

1. Name: Benjamin Plier

2. Class: Sophomore
3. Major: Biological Sciences, Ecology Concentration
4. The thing you love most about NC State Athletics?

The thing I love most about NC State Athletics is the atmosphere created by all the fans both young and old before, during and after the football and basketball games. I love the high energy and camaraderie that occurs when everyone is together with a common goal.

5. Favorite non-revenue sport to watch? Why?

Volleyball, There is always a great amount of action going on throughout, and it was great to see our team bounce back from a disappointing season last year to have such a great year.

6. Why do you want to be on the board?

I would like to be on the board to further my experiences as a student. I also want to share my love and excitement both for the main sports at NC State and the non-revenue sports events that can be just as much fun to attend. I would like to get more of the club members really involved versus over half of our group that are just names on a list.

7. What do you think you will bring to the board and club if elected?

I have been a loyal supporter of all the sports this year as shown by my position in minutes in the top 20 since mid-fall semester. I have a high level of energy that I believe can motivate others to support all our teams as well.

8. What would you like to see the club do differently next year?

I think it would be great if the club presented more opportunities for students in the club to get to know others in the club better, so they could know who they were always cheering alongside. I would also like to see us get more of the club actually involved.
