"Educate to Illuminate"

Mr. John French- Superintendent Dr. Susan Rossmiller- Principal Mr. Ben Buening - Assistant Principal

Good Morning Highland Jr. High and High School Students,

A few reminders as we begin our 2 weeks of distance learning. Be sure to check into the classroom at the beginning of each class period. What the teachers are doing in the class that day will determine what resources or methods each teacher will utilize. They may be doing a live google meet, which will be seen in google classroom. Some may use a recorded video that is posted in google classroom and can be accessed at any time. Other teachers may just post an assignment for the student to complete in google classroom. All of those options will utilize google classroom; our students have all been using this in their classes and are familiar with it already.
If you or your student has specific questions about assignments they can email the teacher or comment in google classroom.

If your student needs something from school please contact the school office and we will schedule a time for you or your student to pick materials up from school.

Thanks to all for your patience and understanding as we temporarily shift to this distance model.

Sincerely,

Dr. S. Rossmiller
