Space Mission Research Project

You are to research a robotic space mission. **The mission must be approved by Mr. MacArthur.** A picture/diagram of your spacecraft and picture your mission took of the object or objects it studied must also be included in your research.

Answer the following questions:

- 1. Name of Mission**
- 2. Who developed the mission and who oversaw the research being done?**
- 3. What is the purpose of this mission? What are the goals/objectives for this mission?**
- 4. When did/is the mission taking place?**
- 5. Where did/is the mission going and where are they studying?**
- 6. Why is this mission important?**
- 7. How is the mission funded and how much did the mission cost?**
- 8. One other interesting fact about your mission.**
- 9. A picture/diagram of your spacecraft AND a picture your mission took of the object or objects it studied.**
- 10. List the websites you got your information from. It should be about 3 or so websites.**
