Senior React Frontend Engineer

Experienced Frontend Engineer with 8+ years of expertise in building scalable, high-performance web applications. Specialized in React and TypeScript, with a proven track record of delivering clean architecture, optimized user experiences, and maintainable code. Adept at taking ownership of critical features, collaborating with international teams, and driving projects from concept to production.

Selected Experience

React & TypeScript Developer – Disco (USA) | 2024–2025

- Built critical features for the platform launch: authentication, notifications, and error handling.
- Integrated React Query for efficient data fetching and API state management.
- Delivered UI components independently under tight deadlines.

React Developer – Variant Perception (USA) | 2024

- Enhanced investor portal with interactive charts and personalized dashboards.
- Improved UX through optimized features and tailored financial data insights.

React Developer – apomap GmbH (Germany) | 2024

- Delivered barcode scanning and optimized dashboards for a pharma startup.
- Tech stack: React, TypeScript, Tailwind, Zustand, React Query.

Frontend Developer – Reward Gateway (UK) | 2023

- Restyled and modernized UI while maintaining backward compatibility.
- Built a feature-rich menu editor with advanced customization and real-time preview.
- Implemented WCAG 2.0 accessibility standards.

Senior React Developer – Synergie Tech Solutions (USA) | 2021–2023

- Led architecture of a scalable frontend system and delivered POCs for business decisions.
- Improved performance via refactoring and reusable solutions.
- Collaborated in agile sprints ensuring timely delivery.

Earlier Experience
