

MP3 Converter Privacy Policy

MP3 Converter Privacy Policy (Minimal Data Collection)

This Privacy Policy informs you of our commitment to minimizing data collection and our policies regarding the processing of necessary information when you use our mobile application, MP3 Converter (the "Service").

We are committed to processing only the information strictly necessary for the Service's functionality and subscription management.

1. Data Processing and Collection

A. Minimal Data Processing

We only collect and process data strictly necessary for application functionality and managing subscription entitlements.

User Content (Privacy Guarantee): We do not collect, copy, store, or transmit any video, audio, or image files that you import or convert. All file processing occurs locally on your device

Direct Identifiers: We do not collect personally identifiable information such as your name, email address, or phone number.

Usage Data & Analytics: We do not use any third-party analytics tools (such as Google Analytics) or collect usage statistics or track user behavior.

B. Third-Party Service Providers (Subscription Management)

We use one third-party service provider to facilitate the Service:

RevenueCat: We utilize RevenueCat for managing, verifying, and delivering subscription entitlements. RevenueCat processes non-personal identifiers (such as Device IDs, App User IDs, and transaction receipts provided by Apple) solely to track your subscription status (active, expired, trial) and manage purchase restoration. We do not share any personal identifying information (like your email or name) with RevenueCat.

2. Security and Use of Data

Since we only process minimal data through RevenueCat, our use is limited to the following essential functions:

- * To verify and manage subscription access (Pro Status).
- * To diagnose or fix software bugs using anonymized crash reports generated by Apple (if allowed by your device settings).
- * To maintain and operate the core Service functionality.

3. Security of Data

The Service's structure, which involves no server-side storage of user files or personal information, inherently minimizes data security risks. We rely on Apple and RevenueCat for secure processing of transaction data.

4. Children's Privacy

Our Service is not directed to anyone under the age of 13. We do not knowingly collect any information from children under 13.

5. Contact Us

If you have any questions or suggestions about this Privacy Policy, please contact us at:
