

Waterton-Glacier International Peace Park

Waterton Lakes, located in Canada, and Glacier together form an international peace park. When formed it was the first ever international peace park in the world. Being an international peace park means that the two parks work together to preserve biodiversity and history shared between the two locations. They also work together to exhibit the idea of peace between Canada and the United States.

Difficulty

Easy

Color Scheme

1- Duck Tape brand "Red"

2- Painters Tape Dark Blue "Clean Release"

* Duck Tape brand "White"- White is the found throughout the piece, such as the stars, the stripes on the American flag, and behind the maple leaf on the Canadian Flag. You do not have to add white as it is already the background color.

Time Saver

- The stars on the American flag can be time consuming. The quickest way is to add a solid layer on blue, covering all of the stars. Then you can add the stars on top of the blue. It is quickest if you do not try to make perfect five pointed stars. For example you could just create dots or rough geometric figures.

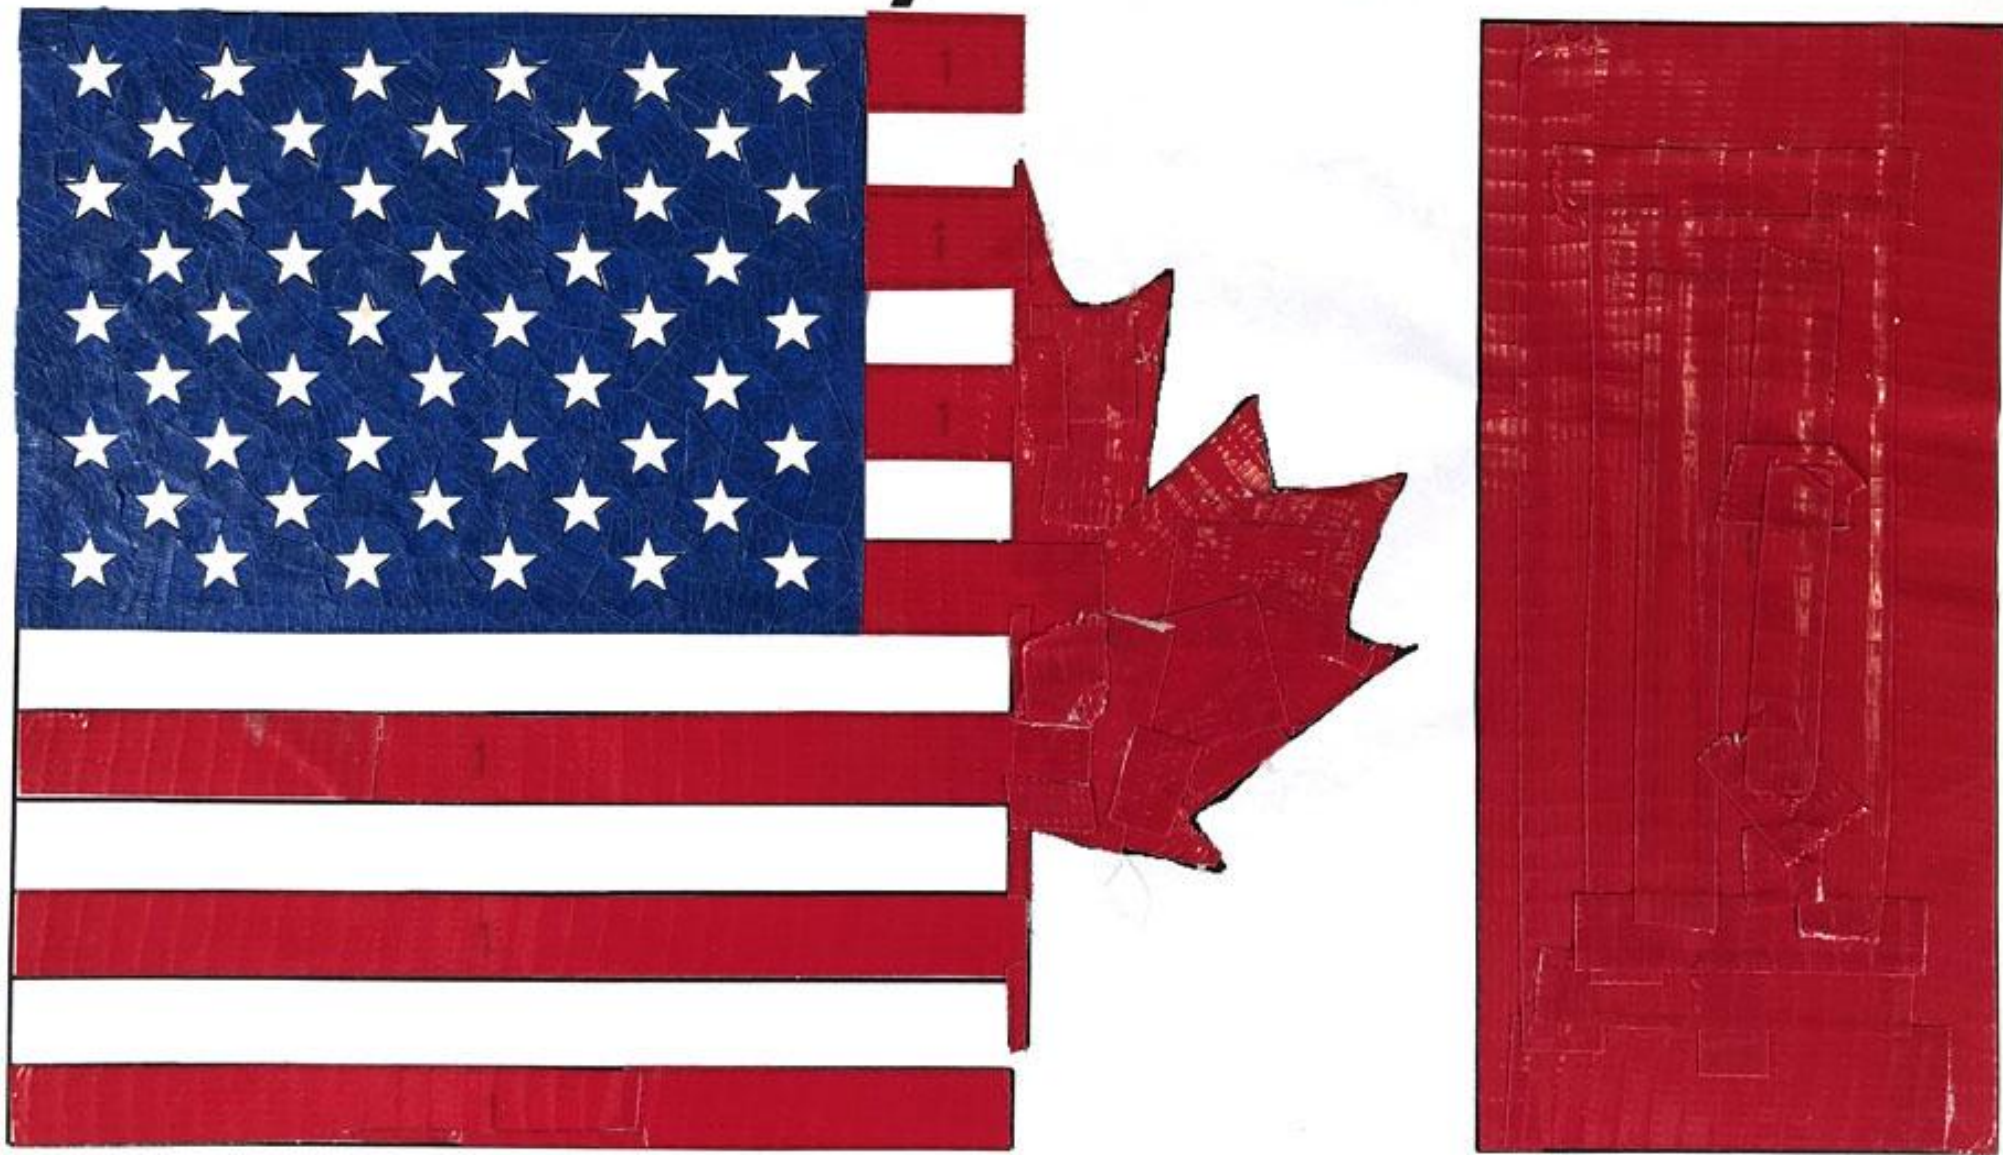

More Advanced

- Trace the words on the page with any color tape that you want to use.

Purchasing Tape

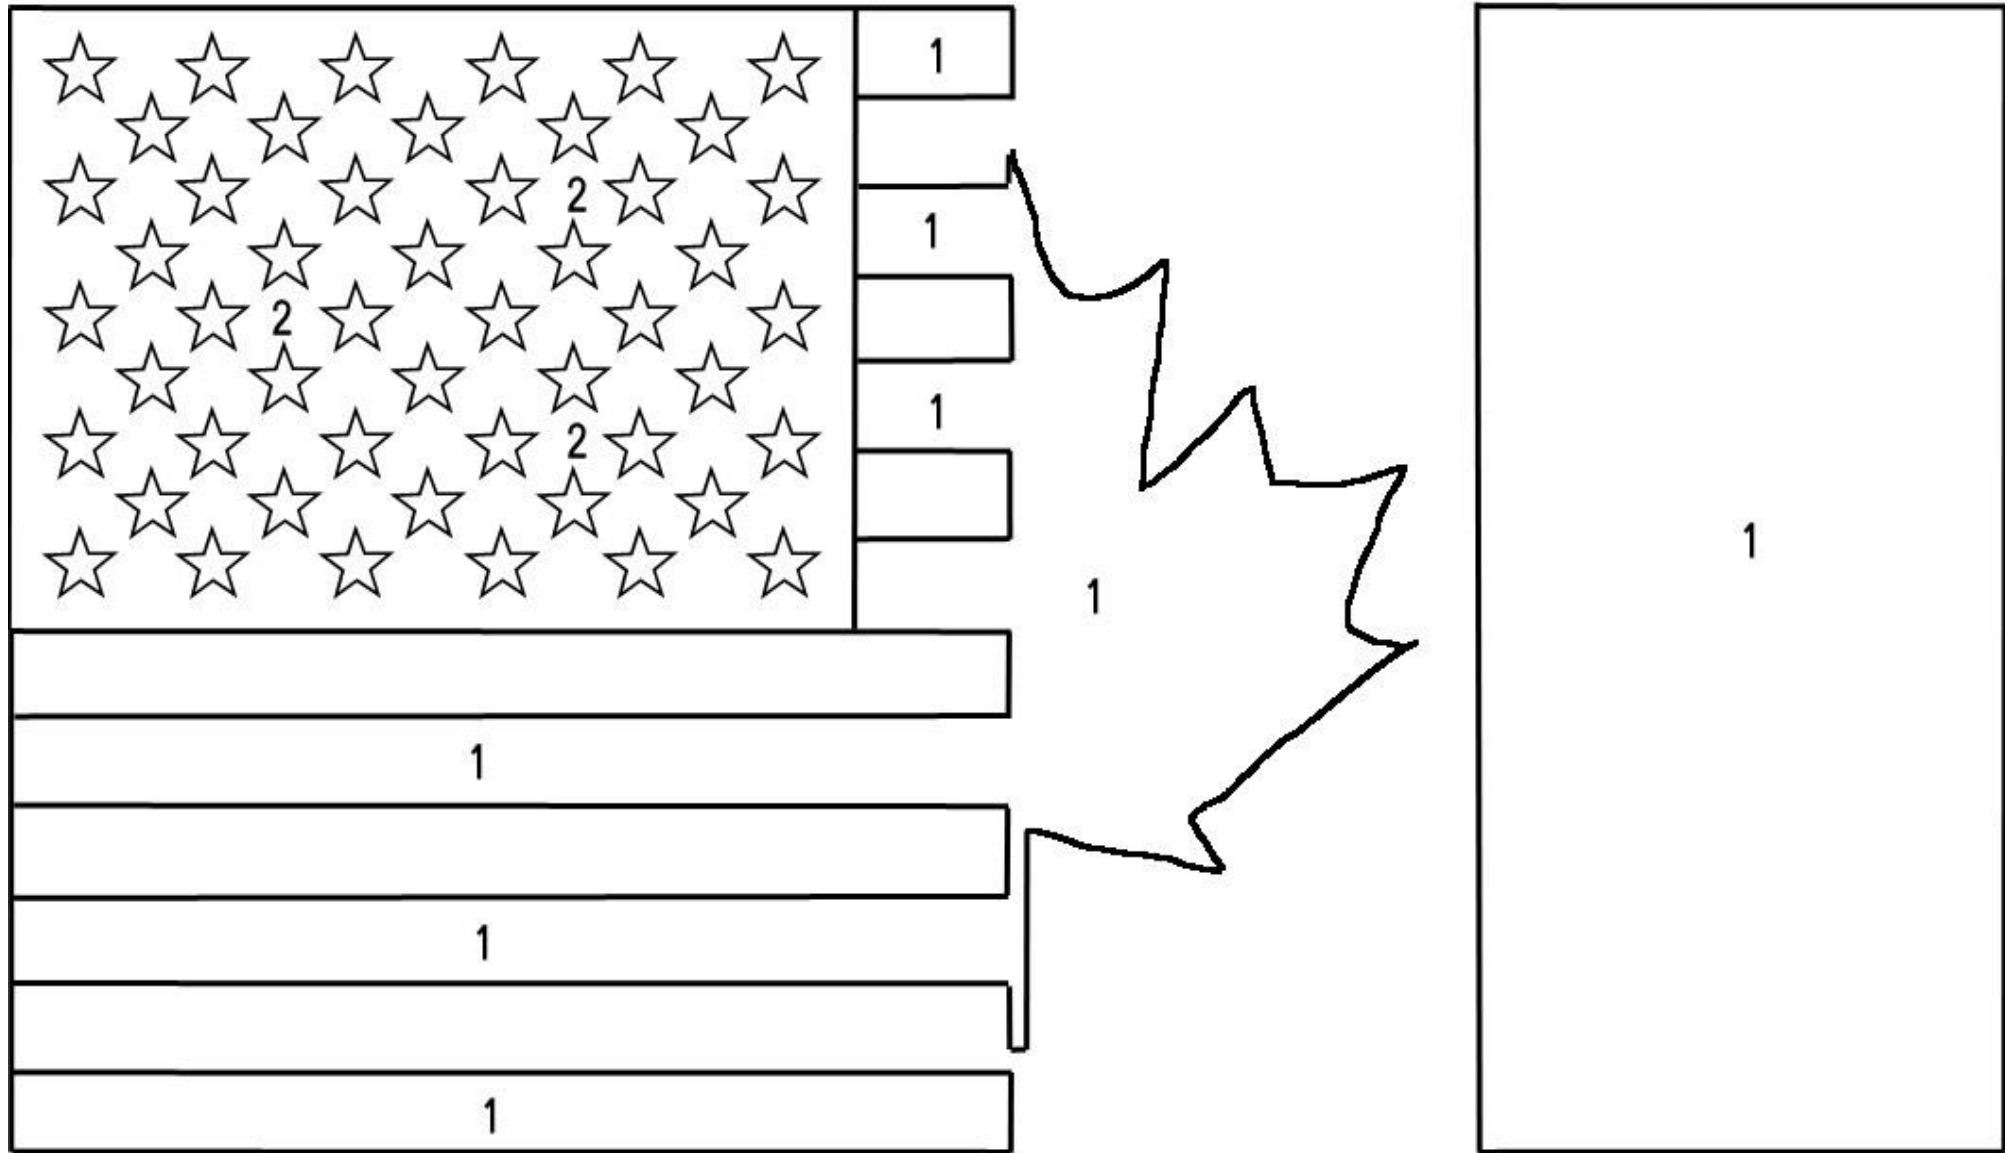

- Most duck tape brands can be purchased at your local craft stores, such as JOANN Fabric, Michaels, or Walmart
- Painters tape can be purchased at most home improvement stores, such as Lowes, Home Depot, or Walmart. Painters tape comes in two shades of blue. This piece calls for the dark shade of the two.
