### I Wasted So Much

There I was.

In debt for a degree, looking for a job, and back home in my parents basement.

I couldn't believe my life got to that point.

I saw people younger than me who never went to university living a better life.

But then I had a realization...

If there's so many people making money online why aren't I?

So I began learning about online business.

I worked and worked, trying new things constantly to find the secret sauce.

I spent millions on advertising and made many more along the way.

Now I'm sharing my years of experience with new and struggling entrepreneurs to help them achieve success THEIR WAY.

I'm glad you're here, and I can't wait to see you grow.
