He started serving the student body as a senator in the Undergraduate Student Government. He is also in the Connected Foundation at Tempe, where he quickly became the president, striving to mentor students.

Campus: Downtown Phoenix

VALUES:

We are running on the four main pillars of community, equity, authenticity, and accessibility. With the Downtown campus being in the middle of the greater community of Phoenix, it is important that we bring the feeling of belonging and community to our students and teams. Equity is essential in our values because it recognizes the potential shortcomings in previous scenarios in which we strive to eliminate. Also, we believe that incorporating authenticity as a value is essential in connecting with and understanding the situations of all students we represent. Lastly, we see accessibility as a requirement to our candidacy and ticket so that we can bridge the gap between resources, students and ourselves. We also think that valuing accessibility encapsulates another important value, such as transparency.

Areas of Interest:

- Providing opportunities to students to connect and express their concerns to Arizona Legislators
- Provide safe and accessible spaces for students to express their interests and concerns and consistent regulation of student health resources.
- Expanding accessibility to which vendors organizations and students can purchase from and/or collaborate with
- Providing more outlets for students to learn about the appropriations process
- Regular engagement opportunities for students through events and collaborations
- Creating a sense of welcoming and bringing more opportunities to the AZ Center, whether it be temporary events or creating permanent spaces for student use.
- Consistent and transparent communication about what students can expect from the university and its administration.
- Furthering a sense of inspiration and creativity to the USGD team and the students we serve
- Increase student accessibility and understanding of university resources i.e funding operations and financial aid
- Increased student engagement on campus and specifically within the online student population
- Diligently targeting and addressing student needs
- Continue providing awesome events, but improve the dissemination of information of resources at ASU
- Advocate for a centralized form or website containing all of the available services a student might need. Make it easier to access

Improve the relationship between Financial Aid services and the Student Body
