the first mist toner I ever purchased. It's really hydrating. I still love it!

iSun Ormus Mist

My favorite uber-natural, definitely has a crystal in the bottle, mist. The way they describe making this mist is very EXTRA. They like, hike in to some specific mountain stream to get the water. I of course eat that shit up. Also: it smells AMAZING.

Caudalie Beauty Elixir

Love this one for planes because the smell is so refreshing.

Caudalie Grape Water

A great everyday water spray.

Avene Thermal Spring Water

The icon. The classic. I love this one so much.

H Is For Love Pollen Mist

My everyday toner. I'm on my second bottle. It's just refreshing, anti-microbial, and so nice!

Wander Beauty Glow Getter Mist

A mist -- with oil! Makes me so dewy. I use it on top of makeup, before I put on makeup, or when I have no makeup on. I love it.
