

MTF NU-7 “Hammer Down” | Site-66 Information Database

Basic Information:

Document Clearance Level: **L2**
Document Type: **Incident**
Document Creator: **WO ‘Garm’**
Additional Helpers:
Date Created: **6/10/2024**

Report Details:

Date of Incident: **6/10/2024**
Location(s) of Incident: **Twin Pines**

Additional Details:

- Was told by a **XI-8** member to sweep surface as a **XI-8** Operative went **radio silent** after calling in **Sarkic Activity**.
- Nothing at Sarkic tunnel changed, nor windfarm or Island.
- **Three pillars** appeared around Twin Pines, not the same one as the Sat Dish incident a couple of days ago
- Headed over, on the way to Twine Pines from Island.
- Saw a **Ritualistic Statue** in front of the horse statute in town (It had a floating cross with six different colored cubes [The cubes have a meaning, they wouldn't do anything that small for no reason])
- **Biotype 7's and volatiles** began attacking us, we along with CI assisted TIU in the defense of town
- We tried to damage the towers and it barely worked but were forced to focus on the growing number of **Volatiles and Type 7's**
- A weird, almost galactic outer space looking mist started spreading from the statue .
- After a while of fighting, we all focused fire on the towers, destroying them. The towers did fight back as they were being destroyed.
- After the destruction of the towers, we found **XI-8's** Captain severely hurt bleeding black blood, he was brought back to storage for emergency care while we got more O- blood to keep him alive as he keep bleeding
- We burned all the bodies and blood, the town was in ruin.
- Have yet to check all known **sarkic** marking's, will do so after finishing my guard duty for **XI-8**
