

Disney's American Dragon: Jake Long The Jump v1.0

by Maskedduskridr

Welcome to a World of Magic and Creatures that exists alongside your own human realm. A world where the one thing standing between complete disasters caused by either side is the World Dragons. Chosen Dragons who with their Dragon Chi are capable of becoming mighty dragons straight from mythology.

We follow the story of the first American Dragon, Jake Long, a 13 year old boy who believes that he can rap and skate with the best of them. Trying to balance his job as the American Dragon with his Personal Life...and failing as the two collide time and time again.

Hey, maybe you can do better!

Just watch out for the Hunts Clan who would skin you. Multiple forces of evil magical beings. And the mysterious Dark Dragon.

Take **1000 Chosen Points** to fund your adventures.

Starting Location

While most of the series takes place in New York City, New York. This is a global series and as such you may pick any location on the planet earth to be your starting location. If you are a World Dragon that means that this area will be part of your starting territory.

Age and Gender

You need to pick an age for yourself. 13+ for Dragons so that you get your powers.

By default your gender is whatever you were previously.

It is **50 CP** each to freely change gender.

Origins

Citizen (Drop-In) [Free] (Pick a Race: Human or Magical that appeared in series)

This can be the Drop-In for this world. You are just a normal citizen of the world. You could be an average human unaware of the mystical world, or a member of the mystic community. You might not be an adventurer, but you have a life of your own to live.

Huntsclan [100 CP] (Require: Human)

You have a member of the human organization whose goal is to get rid of all magical creatures by any means necessary.

World Dragon [200 CP] (Require: Dragon)

You are one of many Dragons who protect the Magical World. You have been trained to use the full might of your powers to defend the world, especially around the region you claimed as your own.

Dark Magic User [200 CP] (Pick a Race: Human, or Magical that appeared in series.)

You are a corrupted being. You make use of the mystic arts in ways that most wouldn't dare dream to. With this power only fools would dare try to stand in your way.

Race

Human

You are either a boring old human, or a secret badass magical creature hunter in the Huntsclan which is human exclusive. Or you could go a different route and be a Wizard.

General Mythical Creature

It would take me days to sort out just which is which for the options. So here is the deal. If it appeared in a series, or you can think of it. Then you can go with any magical creature. Just keep your origin in mind.

Animal Guardian

These are the animals assigned to watch over a dragon. For example Fu Dog is just one of many. Feel free to pick any species from the Chinese Zodiac, though keep an eye on your license since it expires after a certain amount of time and needs to be renewed.

Dragon

The protector of magical creatures, though not necessarily entirely good. These beings possess two kinds of chi (life force), a human chi and a dragon chi which is the source of their power. They are born humans with their dragon chi remaining dormant until the age of 13, when their powers begin to emerge. Even in human form, their dragon side can affect them.

Perks

Origins get their 100cp perks for free and the rest are discounted to 50%.

General [Undiscounted]

Magical Language [Free]

For some reason every magical creature understands each other and can speak English if they really want to. Now even if you don't have much magic you have this ability. Doesn't translate written text though so you are going to have your work cut out for you there, but at least you can understand what people around you are saying.

Mystical Disguise Master [200 CP]

You are a Master of Disguise! Not really. It's more a disbelief field that normal people can't see though. Doesn't help your ability to make a disguise, but at least you can walk around in public as a hairy cyclops wearing a nice jacket, hat and glasses without anyone making a fuss about it.

Legendary [400 CP]

This is a Capstone Booster

You are a living legend. Most people can't actually believe you are real. In fact, if you disappear from the public eye for a bit, in a few years time a lot of people will believe you are just a story. Until you reveal yourself. This is a reputation booster. This improves your ability to recruit others through reputation alone, as well as making others think twice before attempting to face you.
