

Invitation To Join LEAPS Intensive

Your Path to Institutional-Level Returns Starts Here

It's a 10-minute read and a 2-minute decision.

I'm going to describe what LEAPS Intensive is, and what it's about, and then you can decide if you want to join.

LEAPS Intensive is an 8-week live coaching program built around one idea: that regular investors deserve access to the same strategies that pension funds, hedge funds... and endowments use to generate superior, risk-controlled returns.

It is designed to give you the skills to find and execute high-upside, defined-risk trades using LEAPS options, so you have the knowledge and confidence to achieve consistent, market-beating results.

You won't need to rely on others' advice. You'll have the exact same playbook the pros use, scaled down for your portfolio.

I've spent years studying how the smartest money in the world approaches the markets, and I created LEAPS Intensive because I saw how regular investors were being left behind by strategies that only work with institutional capital.

My goal is to close that gap and give you a clear, repeatable process for generating outsized returns without taking on excessive risk.

This is the only program that combines live weekly training with a supportive community and real screener tools, so you have everything you need to succeed.

Who is LEAPS Intensive For?

Whether you've never bought an option before or have been investing for decades, LEAPS Intensive is for anyone looking to grow their wealth more capital-efficiently. It works for everybody, regardless of age, location, or experience level. All you need is a desire to build wealth and a willingness to learn.

The Goal: Defined-risk trades with serious upside, using the same strategies that turned \$1,000 into \$127,000 on Tesla LEAPS and generated 2,250% returns on Nvidia LEAPS.

The profit from entry is 248%, so this is another reason it's hard for me to even type this, because it's embarrassing to be complaining or stressing over this type of gain, but I'm looking to become a better trader, which includes managing emotions as well.

Where Does It Happen?

LEAPs Intensive is an online program accessible from the comfort of your own home and on your schedule. You can access the entire program on both desktop and mobile devices, no matter where you are in the world.

How Does It Work?

It's simple. You attend the live weekly sessions (or watch the recordings), work through the screeners to find high-conviction LEAPS trades, and use your coaches and all provided resources. You can ask questions in our Discord group or during live Q&A calls, follow the process, and get results.

When Does It Start?

Live sessions begin on September 24th, but the moment you enroll you get immediate access to the private Discord community and full recordings of last year's sessions at the old price of \$697. You can start learning right away. Everything is completed on your own time and at your own pace.

Hi all, loving NU on a tear right now. I still have my original LEAPS from the start of our LEAPS course. Happy days!

✓ Here's what's included:

- **6 Weeks of Live Group Training Sessions:** Weekly live sessions walk you through the full LEAPS process step by step, from screening to execution to position management. Sessions are recorded for lifetime access.
- **LEAPS Screeners:** Our proprietary screener tools help you find high-conviction LEAPS candidates with strong fundamental catalysts, so you're never guessing.
- **Lifetime Access to All Recordings:** Can't make a session? No problem. Every live session is recorded and yours to keep forever.
- **Turnaround Screener Bonus:** Identify beaten-down companies with the potential for outsized recoveries. One of the highest-upside LEAP setups available.
- **Small Account LEAPs Training:** A dedicated module showing you trades you can make with as little as \$100 to \$500, with the same upside potential and no large capital required.
- **Access to Private Discord Group:** Join a community of investors doing the same thing. Share insights, ask questions, get feedback, and support each other.

👉 How is this different from other investing programs?

Simply put, there is nothing like what we are offering on the market today. Most “options programs” are either about selling options for small income, or speculating on short-dated calls. You buy the course, get left alone, and hope for the best.

LEAPS Intensive is specifically designed for investors who want to think like an institution. You'll use long-dated options to take capital-efficient positions in high-conviction companies, with defined risk and maximum upside.

We bridge the gap between conservative investing and aggressive speculation. Most programs teach you one or the other. We show you how to get the best of both worlds: defined downside, institutional-style upside.

You will become one of the most capital-efficient investors in the game.

You will be able to control large positions with a fraction of the capital, freeing up the rest for safer assets.

You will instantly recognize when a LEAPS option is mispriced and represents a genuine opportunity.

You will be able to navigate any market environment and know exactly which companies deserve a long-dated bet.

And then, you're going to have something that you've always wanted.

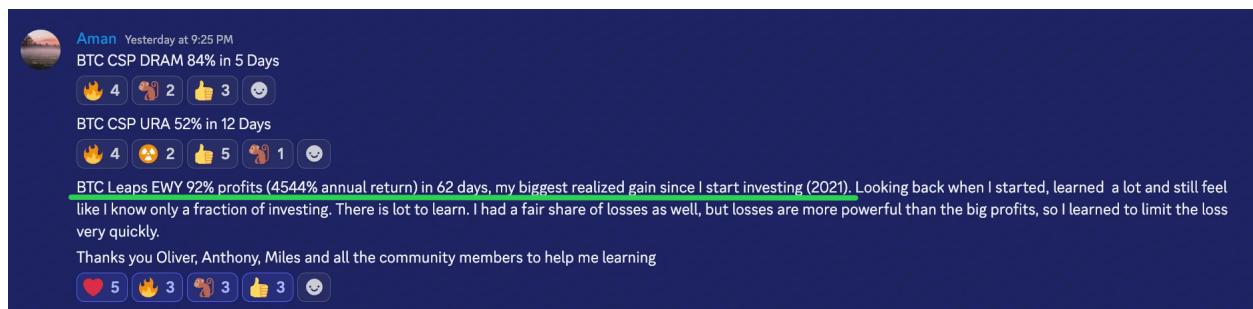

And that something is a choice.

You can choose what you want to do...

P.S.

LEAPS Intensive is more than just an options program. It changes how you think about capital. You stop tying up tens of thousands of dollars in individual stocks and start deploying it the way the smartest institutional money in the world does.

We're here to equip you with a skill set that works in any market and in any condition. Imagine having the confidence and knowledge to achieve real returns, no matter what the future holds.

LEAPS Intensive is designed to arm you with strategies that most financial advisors don't understand, let alone teach. This program empowers you to grow your wealth independently, giving you the freedom to make informed decisions without being

dependent on others. You'll have the choice to consider expert input if you want to, but never because you have to.

Join LEAPS Intensive and take control of your financial future. With the knowledge and tools you gain here, you'll be ready to generate real returns in any market environment.

This is your opportunity to start investing like an institution. Sign up today!
