This one – day workshop on Research Methodology proved to be highly beneficial for participants in enhancing their understanding of research principles and methodologies. Attendees gained valuable insights into various aspects of research design, data collection, analysis, and ethical considerations. The interactive nature of the workshop facilitated active participation and knowledge exchange among participants, making it a successful learning experience for all involved.

Research ethical principles not only ensures the credibility and trustworthiness of research outcomes but also upholds the rights and welfare of individuals and communities involved in the research process. Researchers have a responsibility to uphold the highest ethical standards and to continuously reflect on and address ethical challenges that may arise in the course of their research endeavours.
