FREQUENTLY ASKED QUESTIONS

(Updated Feb 2019)

Who is Teach For Malaysia?

Teach For Malaysia is an independent, not-for-profit organisation on a mission to give all children in Malaysia the opportunity to attain an excellent education,

We are mobilising a movement of leaders to empower our nation through education; working together towards a Malaysia where all children are empowered to be leaders of their own learning, their future, and the future of our nation.

What is Teach For Malaysia trying to solve?

We believe that the power of education can unlock the potential of every child. A child's background and systemic injustices often determines his or her outcome in life. Children in less privileged communities do not have the same access to education opportunities. This is neither right, nor fair.

Malaysian students are far behind. While Malaysia has achieved tremendous progress in socio-economic development over the last 60 years, the Malaysian Education Blueprint calls out that the average 14-year old in Malaysia is academically 3 years behind their peers in Singapore and 4 years behind their peers in Shanghai! This is a precursor for our economic growth, social stability and overall development as a nation.

What does Teach For Malaysia do to solve the Problem?

We build a movement of leaders to have immediate and long-term impact on high-need communities across Malaysia through:

- Our Leadership Development Programme: We recruit outstanding fresh graduates and young professionals to teach in full-time, fully-paid positions for 2 years in high-need public schools across Malaysia.
- Our Alumni Network: We work alongside our Alumni network to build an ecosystem of solutions at all levels of society.

What happens after the 2 years Fellowship?

Teach For Malaysia Fellows continue on as a network of Alumni advocating for education and build an ecosystem of solutions at all levels of society - from classroom to boardroom.
