

TRAINING SESSIONS

In the pursuit of delivering high-quality healthcare services, the department of Community Medicine is ensuring that healthcare set up at the centres adhere to nationally recognized standards and benchmarks with the necessary knowledge and skills.

As part of its commitment to improving healthcare standards, training sessions are transport centres.

Objectives of the Training Sessions:

Quality Enhancement, Comprehensive Understanding, Knowledge Update, Implementation Skills, professional development.

By equipping healthcare professionals with the necessary knowledge and skills, the training session has elevated healthcare standards, enhanced patient safety. As these trained individuals return to their workplaces, the impact of this session is expected to resonate throughout the healthcare sector, ultimately leading to improved patient care and outcomes.
