Dear Parent(s)/Guardian(s):

The language arts teachers at Carl H. Kumpf Middle School are excited to share the summer reading lists for the 2026-2027 school year with our middle school students. Each student, including those in honors courses, is required to read one designated book for their grade level and an additional book from the suggested list.

Students in resource-level language arts classes will read only the required book; they are not expected to choose from the suggested list. Please note that resource-level classes differ from In-Class Resource (ICR) sections, which are co-taught by both regular and special education teachers and follow the standard level assignments.

Students (excluding those in resource classes) should prepare for a writing/project assignment on their required reading within the first two weeks of school. We have linked graphic organizers to assist students in developing reading analysis skills, which they will also use for their assignments. These organizers for both required and selected readings **must be submitted to the teacher within the first week of school.** The exact due dates will be communicated once school resumes.

Please make a copy of each organizer for the appropriate grade level to edit, rather than requesting editing access.

****Important Information for Resource Students:****

Instead of reading a second book, resource students will read one fiction article and one non-fiction article. They will need to answer the comprehension questions at the end of each article. All students in resource classes should complete the graphic organizer for the required book and be ready to submit it, along with the answers to the article questions, to their teachers. Additionally, students will prepare a writing or project assignment based on the required book within the first two weeks of school. Specific dates will be provided when students return in the fall.

Grade Level	6th Grade	7th Grade	8th Grade
Fiction Story	Unexpected Fortune	Surprise Encounter	Crystal's Powers
Nonfiction Article	The History of Surfing in Hawaii	The Mystery of the Whistling Building	Pollinators

The attached list includes book titles for each student, along with a brief synopsis and Lexile reading levels. When helping your child choose a book, please consider their reading ability by using the Reading Level column and the provided summaries. All books are grade-level appropriate or below, so you can assess your child's reading level with the visual guide included. Additionally, feel free to consult teachers, local librarians, or book websites for more information about reading levels and title recommendations.

The following table summarizes the above information.
