

Kingdom Hearts Playing/Viewing Order

By Willow

About me: <https://en.pronouns.page/@WillowA113>

Discord server: <https://discord.gg/ZbUDanTEvu>

This is a list of all currently released Kingdom Hearts games and any games, films, series, etc. that it crossed over with put into the best playing/viewing order I can put together. This includes the Kingdom Hearts series itself, Final Fantasy, The World Ends With You, Disney, Nintendo, Super Smash Bros., all of Smash's crossovers, etc. If someone wants to get a person into all three together, this is a great way to do it!

This list only includes games accessible through modern consoles with few exceptions. This list contains no upcoming content but will be updated as they are released. There are no novels, short stories, or any other non-visual storytelling.

This list links YouTube cutscene compilations for video games because many people can't afford everything. Everyone is encouraged to play them, of course!

There are several ages comprising this list. This is put together as the best way to consume all these media for first-timers.

If you would like a more chronological approach, do it this way:

- X Age (Ancient times; Age of Fairy Tales)
- Birth by Sleep Age (A decade before The First Modern Age)
- First Modern Age (1-2)
- Dream Drop Distance Age (Second Modern Age)
- Kingdom Hearts 3 Age (Third Modern Age)
- Super Smash Age (Modern Age 3.5)
- Kingdom Hearts 4 Age (Fourth Modern Age)
- Descendants Age (Decades in the Future)

Don't want to watch all of it?

No problem. Not all of this content appeals to everyone. I have included color-coded recommendation levels based on my subjective opinion of the content's quality and relevance, which may guide your choices of what to watch.

Recommendation color codes:

Essential

Blue means an item is essential to understanding the story (or very important) and should be seen in a minimalist experience. Only the Kingdom Hearts games themselves are *truly* essential, but these are the most important besides them.

Recommended

Green means I recommend that you watch it. The only reason not to is if you're not a huge fan and want a shorter list.

Consider Skipping

Yellow means that you might skip the item. If you enjoy this universe a lot, consider these.

Skip

Red means that I recommend you skip the item. If you are a hardcore fan who likes to experience everything, even when it's not enjoyable, try these anyway.

*Remember that these recommendation levels are my opinion and won't necessarily represent yours. It's completely okay to disagree, most fans do.

First Modern Age

Super Smash Age

Set after Kingdom Hearts III.

It can all be skipped. The color ratings are based on importance to Super Smash Bros., not Kingdom Hearts.

What's interesting is that Smash is canon to Kingdom Hearts. The director of the Kingdom Hearts series, Tetsuya Nomura, is obsessed with canon. He was approached a couple of times in the past about Sora in Smash but turned it down every time. After KH3, he found a canon reason for Sora ending up there and allowed it to happen.

I find it strange how he thinks it has to be canon. No one else does that. But it's super cool how it's canon. I think it works. Kingdom Hearts is a crossover series, after all. It makes the crossover aspect that much stronger.

I definitely wouldn't have avoided it if it weren't for its canonicity. But it's canon, so here it is!

I am not an expert on every series, so there are bound to be issues. Please comment about any problems I made! I appreciate it!

[BiAQE](#)

Descendants Age

According to my theory and headcanon, the worlds will combine into one after the final Kingdom Hearts game. Decades later, these movies happen.

Theory:

https://www.youtube.com/watch?v=7ZV17bcMW5c&list=PL_nwbQTs6UicKgrsV0VO36WNS9mhXYoyk&index=155&pp=gAQBiAQBE

^ I was a little kid when I filmed this so don't judge. I still stand by this theory, however. ^

Pre-Descendants

Things Descendants crossed over with that Kingdom Hearts didn't.

The Emperor's New School

<https://www.disneyplus.com/series/the-emperors-new-school/1HOC4WeR86b0>

The Emperor's New Groove

<https://www.disneyplus.com/movies/details/3jFGEhxfWgxg>

Kronk's New Groove

<https://www.disneyplus.com/movies/details/1EF5ZiSaElvr>

Princess and the Frog

<https://www.disneyplus.com/movies/details/7TPAcC8QPgpm>

Pocahontas, The Aristocats, and Robin Hood crossed over with Descendants books not listed here (not films or animations). Pocahontas is the only one of those with any kind of spin-off, that being Pochahantas II. Zootopia also debatably takes place in the same world as Robin Hood.
