

Coordinator Group Agreement

1. We acknowledge the potential power and influence of coordinator communications.

2. We recognise that when we are not in agreement there is potential for confusion in our communications.

3. Co-coordinator decisions and communications

- For any coordinator decision, initiative or communication we agree to seek agreement between all co-coordinators (this includes agenda items).
 - We agree not to make any decision, bring any initiative or communication without having first tried to reach agreement with the other co-coordinators.
 - We agree not to take unilateral coordination actions.
 - We agree not to purport to represent a coordination position.
 - If we cannot reach agreement with our co-coordinators then we agree to explain this to the circle during a meeting. We can then give individual opinions within that context in the meeting.
 - We agree that information and communication shared outside the team requires agreement from all three members regarding content and distribution.
-
