Ok, so I approached this subliminal in a very unique way compared to my other subliminals. From what my beta testers said, this subliminal caused INTENSE mental overload otherwise. As such, this subliminal is set up in a way so that ALL RESULTS WILL MANIFEST AT THE SAME TIME, however, they will unlock in 4 phases. Once you are used to, and have accustomed to all abilities in one stage, you will move onto the next, while still *retaining all abilities of the previous phase***.**

💡 Possess a limitless level of intellectual and cognitive proficiency that surpasses anything/everything in existence

💡Have your intellectual faculties transcend all other sentient beings in their universe, and these said faculties include your mental capacity and concentration, mental calculation and computation, cognition and competence, wit and ingenuity, memory capacity, mental perception, mental focus, thought processing, learning capacity, deductive reasoning, visualization, analyzation, composure, instinct, awareness, knowledge, creativity, intuition, mentality, and more.

💡Be capable of learning a variety of essential skills and advanced capabilities in a day, which would take a normal person years to achieve mastery over, memorize any knowledge instantly without any mistakes, and process information at a much faster rate, possess amazing skills of deduction and reasoning, become a master strategist, possess an extensive scientific knowledge, etc., making you obviously superior among those of your own species.

The First Stage: Baseline Peak Intelligence

💡Be more intelligent than all of your species, or at least able to use your brain more efficiently and effectively either by being naturally gifted, allowing you to be able to perform feats of mind comparable to computers and as such, you can think several steps ahead of your opponent.

💡Be capable of learning a variety of essential skills and advanced capabilities in a day, which would take a normal person years to achieve mastery over, memorize any knowledge instantly without any mistakes, and process information at a much faster rate, possess amazing skills of deduction and reasoning, become a master strategist, possess an extensive scientific knowledge, etc., making you obviously superior among those of your own species, much beyond the known point of human genius

💡Be able to remember great volumes of information, in greater detail and for much longer than the average human, as such, you can read books, listen to song lyrics, encounter people or experience events and recall a vast deal of the details of their experience, and in addition, it takes less effort to recall the information they encounter, and you can remember it for longer without having to strain.

💡Have access to an exceptional amount of ideas greater than average humans

💡Be an extremely skilled strategic genius and apply this skill to several objectives, allowing you to intuitively create strategies and plans several steps ahead of the opponent, as such, you can elaborate complex plans/strategies and apply them not only in battle but all activities that involve cunning intellect, e.g. strategic games, and as such, you can instinctively anticipate all of the possible obstacles/opportunities and know what the best actions to take in any situation,

allowing you to adapt and prepare for future events in advance by considering a large number of scenarios/outcomes/options/paths, and plan ahead for them, to be ready for any situation that may occur and handle it effectively.

💡Have amazing deductive and information processing ability of anything you know, which allows you to figure out connections and process them extraordinarily fast, for example, if you see someone moving their hands to draw something you can create an image of what they are drawing in your head without being able to see the canvas.

💡Intuitively read others' body language and expression, allowing you to anticipate their actions and respond accordingly, often allowing you to predict opponent's attacks.

💡Perceive, analyze, and comprehend patterns you observe via using a series of steps. First, you can look at a subject, or otherwise, come into contact with it, which triggers the willful psionic analysis of a subject's properties and features (shape, density, texture, etc.). After the analysis, you can pick up on any subject of the same molecular/chemical/genetic, or otherwise, structural makeup, and track them accordingly.

💡Solve various mysteries and conspiracies that are considered almost impossible to solve under normal circumstances.

💡Be a master of criminology, the study of crime and deviant behavior, and with this knowledge, you can figure out how criminals function, working out their motivations and what they might do next.

💡Become almost superhumanly skilled in all forms of crime fighting and law enforcement, as such, you are naturally talented and/or trained to find criminals and stop their activities, either through sheer intellect or the use of brute force.

💡 Interpret and predict enemy attacks and react to the incoming attack, brush off or avoid the incoming attacks even from a dead angle, and if you possess defensive powers and the attack is coming from behind, the defense power can activate on its own to block the attack.

💡Possess the analytical prowess of a supercomputer, allowing you to compute and process information at great speeds.

💡Codify and create complex systems for anything making it very complex and impossible to decipher.

💡Solve or break codes of complex systems for anything no matter how complex and near-impossible to decipher.

💡Notice, process and understand any/all details of any situation or environment no matter how small, allowing you to intuitively understand and solve any problem or situation no matter how difficult or impossible it may be, as such, it doesn't matter how small the clues or details are, you will automatically know and process them almost instantly.

💡Possess unnaturally high skills in investigation and can uncover even the most elusive of secrets with enough effort, as such, you can solve various mysteries and conspiracies that are considered almost impossible to solve under normal circumstances.

💡 Remember and recall everything that they have ever experienced, encountered or learned in their lifetime, as such, you need only to read, hear or see something once and they will never forget it, and you will continue to learn for the rest of their lives and your brain will simply compress neural synapses to contain it all, allowing memory of every event, experience or bit of knowledge from birth to the present.

💡Have advanced analytical and observational skills as well as a keen eye for details, as such, you are quick to spot the most minuscule of details which others would overlook, and can

assess people and situations alike and effectively turn them all into your own advantage and always see the optimal way to deal with anything properly.

💡Be genius-level at strategy and tactics, as such, you are able to see through all angles/information/patterns/perceptions of any subject, conflict, condition, environment, etc, and this gives you the ability to come up with plans/actions that will guarantee victory and help make the wisest, most optimal strategic/tactical decisions for the short and long term at exactly the right time, and you can consider all effects and outcomes, anticipate all obstacles, seize all opportunities, adjust effectively to any situation, manipulate all circumstances to your optimum benefit, and make the most out of everything around you to achieve your goals.

💡 Intuitively know all of the reasons for anything, whether possible or actual, and for example, you can sense every reason why someone does not want to do something as well as why a machine does not work.

💡Be a master of psychology and can use it for various purposes, often by changing the perception or behavior of others through underhanded, deceptive, or even abusive tactics, as such, you also have a mastery of the associated speech and body language, expertly sending all the right signals, granting you major leverage in any social situation and allowing you to easily wrap anyone around your little finger in a matter of moments and easily forging a potentially fanatical level of trust and devotion in whoever you exert these talents on.

💡Process information at incredible speeds, allowing them to analyze and come to conclusions at an unprecedented rate, as such, you can even perceive everything at a faster time frame.

💡Perceive and understand all cause and effect relations, deducing the path leading to any effect, allowing you to plan, analyze, and take action with absolute efficiency, as such, you can perceive the cause and effect relations of your own thoughts giving you the ability to tackle various situations by simply thinking about possible routes they could take.

💡Sense nearing danger, acute danger, potential immediate danger, or impending danger and sense unwanted or hectic threats to your well-being and evade it, and this intuition usually regards yourself but can also include your surroundings (like a distant car-wreck, friends or strangers).

💡Regulate/control your own emotions, making it so that you can keep yourself from feeling a certain way about something if you wish to do so, as such, you can control your thoughts and react better to situations, and by doing so, you can also protect yourself from an emotional attack.

💡Have an increased sense of awareness far above those of your species, often to the extent that few, if any, little details miss your notice.

💡Sense when you are being told the truth by various means, and this ability allows you to constantly sense when information told to you is credibly given by another and whether a person speaking is telling the truth, and the ability to control one's own emotions and body changes do not act as a definite limitation for you as you can sense whether or not a person is speaking the truth without such details.

💡Have wits greater than that of normal humans and as such, you are very clever, able to adapt to new and changing situations and are able to remain cool at all times, and you are hard to surprise or impress, and you can think your way in and out of any situation by knowing what you need to do and how they need to do it, and come up with ideas within seconds.

💡Adapt mentally to any situation/condition/event/environment, never being caught off guard in sudden changes, and instantly reacting to new situations, as such, you instantly and automatically analyze and understand any environment or situation, and deduce the most optimal course of action, allowing you to make the right decision in all situations.

💡Have drastically enhanced mental reflexes, allowing you to mentally react to current circumstances and events faster than they happen.

💡 Perform multiple separate tasks at once, as your brain can process multiple independent trains of thought/function at the same time and your body is able to perform them without interfering/overlapping with the other actions.

💡Possess an innate automatic response and intuition for wriggling out of any binds, breaking through any fetters, or otherwise escape any form of captivity with ease.

💡Be a master of rhetorical skills and flawless eloquence which you can use to easily and efficiently articulate, explain, convince, persuade and manipulate anyone and everyone, whether individuals or crowds, of anything, as such, you can develop an incredibly charismatic personality and are capable of causing sudden and profound changes to the mentality and views of others very quickly and easily, and with enough time you could change anyone's views on anything.

💡Be a master of sarcasm, as such, you have an intuitive knowledge and skill of brevity, irony and sarcasm, allowing you to use witty remarks and irony/insults to bring an opponent's confidence down in battle or to get under their skin.

💡Be able to remain calm in virtually any situation, allowing you to think with perfect clarity even when under extreme emotional or physical distress, as such, you can endure mental stress and can be essentially highly resistant to emotion manipulation and torture.

💡Have all of your mental boundaries and limitations be completely erased allowing your mental abilities (memory, calculation, learning, creativity, etc.) to be completely unrestricted or subject to blockage, knowing what you need to do and how they need to do it, and this exponentially enhances one's integration of knowledge and as such, you can store it in more than a single interpretation, before accurately deducing which interpretation would best fit the scenario,

allowing your mind to be unrestricted and uninfluenced by any internal or external factors, enabling a state of total awareness and reaction not impeded by higher mental function or emotion, a mind more open and reactive to subtle sensory input, intuition, and spontaneous action, as such your mind is a mind that is totally calm - a mind not influenced or caught up in events or others' emotion, thus a mind more able to freely perceive and respond to any situation to your advantage, allowing you to have essentially reached the ultimate mental pinnacle.

💡 Instantly learn and understand the workings and mechanics of anything, regardless of how simple or complex, as such, you can comprehend the complexity and exactness of events, organisms, objects, subjects, fields, powers, and more, without the need of long-term or special education, or explanation.

💡Instantly gather and understand any knowledge.

💡Have it so that when you read, see or hear any concept you will understand it completely, whether it is natural or supernatural, and if you come into contact with any piece of “information” that is wrong, you will intuitively know this and can discern what is correct and what is wrong.

💡Have it so that when you want information/knowledge you can acquire it instantly and use it perfectly, e.g. you can gain the skills and knowledge of a doctor to heal someone or gain the experience and skills of a master martial artist for fighting.

💡Learn any fighting technique at the first glance, and can instantly learn and master any form of knowledge and instantly learn and comprehend anything.

💡Possess powerful/incredible skill in every possible field or discipline, whether intellectual or practical, formal or mundane: mathematics, cooking, strategy, sports, games, politics, fighting, martial arts, mechanics, psychology, economy, art, medicine, investigation, and virtually all other fields, allowing you to demonstrate a mind-boggling level of perceptiveness and efficiency in your respective field(s), multiplying virtually impossible feats with ridiculous ease, as such, your

unbelievable level of competence truly puts you in an unreachable category of your own, that simply eludes others' understanding.

💡Be natural masters of abstract strategy games, possessing a keen eye for details, and an unparalleled strategic mind, and these games can include but are not limited to: chess, other variations of chess, Go, Chaturanga, Xiangqi, Shogi, and many more.

💡Be a master of administration, and intuitively understand the mechanics behind administrative doctrine, policies, and procedures, as such, you can administer all sorts of bureaucracies, organizations and resources and can run them in the most optimal manner, and you can also improve the efficiency of any bureaucratic body you are overseeing, and perform feats such as always making the right choice when it comes to utilizing all resources in the most beneficial manner.

💡Create any kind of advantages into anything (beings, objects, powers, etc), including physical, mental and spiritual advantages, and these include advantages like strength advantages, skill advantages, mental advantages, speed advantages, experience advantages and so on.

💡Automatically adapts in/to any field of battle, allowing you to fight on equal or superior grounds with your opponents, as such, each battle fought strengthens you physically, mentally, and tactically, slowly turning you into a One-Man Army.

💡Be a master of successfully running businesses and companies, as well as have intuitive full comprehension of banking, entrepreneurship, investing, and finances, as such, you have an intuitive mastery of any associated business skills, speech and body language, expertly sending all the right signals, granting you major leverage in any business situation and allowing you to easily to be successful in any business regardless of who you exert these talents on, allowing you to become wealthy very quickly and easily, and perform feats such as always developing

ideas to generate profits, making the right choice when it comes to making money, advancing said business and predicting sources of monetary crises, as such, you can rapidly gain wealth through always making successful speculations and trades on the stock market

💡Be a master at cheating, subverting rules in order to gain unfair advantages, and this can range from fighting dirty, to using shortcuts in a race, to winning games, to cheating death itself by surviving when you shouldn't have.

💡Instantly understand an opponent's method of thinking and fighting, allowing you to anticipate the moves of the opponent, and once you understand your enemies' strategy, you are able to find their flaws and weaknesses and take them down with little effort.

💡Be a master of how to deceive, influence and manipulate others, as such, you can deceive by any means and in the most effective ways possible, use anything at hand to do so and, have no mental/emotional issues or moral dilemmas either before, during or after the deed, and you have a mastery of the associated deception skills, speech and body language, expertly sending all the right signals, granting you major leverage in any social situation and allowing you to easily wrap anyone around your finger in a matter of moments, as such, you can utilize your skills of deception, either through words, or actions, with enough precision and skill to even deceive those who are perceptive or with Lie Detection.

💡Be a master of economics, the branch of knowledge concerned with the production, consumption, and transfer of wealth, however, many people misinterpret economics to be the study of money or the stock market; however, it is really the study of people, their choices, and resources. All resources are finite; while everyone's desire is infinite. As such people are forced to make choices on how to spend their resources. As such, you can seek out which is the best way to fulfill those desires while balancing which resources to spend, and you can easily understand and manipulate any economy in immense detail, and you can acquire economic

wealth and power very quickly and easily, and perform feats such as always making the right choice when it comes to advancing their economic interest and predicting sources of economic crises.

💡Possess immense charisma that transcends mortal limitations, allowing you to sway virtually anyone as well as entire communities to your cause and service with barely any effort, captivated by your almost irresistible personal gravity and an overriding desire to be part of your world and contribute to its fulfillment.

💡Be glaringly, obviously and super/unnaturally more prepared than other beings in your universe because their capabilities and contingency applications are beyond the natural level; making you immensely more prepared than regular beings.

💡 Be aware of how to prevent certain possibilities or scenarios that other people would not consider.

💡Be flawlessly skilled at calculating things, ranging from instantly; performing any kind of mathematical calculations, predicting events and guessing where an object may be, to performing multiple calculations within an instant.

💡 Be cautious and hasty at the same time, meaning you can be careful at any speed when handling, carrying, or moving yourself or other objects without having to worry about hitting things or dropping things or stumbling while going fast.

💡Possess vastly superior wisdom, resulting in the ability to apply perceptions, judgments and actions in keeping with this understanding, and this often requires control of your emotional reactions (the "passions") so that universal principles, reason and knowledge prevail to determine your actions.

💡Always make the right response in any/all situations, whether in personal life, communication, relationships, work, war, fight, conflict, battle, wilderness, survival, and more, as such, you know

what to do and how to act regardless of the circumstances, and always being able to pick the most optimal response in any scenario, enabling you to achieve the best possible results in all fields of life and deal with events in the most efficient manner, as such, you are able to seize all opportunities and make the most out of any situation.

💡Creatively make the most out of all/any resources available (whether tangible or intangible, external or internal) with the most efficient manner, and these resources include mechanical, technological, natural, environmental, instrumental, social, human, mental, psychological, physical, spiritual, financial, artistic, knowledge, information, skills, tools, talents, experiences, feelings, energy, time, science, relationships, and even the circumstances of all kinds (life conditions, social conditions, political conditions, military conditions, economic conditions).etc, all of which you can use to find a way through anything you face, as such, you are able to see limitless possibilities in every event, situation or thing, etc. and apply them in creative ways to get their way out of any situation or overcome any challenge.

💡Be a master of games, with a keen eye for details, a strategic mind, unbendable determination, and confidence, as such, you also possess the intellect and great minds for strategies, capable of acquiring success in little time, and to spot any cheating easily. Moreover, you are also able to convince people to do what you want in games by using psychological tricks, and you know the odds, can read the other players' intentions and resources, and know the best strategies to win any game, as such, you completely perfect and master every aspect of every game and competition, and you are flawlessly skilled in all aspects of every game and competition there is, was and will ever be, and you also have as much knowledge you can possibly have on every game, and you are unable to ever lose any game or competition you're in in unless you want to lose, and you can easily put up a perfect performance in any

competition or game there is, was and will ever be, allowing you to easily be the best in the universe ever at every aspect of every game or competition.

💡Be a master of improvisation, the activity of making or doing something not planned beforehand, using whatever can be found. Improvisation in the performing arts is a very spontaneous performance without specific or scripted preparation, and the skills of improvisation can apply to many different faculties, across all artistic, culinary, scientific, physical, cognitive, academic, and non-academic disciplines, as such, you will automatically improvise any situation into their favor.

💡Be master of managing, as such, you can manage all sorts of teams, businesses, or the schedules of certain individuals, and as such, you have an intuitive mastery of the associated management skills, speech and body language, expertly sending all the right signals, granting you major leverage in any management situation and allowing you to easily to be successful in any management situation, regardless of who you exert these talents on, as such, you can plan things out and look for the optimal route, and you can improve the productivity, efficiency and stability of anything you are managing very quickly and easily, and perform feats such as always making the right choice when it comes to management and logistics.

💡Sense opportunities in any situation for most useful actions to gain what you seek/want, as such, you can sense the right time to strike in combat, or the right moment to take advantage of something.

💡Be a master of politics, as such, you can intuitively understand the mechanics behind any policy, political systems and power dynamics, and understand how to manipulate it, and you have an intuitive mastery of the associated political skills, speech and body language, expertly sending all the right signals, granting you major leverage in any political situation and allowing you to easily to be successful in any political situation regardless of who you exert these talents

on, as such, you can become powerful and influential very quickly and easily, and perform feats such as always making the right choice when it comes to advancing your political agenda, increasing your political power, predicting sources of political crises, and more

💡 See all the variables of any situation and predict the outcome.

💡Be a master in regards to social cues, i.e., group mind, teamwork, sales pitch, understanding/inner knowing of individual characteristics and interests, as such, you are able to act on using such forethought and taking the initiative in getting people to work together, as such, you can accomplish the impossible and cobble together a selection whom are prone to conflict and infighting yet have them function like a well-oiled machine, and you can take and change societal as well as cultural views by unifying vastly differing personas in order to bring about something spectacular through your union.

💡Be a master of trapping, able to create many different types of traps that are effective in different ways, and these traps can range from trap holes, to arrows, to explosives, to psychological, etc, and this allows you to get an advantage over others and place them in situations where even the brightest of minds would have trouble escaping their traps, and you can also easily detect and disarm any traps.

💡Possess a completely unpredictable nature, rendering you immune to users of Combat Perception, Body Language Analysis, and Adoptive Muscle Memory, and you can also evade Objective Precognition, which requires the target to have a direction in mind to be able to predict the outcome.

💡Induce great and glorious victories to yourself, others and events whenever there is a conflict or a challenge, and you can cause victory regardless of the power, invincibility, speed, traits, etc. of the target or the enemy.

💡Be a master of counterstrategy, as such, you possess incredibly extensive innate knowledge and skill in instantly creating strategies that counter the strategies of others, and your backup plans will always have backup plans and you will foil all strategic attempts against them.

💡Be a master of many types and ways of theft, able to break into homes or other places to steal above, sneak around with ease, and formulate plans to best get around.

💡Be genius-level in strategy and tactics, as such, you are able to see through all angles/information/patterns/perceptions of any subject, conflict, condition, environment, etc, and this gives you the ability to come up with plans/actions that will guarantee victory and help make the wisest, most optimal strategic/tactical decisions for the short and long term at exactly the right time, and you can consider all effects and outcomes, anticipate all obstacles, seize all opportunities, adjust effectively to any situation, manipulate all circumstances to your optimum benefit, and make the most out of everything around you to achieve your goals.

💡Possess a flawless sense of foresight, enabling you to balance their long-term strategy and tactical moves with unparalleled accuracy, and you can intuitively forecast future trends, changes, events, developments, and respond quickly and accurately to any circumstance or situation, and you are also able to persuade people and manipulate them to do whatever you want by discreetly using various psychological tricks, easily read their intentions, and discover any deception.

💡Be a master of conducting ambushes, long-established military tactics in which combatants take advantage of concealment or the element of surprise to attack unsuspecting enemy combatants from concealed positions, such as among dense underbrush or behind hilltops, as such, you can use any means necessary to do so, from luring enemies into traps to striking from a concealed position.

💡Sense all the variables of any situation for other people, predict the outcomes and what choices the other person could make, and you sense the possible courses of action for the target, and can see what consequences will happen for each action the target can make.

💡Synch, or time your actions to other actions being done around them, meaning you can effectively punch a speedster that is otherwise going too fast, dodge a bullet that is otherwise too fast or land something thrown on the perfect spot on a moving target.

💡Prevent any or all errors and mistakes that may happen in any situation, from weakness to problems to flaws and other things, as such, you can keep them from happening no matter what may happen.

💡Have incredibly enhanced and flawless skill in artistry, meaning your creative skills are ideal to everything in your creative impulse/creativity by the conscious or subconscious response to create amazing art work directly from your imagination by any means such as crafting, drawing, painting, sculpture, music, film, etc.

💡Induce foolproofness onto any situation and plan there is, making it so that the plan is incapable of failing or going wrong, and that it has a high, if not, 100 percent chance of succeeding.

💡Have good analytical and observational skills and an eye for details, as such, you are quick to spot minuscule details which others could overlook and can assess people and situations alike and turn them all into your own advantage and see the optimal way to deal with anything properly.

💡Be aware of your surroundings and be perceptive/insightful of anyone/anything that they observe/analyze, allowing you to read the behavior of any observed subjects and understand details to which others are not paying enough attention.

The Second Stage: Enhanced Intelligence

💡Have extremely heightened and enhanced intelligence and other mental abilities/skills

💡Have intelligence that is significantly above the standard genius-level intellect; possessing exceptional intellectual capabilities, mental capacity and concentration, mental calculations, memorization, perception, deduction, analyzation, cognition and competence, wit and ingenuity, prowess and knowledge, calculations, reading skills, learning capacity, thought process, intuition, and awareness, inventive capabilities, creativity, originality, and more, typically to a degree that is associated with the achievement of new advances in a domain of knowledge.

💡Remember and recall experiences and events inhumanly well.

💡Process information at incredible speeds, allowing you to analyze and come to conclusions at an unprecedented rate, as such, you can even perceive everything at a faster time frame if you so wish.

💡Have your brain process sound information at such speeds that you can hear every bit of an entire song, even if the length of the whole song was accelerated from a few minutes to one second, since you can process the whole song despite its speed, and this also allows you to hear sounds that may be short, allowing you to discern the sound with enough time to react to whatever caused it.

💡Process visual information at an accelerated rate, at the speed that you can see things even when moving at high speed, making you unable to miss a thing, no matter how fast the thing goes, and as such, you can see/process visual information with a very short time, see objects when they are moving fast, see things that may be otherwise too fast, allowing you to discern the sight with enough time to react to whatever caused it, and more.

💡Avoid linear attacks such as bullets and lasers by simply quickly positioning yourself away from the path of the attack before it is fired, and this can allow you to avoid attacks that travel much faster than you yourself.

💡Perceive the future seconds or minutes before the event takes place

💡Interpret and predict enemy attacks and react to the incoming attack, brush off or avoid the incoming attacks even from an unavoidable angle, and if you possess defensive powers and the attack is coming from behind, the defense power can activate on its own to block the attack.

💡Interpret and predict enemy defenses and react to the incoming defenses, brush off or totally avoid the upcoming defenses even from an unavoidable angle.

💡Possess extraordinary reflexes that are entirely involuntary, as such, your reflexes can be used to attack and counter instead of for just defensive purposes. They can flawlessly coordinate their movements, automatically achieving maximum efficiency in any action.

💡Have your mind be capable of carrying out multiple calculations and thought processes at once.

💡 Perceive the information of any situation and use the variables of that information to predict/perceive the paths that lead to certain outcomes occurring, based on what choices are made, as such, you can then accelerate themselves along the path of their desire, which causes them to reach the conclusion of the path taken.

💡 Change your behavioral patterns, reflexes and habits at an accelerated rate, changing how you do things, gaining different habits and behavior within seconds or minutes rather than hours or days, or even months.

💡Read at unrealistic speeds while still retaining all of the information read, as such, you have intuitive knowledge on how to pronounce any word in any language, and you can read any book instantly and completely remember, know and understand everything they read on every page,

and you can perfectly read and write in any language perfectly and effortlessly in an instant, and you can also read an entire library of any size instantly with ease and completely understand, remember, and know what you read on every page.

💡Have drastically enhanced reaction speed, allowing you to dodge multiple bullets, catch flies in mid-air, dodge and maneuver around complex attacks, catch falling objects, block detriments and react instantaneously to what others take more time to react to like high speed projectiles e.g. sniper bullets as well as react to a being with superhuman speed.

💡Be able to induce epiphanies in anyone, including yourself, with an epiphany being defined as the sudden realization and understanding of something previously unknown.

💡Augment, increase the intelligence of other people or yourself to any level they desire, and as an effect, you can immediately conceive complex formulas and models, possible results and other factors on speed comparable to super-computers as well as recall everything you have experienced, connecting and comparing known facts, and more.

💡Do anything at a faster speed than what is naturally possible, including thinking, moving, and more, regardless of what speed time is moving at, and this gives you an advantage in battle as you can think of strategies and fight at a faster rate than your opponent(s).

💡Do tasks (such as filing, sorting, fixing, building and assembling, cleaning, doing chores, etc.) much faster than what others are capable of doing.

💡Enhance the thinking capabilities of yourself and others beyond the norm, not by increasing intelligence, but instead by enhancing the capability to use the already existing abilities to their maximum effect, and this includes intuitive leaps and imagination, highly efficient memory and cognitive capacities and the ability to combine everything you already know in completely new ways.

💡Have your mental abilities, capabilities and attributes are above ordinary members of your species in that verse, beyond what can be emulated via natural training and with little to no maintenance, and this entails that you are smarter, and more, intuitive, charismatic, instinctive, wiser, have a higher brain capacity and deductive ability than all other members of your species.

💡Effortlessly perform complex mental operations that are drastically beyond the capability of a normal human mind, making your mental actions/process of acquiring knowledge and understanding through thought, experience and the senses more powerful than an average person.

💡Expand your sensory and psychological horizons using kinetic energy to amplify mental processes.

💡Use your powers faster than is usual, and as such, you can, for instance, use powers like Fire Manipulation, and use such powers in ways that they are executed faster as well as controlled, prepared, charged, etc. faster.

💡Have your body match your mental speed, and with that, your body can keep up with the mind and act/move at the same time a thought is formed without delay between action/movement, and when the mind thinks, the body acts at the same time, and may complete or near completion at the same time a thought is fully formed.

💡Have your mind and senses process information at such speeds that time appears to have slowed down, allowing you to perceive what would normally be moving too fast to see and respond accordingly.

💡Easily understand, and make easy and understandable explanations of hard-to-get concepts.

💡 Understand complicated concepts and facilitate them to someone easily, as such, you can tap the simplest roots of language that subjects can comprehend and can overlay those simple components of language onto bodies of text, and you can superimpose those simple

components of language onto verbal expressions (allegories, metaphors, stories), and you can also manifest explanatory symbols or images onto or around objects (which illuminate, in time, to demonstrate how to operate them), and you can even stimulate other sensory phenomena (i.e. sounds, textures) to facilitate understanding, where visual stimuli might be insufficient.

💡 Possess a vast amount of information and knowledge on all things, you have innate encyclopedic knowledge of science, the universe, magic, psionics, mechanics/technology, literature, history, etc, and as such, all information and knowledge whether natural or supernatural can be fully understood with this ability, and as the knowledge is innate, no study or experience is necessary.

💡Craft weapons, armor, items, artifacts, structures, etc. to near perfection.

💡Flawlessly craft any item, such as forging the most potent weapons, the toughest armors, the most impressive structures, and the most powerful artifacts to sheer perfection, and you can even create with nothing but the material around you.

💡Have access to and create new ideas (of inventions, artistic designs, craftsmanship, concepts, powers, etc.) that are great in numbers, diversity, and variety.

💡Have enhanced intuition capabilities far beyond other members of your species, which allows you to have access to unconscious knowledge and cognition, inner sensing, insight to unconscious pattern-recognition, great deduction abilities, ability to understand something with instinct, and more.

💡 Invent scientifically complex machinery, electronics, devices, gadgetry or weaponry.

💡Have advanced analytical and observational skills as well as a keen eye for details, as such, you are quick to spot the most minuscule of details which others would overlook, and can assess people and situations alike and effectively turn them all into your own advantage and always see the optimal way to deal with anything properly, and you are also well-aware of their

surroundings and perceptive/insightful of anyone/anything that you observe/analyze, allowing you to see through the behavior of any observed subjects, and gain clear understanding of details that others are hardly noticing from said subjects, and for example, you can predict or anticipate the outcome of an individual's behavior/actions, no matter how subtle or complex, making you a perfect planner.

💡Utilize 100% of your concentration, allowing you to push your physical and/or mental capabilities to their maximum potential, allowing the mind to perceive and respond without any distraction, obstacles become minor problems while objectives grow significantly easier to accomplish.

💡Encode and preserve any and all sources or information, history, data, and more.

💡Be highly resistant to any/all mental intrusion, including psychic or empathic powers, Hypnosis, Mental Hallucination, deception, etc. Mind readers only “hear” static, while mind controllers will have trouble manipulating those shielded.

💡 Be precise with numbers and view the world as a numerical system.

💡 Solve, measure, and calculate problems through numbers without using mathematical operations, but through pure intuition, as such, you have an intuitive understanding of all forms of mathematics, perceive reality as a numerical construct and instinctively identify the variables/quantum possibilities in any situation, and you can isolate/analyze/calculate any/all variables, to solve any/all problems, you possess flawless accuracy/precision, and this allows you to always calculate the optimal choice/tactic in any situation, etc. instantly, as such, you can tell how many bullets there are inside a gun and how many have been shot, the measurements of areas or coordinates without having data of it or any information, and more.

💡Be an expert with the study and utilization of the field of science to produce mass inventions, conduct experimentation, and perform accurate calculations, and you have vast intuitive

understanding in a variety of branches of science as well (biology, chemistry, physics, mathematics, psychology, technology, geography, etc.) and are able to use your intuitive scientific expertise for various purposes, such as; to create weapons, produce lifeforms or clones and experience various types of travel (time travel, space travel or extra-dimensional travel).

💡 Visualize images, objects and information in your mind, like an organic augmented reality or Computer Aided Design (CAD); from visualizing the kinematic movements of an internal combustion engine's mechanical components, visualizing a spring-load mechanism system in a gun, visualizing calculations, computer codes, schematic designs of electronic wiring system, interactive physics, equations, graphs, to visualizing people and their movements, and more, as such, you can interact with the object they visualize; move, rotate, expand, offset, arrange, compute, assemble, disassemble, organize, change, dimension, analyze, simulate and hold it in place as you move around it.

💡Be a master of Psychometry, which allows you to obtain historical memories or sensations concerning beings and objects you observe, and with objects, you gain knowledge including the makers, users, and even those who have in passing used the object, and what has been done with it, and with living beings or parts of the body, you learns their general life-history.

💡Be a master of knowing how to act, making it so that you can make the right actions at the right times, and you can know when to act, how to act, know why it is a good reason to act that way, and do more in terms of acting with this kind of power.

💡Be a master of reactions, making it so that your can make the right move at the right times, whether it would be on tasking, fighting, social reactions, learning something or anything else that involves reactions.

💡Have enhanced wits, meaning you are quick on your feet, are very clever, able to adapt to new and changing situations, and are able to remain cool at all times, and you are hard to surprise or impress, and you can think their way in and out of any situation by knowing what you need to do and how you need to do it, and come up with ideas on the fly, and you can instantly and automatically analyze and understand any environment or situation, and deduce the most optimal course of action, allowing you to make the right decision in all situations.

💡Be a master of how to make the best of yourself, and this includes how to make the best of your abilities, maximize the situation to full effect, making use of what you have available to them, utilizing your maximum potential, how to get the best results and how to push yourself to get the best of your abilities, thus, allowing you to automatically; plan, analyze, and take action with absolute efficiency.

💡Intuitively sense and adapt to future events.

💡Automatically make the most optimal decision in any scenario, allowing you to achieve the best possible results in all fields of life and deal with events in the most efficient manner, and you automatically seize all opportunities and make the most out of any situation.

💡Be completely self-sufficient and as such, you can overcome any obstacle without outside help, whether in the form of actual physical help from another person or objects that you could use, as such, you can even eliminate basic needs like air and food.

💡Be capable of choosing from a certain pathway of choices, a number which will ensure the highest likelihood of making you victorious in any kind of outcome, as such, this power supplies you with whatever steps you need to take at the task you visualize; whether leading, governing, planning, combat, communicating, psychological manipulation, inventing, etc, or even flat out environment control through use of super-powered pawns.

💡Combine psychology with combat, making you a very manipulative and very tricky opponent, causing your opponents to mentally breakdown during combat and rendering you capable of using subliminal hypnosis to influence your opponent's tactical thinking during combat.

💡Possess a mind/instincts that process the world in the most advanced, optimal and efficient manner possible, as such, you are able to find the optimal solution to any/all problems, whether it is about civilization or nature, using the logical/illogical sense/strategies, and you will find the right decision in any situation, multiplying your survivability and success rate, allowing you to overcome any hardship with minimal damage and pull victory despite all odds.

💡Handle anything and everything, regardless of the problem, situation or conflict, and have the needed skill, knowledge, experience, and more, for any purpose, and will know what to do, when to do it, and how to do it, and you will never lose a fight, conflict, etc, because you will always be able to see a way to win or escape any situation, thus you just know what needs to be done to overcome any challenge no matter the odds, by making the most out of any and all circumstances, and tailoring it to your optimal benefit, enabling you to make the right/best decisions in any situation, as such, you are completely competent and aware of all the different facets of every situation they are in, able to perfectly think your way out of anything and achieve optimal results.

💡Automatically employ any/all acquired knowledge and skills at their most efficient form and utilize them in ways that are effective enough to realize your objectives.

💡Utilize anything to your highest potential in the most effective manner possible, and this effectively lowers any chance of failing to complete a set task or risks that may result in an undesirable outcome, as such, you have complete and utter control over your skills and instinctively know which of your abilities will best suit any number of situations.

The Third Stage: Supernatural Intelligence

💡Possess intelligence drastically beyond what is naturally possible.

💡Be glaringly, obviously, and super/unnaturally more intelligent than other beings in your universe because your mental capabilities and applications are pushed beyond the natural level; making you immensely smarter than regular beings (in that verse).

💡Sense the weakness of almost anything, including people and objects, possibly including more insubstantial targets such as relationships, societies, organizations or laws of nature.

💡Know the answer to any question or problem you happen to face and formulate how to overcome any obstacle, as such, you can understand the mechanics behind any issue you face and know what must be done to solve any problem.

💡Control reactions, causes and their effects in any sequence, this effect causes one (often seemingly unrelated) effect to give sequence to others continuously, as such, you can induce singular actions that modify the course of any event to bring out a specific outcome.

💡Acquire information by means other than the ordinary senses or previous experience.

💡Possess extrasensory perception: essentially a sixth sense that allows you to acquire information by means independent of any of your known senses or previous experience, and this applies to any and all kinds of information, knowledge, wisdom, experience, and more, and this information can be either personal (memories, thoughts, etc.) or impersonal (academic knowledge, data, etc.), and this ability can be used passively (as an instinctual reaction) or actively (by wanting to know specific information).

💡Perceive all and unaltered factual information about everything in your surroundings; molecular makeup, age, name, how it works, how it was made, issues, etc.

💡Possess absolute and infinite knowledge of the future.

💡Be all-knowing over the future, possessing limitless, infinite, absolute and maximum knowledge and information over all impending events, and this allows you to know down to the exact picosecond when something takes place as well as infinite branches and possibilities in the future, allowing you to "change the future" before it even happens by looking at which decisions one must make to achieve a desired outcome, and your knowledge of the future is so infinite and absolute that you can not only foresee your own future, they can even foresee the future of everything in Existence (i.e., other living beings, objects, places, civilizations and even the whole universe, including those/things that have yet to come into existence.)

💡Discern the past and past events using various means, usually entering a trance while seeing and hearing a noted past event, whether it be concerning yourself or of an unfamiliar lineage in a past occurrence, and as such, you can recall any event that happened in the past, even obscure, intricate events, and this ability shows who did what at that particular time; similar to the psionic/extrasensory ability of Clairvoyance but only seeing anything from the past, despite not being there.

💡Instantly read and understand a person's history just by looking at or engaging in conversation with them, and as such, you will learn where they've been, what they've done in the past, and what lead up to them being with you at that given point, and you can also recover information such as item locations or security codes by observing echoes of those previous events at the moment they've taken place.

💡Instantly understand the complexity and exactness of anything/everything.

💡Instantly understand anything and everything, regardless of how simple or complex, and this power has all variations of Intuitive Aptitude, as well as all kinds of senses such as Opportunity

Sense and Goodness Sense, and you can sense aspects of anything in addition to having all intuitions.

💡Be a master of engineering, the process of using the answers to scientific questions to solve problems, as such, you can use knowledge of science and creativity to create various objects, structures, and machines or to make designs functional, and you can dissect a new discovery to find a way to use it to resolve the current problem.

💡Be a master of reverse engineering, the process by which an artificial object is deconstructed to reveal its designs, architecture, code or to extract knowledge from the object, as such, you can understand how artificial objects work and can even create replicas.

💡Be a master of all martial arts, as such, you can perfectly and without a single flaw or mistake perform any and every type of martial art there is, was and will ever be whenever they want with 0 zero effort, and you also have an intuitive mastery of the associated martial skills, techniques, body language and choice of words subtly sending all the signals to others, granting you major leverage in any martial situation and allowing you to martially dominate anyone.

💡 Build anything with ease from anything, for example you can build a Gundam suit from a pile of junk.

💡Detect/be aware you're being watched/observed through physical, extrasensory, conceptual, etc, means, and through this ability, you will also be aware of how you are being observed, where your observer is, and even who your observer is.

💡Speak, understand and decipher any and all languages.

💡Speak, write, understand and communicate in any language, including computer codes, languages that have never been heard before, sign language (even lip-reading), illegible words, and backwards speech and writing with little or no training, and as such, you can also

communicate with non-human animals or read body language, and this ability works by any one or more of these faculties.

💡Translate all languages and cause others to hear languages they understand and vice versa.

💡Be capable of intuitively translating and learning new languages, including alien languages.

💡Know another one's language through physical contact.

💡Be capable of translating any written language into your own native tongue

💡Perceive reality, allowing you to sense and comprehend the whole truth, facts and mechanics behind anything no matter how it is hidden or how complex it is, as such, you will automatically know if they are lied to and sense the truth.

💡Enter a state of understanding one's self, and everything around you.

💡Perform supertasking; an infinite number of distinct tasks, in series to each other, in a finite amount of time with ease.

💡Have the perfect ability to easily invent technological and scientific devices capable of performing feats such as controlling gravity, energy, time, biology, and slightly warping reality

💡Have the ability to access and create new ideas (of inventions, artistic designs, craftsmanship, concepts, powers, etc.) that are far beyond the scope of most beings in your universe.

💡Have access to an exceptional amount of ideas beyond most limitations.

💡Build, possess, acquire, and/or find very superior technology, including technological advancements and weaponry, artificial enhancements, genetic engineering, god-level machinery, and more, and the technology is so strong that it's capable of completing feats so amazingly impossible that it can control all of reality, grant you absolute power, and more.

💡Possess a powerful perception far beyond normal limitations.

💡Have your perceptive abilities be glaringly, obviously, super/unnaturally superior to others, allowing for superhuman analytical and observational skills as well as a keen eye for details, beyond normal limitations of your species because your capabilities are pushed beyond the natural level, making your perception immensely more powerful than any regular being.

💡Be glaringly, obviously and super/unnaturally wittier than other beings in your universe because your capabilities are beyond the natural level; making you immensely cleverer and enabling you to effortlessly adapt to new and changing situations as well as keeping your cool at all times.

💡Be a master in using preparation time, which is mainly used to prepare various things to outmatch various opponents, and this pep time is also an essential tool in defeating virtually any opponent out there, and it can also be useful whenever it comes to sparring as the user sees fit, and by using this ability, you can prepare and be ahead of everyone, and perform feats such as always making the right choice when it comes to advancing their goals, preventing crisis, and more.

💡Be glaringly, obviously and super/unnaturally superior reaction speeds over other beings in their universe because your capabilities are pushed beyond the natural level, making you able to react faster than regular beings (in that verse).

The Fourth Stage: Absolute Intelligence

💡Possess a limitless level of intellectual and cognitive proficiency that surpasses anything/everything in existence.

💡Have your intellectual faculties transcend all other sentient beings in their universe, and these said faculties include your mental capacity and concentration, mental calculation and

computation, cognition and competence, wit and ingenuity, memory capacity, mental perception, mental focus, thought processing, learning capacity, deductive reasoning, visualization, analyzation, composure, instinct, awareness, knowledge, creativity, intuition, mentality, and more.

💡Have the ability to access and create new ideas (of inventions, artistic designs, craftsmanship, concepts, powers, etc.) that are limitless and boundless in numbers, diversity, and variety, and as such, your creativity is completely free from all restrictions such as experience, knowledge and intelligence, effectively being able to imagine something absolutely unique or what can't be explained by current concepts.

💡Invent and create any item, device, weapon, etc. you want/need with limited resources in exceptionally short time, which can perform actions that manipulate/distort reality.

💡Create new possibilities/methods/ways of doing things in their universe without any kind of limitation or restriction, possibly by altering the laws of the universe, and as such, you can create new ways to get things done, and for example, you could create a new way to kill undead beings or unkillable creatures, way to live forever, way to generate electricity to provide power, way to make machines work without using electricity, make it possible/make ways for humans to do superhuman feats, and more.

💡Sense all the variables of any situation for other people, predict the outcomes and what choices the other person could make, and as such, you sense the possible courses of action for the target, and can see what consequences will happen for each action the target person can make.

💡Instantly understand any knowledge and adapt it for your needs/uses.

💡Gather and instantly understand any knowledge/form of knowledge and adapt the knowledge, skills, powers, talents, etc, to suit your needs, including learning a new talent/skill

and adapting a way to use it despite being disabled/handicapped or a talent that allows one to read quickly could be changed to allow one to read quickly for several different books and subjects at the same time, and more.

💡Improvise in any craft, talent or skill; including cooking, smithing, farming, medical treatment/skills, hunting, cleaning, building, designing, crafting, textiles, etc., allowing you to make do or improvise with the barest minimum of materials, the wrong materials, materials that have nothing to do with the craft, and/or anything else needed/not needed for the talent in question.

💡Copy other people's attributes simply by learning how to use them by observing the desired attribute in action and focusing upon it, and as such, you can observe and copy attributes such as strength, speed, intelligence, agility, durability, and more.

💡Copy the powers of others and intuitively know how to use them.

💡Gain/replicate any kind of knowledge, be it knowledge over a subject, a foreign language, or mastery of a fighting style, and as such, you can duplicate information from creatures or inanimate mediums of data, such as books, computers, etc. the user is also able to stockpile this knowledge on your own and others you have copied.

💡Create/use memory palace, a method of memory enhancement which uses visualization to organize and recall information, and the items to be remembered in this mnemonic system are mentally associated with specific physical locations, and this method relies on memorized spatial relationships to establish, order, and recollect memorial content.

💡Copy any/all movements/actions after observing it performed once, including acrobatics, martial arts, and other physical stunts, and with these skills, you can become masters and incredible at what you do, by combining what several forms and movements in rhythmic motions instead of using the same thing over.

💡Copy any/all movements/actions after indirect observation, including hearing, reading, etc. the instructions on how to do them, as such, you can mimic things such as acrobatics, martial arts, dexterity based tasks and other physical stunts.

💡Analyze and comprehend anything and everything they perceive instantly, including analyzing basic and universal concepts, and this extends to the physical, mystical, or conceptual as well as anything natural, supernatural, divine, transcendent, and more

💡Have direct and total control over your mental structure, being able to manipulate at will their own emotions, sensations, perceptions, consciousness, memories, personality and everything connected to your brain and mind granting highly advanced capabilities, and this allows you both optimal efficiency and maximal comfort in all situations while preserving your ability to feel sensations and emotions, and this ability also grants you complete immunity to mind-altering abilities.

💡Be capable of consciously focusing, and being fully aware of multiple people, dangers, locations, tasks, etc., at once without any trouble or confusion, through either your physical senses and/or supernatural means, for instance, focusing on multiple opponents in front of you, while using clairvoyance to focus on multiple locations at the same time, or being able to use multiple of your other powers at the same time.

💡Learn and master anything.

💡Learn anything from basic skills like cooking, mathematics, and martial arts to high end superpowers.

💡Have an absolute level of wit.

💡Have a limitless thinking capacity, enabling you to adapt to any changing situations, always remaining calm and collected no matter the environment, as such, you come up with an infinite

amount of plans and ideas almost instantly, shrugging away the obstacles through sheer cleverness as well as limitless critical thinking skills.

💡Automatically identify and escape danger without consciously thinking out a plan of action.

💡Be a master of humor, as such, you have an intuitive knowledge of humor, allowing you to make people laugh with jokes and anything funny, and you can also use funny comebacks, repartee's, and insults to bring an opponent's confidence down in battle or to get under their skin.

💡Possess a limitless level of wisdom that can surpass anything in existence.

💡Have your intellectual faculties (memory, calculation, learning, creativity, etc.) transcend virtually all other sentient beings in your universe, as such, you can always make the wisest decision regardless of any situation and can also avoid absolutely any mistakes, and you have the greatest, most supreme understanding and realization of concepts, common sense, people, things, events or situations, resulting in the ability to apply perceptions, judgements, and actions while keeping these understandings

💡Possess emotional intelligence; a very powerful and more evolved form of intellect that is heightened and more advanced above the regular forms of intelligence singular with a mental cognition that roots to so much more then just exceptional intellectual capabilities with knowledge and logic alone but also with the capacity to perceive, understand, regulate, integrate emotion to facilitate thought

💡Evolve your consciousness to reach a new level of sapience/sentience, understanding and level of knowledge and possibly much more, allowing you to reach any level/stage of mental evolution from lowest to the highest and everywhere else in-between ie normal, higher, cosmic, psycho-potent, buddhaic plane and possibly even unimind.

💡Train/teach others to perform skills/use abilities that cannot be taught.

💡Train, instruct, or otherwise teach to others skills/abilities that cannot be naturally taught, for example, superpowers unrestricted to combat and condition, or skills unable to be masterfully performed by someone like them due to whatever reason.

💡Have your thoughts be largely unaffected by environmental conditions, allowing you to ignore time restraints, mentally adjust to your environment, be attuned with novel situations and be virtually immune to the consequences of divided attention.

💡Be aware of anything and everything that affects you on an omniversal scale, so much so that you can see beyond time and space, peering into distant worlds beyond their own, as well as the dangers of which they present to your own world.

💡Have endless/infinite experience, having done literally anything/everything no matter how impossible/unlikely or illogical it is or might be.

💡Possess continuously increasing intellect.

💡Have a continuously increasing intellect which can grow and adapt without any apparent limit, as such, your intellect increases every moment and allows you to solve difficult problems given you have the time to have your intellect increase to a sufficient level for necessary comprehension.

Gene Affs:
