MEDICAID

We know many rare disease families rely on Medicaid as a primary or secondary insurance provider.

Medicaid as you know it and rely on it is in jeopardy as a result of proposals coming to a vote next week.

Families like yours who have already called in have forced even worse cuts to be left on the cutting room floor. But next week's vote will mean another 7.6 million people could get cut from the Medicaid program.

The good news is – Advocacy is working!

Please call now and tell your Representative in Congress what Medicaid means to you and your family in just a few easy steps:

1. Google 'Find My Representative' (first link is to house.gov) or call 202-224-3132 to learn who your Representative is and their phone #.
2. Make the call! Tell the staff who answers (both House and Senate) what Medicaid does for your family and what would happen if those benefits were taken away. The staff is there for people just like you, and they are sharing the numbers of concerned callers each day with your Representative. Don't be intimidated because you've never done this before. Make sure you are counted! Too much is at stake!
3. If you have 30 more seconds, pass this one to a loved one to do the same!
4. If you have 60 seconds, send us an email at **(insert your organization email)** to let us know you made the call. We'll even follow up with your Representative.
