

Characters

Marisa Kirisame

- Nice opinions, unfortunately, I have a love-colored Master Spark in my pocket
- Needs more Ws
- Cool and yet endearing
- Ze
- Super relatable! I love how she's managed to pull herself up through just hard work and dedication, to the point she can stand toe-to-toe with some of Gensokyo's strongest. And she doesn't let setbacks keep her down. I want to be like that.
- I like witches, plus Marisa's personality and various design in the mangas/doujins are really cute
- Marisa - Favorite of the two main characters, shes a lost kinder and complex than fanon makes her out to be.
- Gotta put a main character somewhere on here.
- She has a epic design
- Cheerful and curious
- Marisa- Shows true dedication to hard work and is an inspiration to me for self-improvement in real life.
- Marisa Kirisame - daze
- Marisa - She stole my vote
- Marisa - she's such a gremlin, I love it
- Marisa Kirisame - she has the best dialogue

- Hardworking human who's earned the right to be considered one of the strongest people in Gensokyo
- more fun to play imo
- She's best girl. Great design, great personality, pretty much the one human in a world of people with divine/monstrous powers and she holds her own, banger themes, I mean, what isn't there to love?
- Marisa 2 - Her effort and her hiding it through her attitude is endearing
- Killer design, fun to play as.
- Our lady's faithful servant/student.
- Marisa - Her IN bossfight has the most beautiful spell cards and music in the whole series. Adorable tomboyish womanlet.
- She's simply unmatched
- My favorite out of the protagonists. I dunno, she's cute and has a big hat
- Marisa - she is funny

Reimu Hakurei

- Pretty
- Its Raymoo
- Cute
- Reimu - One of the most human protagonists, with many faults, but always does the right thing in the end.
- based yokai exterminator
- Can easily relate to her.
- Reimu is also deeply relatable, I hate doing work, but people at my job rely on me, so I try to do my best and just get it over with lol

- I like her dialogue
- She can fly
- Reimu - 156901, can't beat this one
- There's a reason Reimu is mostly the main character, although I have preferred her PC-98 version lately.
- Reimu- Sarcastic. Cute
- Reimu is by far the most developed and interesting character. She's also just fun to think about from a literary analysis perspective. And she's cute. That last part is important.
- Attention all Touhou gamers: Reimu Hakurei is in great trouble and she needs your help to wipe out the youkai at the Youkai Mountain, but to do this she needs Fantasy Heaven and a couple of bottles of sake. To help her, all she needs is your credit card number, the three digits on the back, and the expiration month and year. You'll also have to donate to her shrine. But, you gotta be quick, so Reimu Hakurei can save Gensokyo and achieve the epic youkai genocide!
- Reimu - she can float! Bless her small hitbox.
- She's Reimu fucking Hakurei, the shrine fucking maiden of the fucking Gensokyo

Yukari Yakumo

- KKHTA
- Trains
- Yukari - Unique character that pulls the strings, is stereotyped as evil but is actually doing everything for Gensokyo's sake.
- Why Yukari? That is a question.

- Yukari - One of the more complex characters in the franchise. It helps that she's a regular in the works. Necrofantasia also served as a gateway to the series.
- she's cool i guess, wish they did more with her character
- Idk. I just like her. She's the funny Border lady. Also, I like her dress. And the fact she just chucks a f'ckton of trains at people
- Yukari Yakumo - interesting ability and fascinating schemes
- Yukari - boobs
- Mysterious and charming gap ha- I mean youkai
- Yukari Yakumo - Number 5.

To start this off; Yukari can be anywhere on this list from number 1 to 5-- but for fairness, I'll rank her at five for today. Like the rest of this list, an extremely interesting character with an even more interesting ability. And Necrofantasia is one of the best tracks of all time.

I do hope to see more of her.

- u/justbeho note : you didn't vote her. Its freakin emptyfajs lefiassfsealfjagslg jasgjias e. I added in the vote for you.

	Patchouli Knowledge	Reimu Hakurei	Cirno
1			Yukari Yakumo - Number 5. To start this off; Yukari can be anywhere on this list from number 1 to 5-- but for fairness, I'll rank her at five for today. Like the rest of this list, an extremely interesting character with an even more interesting ability. I do hope to see more of her.
	Marisa Kirisame	Kogasa Tatara	Zanmu Nippaku

- Design, smart, trolling. Important recurring character.
- Mysterious characters, huh?
- a few fanfics are admittedly the reason i enjoy reading about yukari, she's kind of divisive in the sense that in fanon she's either a cold

monster or a lazy oaf with no in between. i like her as a character and not as an individual

- She's the kind of character everyone sees and knows she's going to cause problems but is very entertaining with it
- Mommy. I dont like her purple dress look but her sage outfit is peak character design. I love how she's basically Reimu's boss since she owns the barrier. Her mysteriousness is also cool. Her sprite in IN that makes her look like a granny in a wheelchair being pushed by her granddaughter reimu is really funny to me.
- Mysterious old lady.
- I like trains.
- Yakumo Yukari - I just like characters that are mysterious but also holds immense power
- Yukari - Honestly I'm just attracted to very powerful woman.
- She's badass, she's cute, she's stupidly overpowered in a really unique way, and her theme goes hard.
- Gensokyo's mom.

Yuyuko Saigyouji

- You should Ghost Yourself now
- Mysterious, aloof yet cunning, she nice
- Yuyuko- she's the best 2hu
- Yuyuko - Yuyuko is the epitome of beauty. She has a beautiful design, beautiful song, beautiful personality, and a beautifully tragic backstory.
- probably smells good? pleasing appearance, nice colors
- I liked she's contrast

- Cherry Blossoms, Border of Live, Fight patterns, pink haired ghost.
- shes a cool and funny character
- shes the yuyuk (aka my mommy)
- Yuyuko Saigyouji - Number 3.

Like with 1 and 2, her design, personality and attacks are immaculate. I do wish the fandom finally dropped it's immense flanderization, because Yuyuko is infinitely more deeper than "haha funny ghost glutton".

She's an extremely layered character and the fact that you can already tell it in her dialogue alone when she barely has a few paragraphs to her name in the mainline series entirety makes it quite obvious why she's my third pick.

Border of Life is one of the best of all time.

- Great backstory and even better music.
- Another adorable character. Border of life goes so hard, and I love her backstory (even though it's a bit sad), and also the detail that she can straight up kill anyone so long as they haven't drank the hourai elixir (which is like... 3 people in total I think). Also a really fun design. Also listen to her Akatsuki Records song, it's great! Also the resurrection butterfly fake out was great :)

- Yuyuko:
mukbang

Ok but seriously Touhou 7 is my 1st game and her spellcards and theme are what got me into Touhou and download more games. Also I like her character design.

- Yuyuko - her spell cards and the Resurrection Butterfly are pure kino. Sweet despite having a very scary ability

- Very sexy
- Ghost mommy.

Patchouli Knowledge

- Wife
- Cutee
- Patchouli is deeply relatable, I too am physically frail and want to sit inside by myself all day. Also her design is cute ♡♡
- She was fun to fight in Touhou Luna Nights
- The Unmoving Great Library is Greatly Moving
- Patchouli - literally just because of her dumpy in lostword
- patchouli is very relatable in the sense that i too get sick from studying too much
i want her library so goddamn bad it hurts, not from mercury poisoning thankfully though
- Patchouli - nerd with health issues like me
- Patchouli - we stan an autistic queen
- She's a nerd that causes asthma to herself, just like me fr.
- Lazy wizard is funny

Sakuya Izayoi

- Have you even fought Remilia yet? I thought no. So now Remilia can't be your next fight. But it was me Sakuya!
- The
- Faithful Maid who can stop time and throw knives, awesome. Plus nice themes and fun to play
- Favorite JoJo reference

- I first liked her because of the JoJo references, but now it's because of how badass she can (sometimes) be.
- Sakuya - Night of Nights
- Sakuya - 333108, absolute classic
- shes hella cool bro
- Memes and good written character overall
- Sakuya 3 - She's mostly just here because she got some great fangames. Too bad the Lunarian story in Imperishable Night got dropped. Her appearances in manga canon really are less than spectacular, but the Jojo references redeem it
- Sakuya
She got me my first clear & 1cc in almost every game I played where she's a playable character so she holds a special place in my heart.
Plus ZA WARUDO!!
- Never used to be on the Sakuya train, but Luna Nights converted me.
- Sakuya - Lunar Clock ~ Luna Dial is my favourite music and the first time I fought her my heart stopped when she stop time - genius boss design.
- Sakuya - uh
- Funny JoJo's reference, plus fighting maids are cool.
- Sakuya - i just find her cool

Youmu Konpaku

- Cute gardener with 2 different swords AND a ghost half? Absolutely lovely
- Youmu - She's pretty cool herself, and also cute. Plus I like the headcanon that she's currently dating someone.

- I like the duality of her coolness and her dorkiness.
- She's fun to draw.
- Youmu- I just think she's cool
- Youmu - cute and knows how to cook, wife material
- Youmu Konpaku - 7

The Phantom Gardener. Her design, personality and abilities are nice, along with her theme. Not much else to say here; I really like the character.

- I like swords and PCB
- Youmu

You can't love Yuyuko without loving Youmu eh?

Youmu Bakes a Cake

●

Yuuka Kazami

- I want Yuuka to fucking beat me to death until i'm nothing but a bloody lump of organs and muscles
- Menacing as all hell while still radiating the "really loving and chill" energy somehow
- I like the duality of peaceful and friendly, but will bury you with a smile if provoked.
- I think she is cool and mature, and she can be scary.
- Yuuka - pls rember that wen u feel scare or frigten never forget ttimes wen u feeled happy

wen day is dark alway rember happy day

- Yuuka - her design and color scheme are pretty, her theme of flowers fits with the danmaku idea of most beautiful wins.
- Yuuka Kazami - her fights and themes in LLS were great
- Flower lady who can break kneecaps if you break her flowers. Sign me up, would like to have afternoon tea with her
- Cool hot woman are dangerous for my heart, even more so when they're an actual danger if you don't know what your messing with (ps: I also like her whole flower aesthetic and the gap between how pretty and kind-looking she is versus her true power)
- I'm a big fan of flowers. Yuuka is a big fan of flowers. I am a big fan of Yuuka!
- Scary flower lady :3
- Calling Yuuka; especially modern "evil" may be a reach, but still, I like characters like her. Also her design.
- Yuuka- Please step on me.
- Older lady, menace to Gensokyo
- she seems like she'd be fun to chat with about gardening (this was not at all influenced by me playing touhou mother to completion) maybe i can figure out why i'm so crappy at growing herbs
- alway rember happy day
- Has my favorite design, has multiple of my favorite themes, and is just plain fun.
- Yuuka - I want to step on her
- Youkai moe
- She seems like a chill person
- Yuuka - dangerous flower lady is cool

Utsuho Reiuji (Okuu)

- SHE'S THICC and silly sex birb
- 200 MEGATON TITS
- Adorbirb, nuclear, sun, aesthetics, family, etc
- Okuu - She's a God-Vessel-Cyborg Raven lady. What's not there to like?
- She's real to me.
- Dumb bird with nuclear physics.
- Nuclear autism
- Funny laser birb. Also, SHE'S DA SUN!!!
- Okuu - love her design.
- Grew on me after playing her in hisoutensoku. Turn that fairy into a puddle nuclear birb!
- nuclear birb <3
- birb with nukes
- She's a big dummy and very cute. Also relatively kind when she's not high on a power trip after eating a sun god.
- Also an excellent design. Normally it'd be too overdesigned for my taste with the elephant foot and nucleus foot, but tbh that's just very Utsuho to say "screw practicality, I'm gonna look badass!" Really fun personality, has giant nukes, solar sect of mystic wisdom~nuclear fusion is just... incredible, and she's like one of the only characters with a nickname and I think that's just endearing. Also the fight was great (especially after the Orin hell)
- nuclear birb
- Utsuho - Peak design
- Okuu - Oguu

- Nuclear birb
- Bomb
- I love nuclear bombs

Flandre Scarlet

- First real manga fight scene in years.
- Nice theme
- She is has a pretty unique design
- I like her fanon and her canon
- Flandre - U.N. Owen
- Also cute
- Flandre - shes so cute
- When her them gets remixed it is 10 times better than before
- I loved her concept and personality, really...
- Flandre - I find her relatable for some reason. Childish, unstable and isolated.
- My favorite touhou remix is from one of her themes.
- Flandre - Gooboo
- Magical girl vampire
- Gooboo.

Cirno

- A bus left the Scarlet Devil Mansion, three people boarded at the start, at Hakugyokurou one got off, and half a person boarded, at Yakumo's house two people left. So, how many passengers are in total?
- She's funny

- Cirno - funny baka fairy
- lol meme fairy
- The Memes.
- She is very funky
- Made me discover touhou project; i like her blue ribbon-tied hairs, her ability(ice is da best), and her cuteness. Her theme made me love piano.
- Funky
- She's cool. Okay, bad pun. Idk, I just like how energetic she is.
- cirno - freeze
- It's the memes. The memes got to me, and I find her likeable for that.
- ⑨
- cuz 7 8 9
- cirno
- ⑨

Satori Komeiji

- Real emo
- Satori - she's soft. She's a smart ass. She's funny. She has a cat.
Need I say more? (Also I just love her characterization in EVERYTHING I've seen with her in it)
- I adore Satori. And want to give her a hug. And as risky of backfiring as it might be, there's times where I feel like having a mind reader around for those times I have thoughts I'm struggling to voice would be a good thing.
- Relatable, the feels, family

- I like dark fantasy things and I like detectives and mystery stuff, also mind reading is always interesting - she embodies all these tropes and has a cool connection with her sister, cool design, music, stage, theme, and even her youkai basis is great. She's a great mix of cool and cute and can be useful in so many works as well.
- Interesting ability that has a lot of potential and blah blah blah (im just simping tbh)
- I have a fumo of her!
- I love her story and theme
- SatoRemi forever.

Koishi Komeiji

- Koishi - i too do not think.
- Family, relatable, dorky
- Idk why I left this one blank
- I find her cute, and she has a nice hat.
- she cute
- Koishi Komeiji's heart-throbbing adventure! :) also it's impossible not to like her
- Last Remote is so nice to listen to.
- Joyous!
- A bit of a normie pick, but there's a good reason why she's popular. Definition of no thoughts, head empty, great theme and probably my favorite fight (hard as hell though). Also a fun little design and cool lore. What's not to love?
- Her intriguing nature and spell cards
- I love her whole subconscious mind theme

Fujiwara no Mokou

- She has the sickest drip of all 2hus for reals like shes fire. Just look at her shes amazing. Shes also one of the rare 2hu I like both the canon and fanon.
 - I am a lesbian and can't resist a woman in a button down and suspenders lmao. I also love her relationship with Kaguya.
 - literally me
 - Mokou - Mokou
 - The music really makes this character for me. Reach for the Moon, Immortal Smoke is probably one of the best songs.
 - shes a unique character and i like fire
 - I couldn't pick her for number 1, also she's my favourite out of the immortals on the basis of having a cool design and a cool backstory. Idk what else.
 - Pants in gensokyo real??
 - one of the few characters i can think of that managed to write perfect immortality in a way that both works and is interesting, at least as far as fanon goes
- i also just adore anything IN-related, but both her and Kaguya's themes are what hooked me into touhou to begin with
- Mokou
- Yeah character design and all that. Usually I don't like characters with fire moves because it's kinda lame but this is an exception.

Seija Kijin

- I look up to her contrarian nature and embracing being an outcast.
- PRECIOUS TERRORIST, DID EVERYTHING WRONG <3

- erato ho k
- Seija - I want to hug her. She deserves friends. Also she opposed the power structure and fought for the justice of minor youkai in a bout to challenge inequality and injustice.
- funny anarchist
- A dubious little creature getting up to mischief, this is no good
- I love to root for cool villains
- Evil
- The DDC cast is so underrated, and (contrary to her ability) I friggin love this character. Haven't tried out ISC yet, but I'll have to at some point. Good theme, fun design, really cool power, would hug but I know she'd hate it, so I guess I'll just... idk punch her?
- One of the deepest characters ZUN ever made, and the DDC itself is a good part with a more mature and deep story that makes you question if Seija as a main antagonist is actually wrong there.
- Kijin Seija - Man, imagine being able to turn over anything, would be useful tbh
- Seija wanted to overturn the status quo, regardless of whether it was good or not. By ISC, we've already seen how multiple different factions have integrated into Gensokyo's order, but Seija wants absolutely none of that.
- *badly lip syncs The Internationale in Japanese*
- Seija - she is edgy, chaotic and cool

Kogasa Tatara

- She's a silly cute umbrella who just wants to scare people! She deserves hugs!!!!

- Kogasa - Honestly, she's just kinda silly and I love that for her. Also the spooks are funny and the black smithing is a cool little extra zest.
- Kogasa - She's really cute and cheerful, and I think she's in desperate need of a hug.
- Never thought I would love an umbrella that much
- The best umbrella
- Kogasa - best eggplant umbrella in the world
- Wholesome cute umbrella with a surprising amount of effort put into her [eg: Always in a 1-legged post in 17.5; her name being a hint to her talent that was revealed far later]
- Just... friggin adorable. One of the only Youkai allowed around humans since she's essentially harmless, fun theme (although it's not one of my favorites, it does really encapsulate her character), really cool design, and just a great personality with a lot to love. Love seeing her in both canon and fan works! 10/10, would hug and tell everything is going to be okay. Also heterochromia for the win!!
- Good design personality and backstory
- One of the friendlier youkais, only scares people. Her eyes have different colors.

Sanae Kochiya

- The more grounded personality of Sanae makes her one of my more favourite characters
- I love her fanon depictions, both as a silly gamer girl, and as a precious adopted daughter to Kanako and Suwako
- Sanae Kochiya- By her own admission, a more “math and science type”, i.e. my type.

Did I also mention that her theme is a banger? My favourite theme from all of Touhou

- Sanae - Her theme, stage theme, and fight are all so fun, stars are cool!
- Sanae Kochiya - her fights in MoF are beautiful. peak danmaku.
- Sanae - she's bigger than reimu... don't tell her I said that though
- I can't not have Green Reimu here right?
- Sanae Kohciya - 6

i need to protect this girl with my life

I am MORIYA 🐍 🐸 .

I RICH 💰 💵

You're hakurei shrine = poor

Do you HAVE 💰 🗨️ FAITH?

- Relatively nice compared to most of the touhou cast but still has enough ego to be attractive, nice body
- Sanae - Green Reimu Best Reimu
- Who doesn't like this dorky geek, honestly.

Remilia Scarlet

- Remilia - pretty
- My phone background has a photo of her with two pistols
- Remi lob
- Remilia is my all time favorite Touhou character, i could talk for hours on end about the things that i like about her.
- shes cool ig
- Classic Touhou character and a fan favourite. I like her wings but I feel she'll want to just drink my blood...

- i cant leave out Flandre's sister out so yea and also hey mister
- Remilia - h
- Remilia doms everyone.

Aya Shameimaru

- Bird
- Misinformation
- Le secretly really strong character but is unnoticed most of the time in that aspect because she is goofy and lackadaisical most of the time and threw the few fights she had when she is not a protagonist
- Aya Shameimaru - Fast
- aya is based
- Her last name is fun to say. I like her little red hat. And her dialogue as a reporter who gets her nose way too much into people's business (and also stalks them) is really funny. Her game is also fun (but also really really hard). Her sprite in MoF makes her look like a gang boss and it's awesome. There is also an ace attorney styee fangame starring her as the main character. It's awesome.
- Funny and mischievous. Also, her themes are bangers.

Ran Yakumo

- Ran Yakumo - touch fluffy tail
- Fox
- I used to think Yukari was a favorite of mine, and while I still like her, ever since I had the thought of Ran being some "fantasy Agent 47"

who goes around dealing with problematic youkai before they can turn into an incident has proven waaaaay too much fun.

- Ran - Really glad her character and background was expanded in Touhou 19. Very fluffy and cute.
- Foxe
- Fox Calculator that can run Doom.
- Her beautiful hat, her fight (my favorite extra), her family, and most of all: her THEME. I could listen it all day.
- Ran Yakumo - coolest
- Ran Yakumo - I like her dynamic with Chen also she suplex Mamizou in the bkub Chen comic once and that was funny.
- Ran Yakumo - Such an intelligent shikigami is fascinating. plus kitsune representation.
- Ran Yakumo - Number 2.

(!) I've cleared her Extra stage about 8 times this past month. It's really addicting.

(2) She's just an interesting character to me-- Chen is too, but she'll have yet to grow into her own person. Perhaps I just like shikigami? Eh..

(3) Her appearance and demeanor is also enjoyable, and I'm very interested to know her time before Yukari back in the ANIMAL REALM, though I haven't played UDoALG.

Necrofantasy, despite being overshadowed by its sister symphony, is also an amazing track. So is Spiritual Domination and the Speed Fox variant.

- Ran ran ran
- Fox

- I'll be honest, I think I love the fanon version of her over the canon, but I do just really love the mother-daughter dynamic between her and Chen, and the mother-daughter dynamic between her and Yukari (no hate to the shippers, I just have my preferences). Also Necro-fantasy is fun!
- I want to bury my face in nine-tailed floof.
- Fluffy fox girl has fluffy tails.
- Fox mommy :)

Reisen Udongein Inaba

- Must protecc
- She has cool powers and a nice fit. Also i like purple
- Reisen- bnnuy
- Reisen Udongein Inaba - bnnuy
- Reisen - She really cool and the irony that she's one of the more level-headed characters despite her abilities is pretty neat. Also she uses guns. Which is pretty cool.
- Favorite Bnuuy. Like her og outfit with the snazzy suit the most.
- I like her personality and she is super cool
- Reisen - somebody help this poor girl
- Cute bnnuy
- Reisen – gun bnuuy
- Fnnuy Bnnuy

Mima

- Shes a legend. Shes actually evil. Shes a witch. She has some sort of connexion with the moon. Shes very pretty too. I find her design

stands out a lot for a pc98 characters since there are so many maid designs there. I really really like her astral theme. Shes the best.

- Pure meme value. She's never coming back, but I never get tired of people Mima-posting.
- tasty ghost tail i wanna eat her ghost tail like an ice cream
- most badass chracter
- I played as her in Touhou 5, and she's my favourite because she's FAST.

Plus I love her dialogue. Why couldn't I pick multiple for number one...

- Mima is a classic character and she has a good magical design.
- The final boss of Touhou Mahoutsukai. Oh, what are you kidding? She's Mima. Her DiPP theme still being named 'reincarnation' means she lives on in my heart as Touhou's best evil genocide lady
- She's been really only the biggest antagonist for several years now. She deserves it.
- Mima 1 - Sassy, smug witch with a really cool design. Somehow always found ways to return til she got banished to the shadow realm, giving her multiple games worth of lore compared to most one-off characters that may or may not have a cameo in manga now and again. Great theme song.
- Hee hee hoo hoo funny ghost
- Love her characterization and her themes, also she cute.
ZUN please make her canon in windows i beg.
- Mima - she's just neat

Alice Margatroid

- A great foil to Marisa. I love watching the two personalities bounce off each other, and there's a lot of fun What Ifs to her backstory to explore.
- I love her
- Relatable, family
- I'd love to drink tea with Alice, plus her powers and personality are great
- Witch
- Another holder of multiple of my favorite tracks, which drew me in to the rest of her, which is very fun.
- She has dolls i like how she fights

Hong Meiling

- Meiling - I honestly have no idea WHY she's my favorite of the SDM by a lot, but she is. (It's probably because I love buff women and red heads lol)
- Relatable, 中华民族
- Meiling - I like her personality and her design
- honestly out of the entire SDM cast she looks the most "normal" and i like her for that
- Meiling - nice design, definitely doesn't sleep on the job.
- She started to grow on me since she's my main in hisoutensoku. Go china girl go! Punch the bowels out of that shrine maiden's abdomen!
- I like her relative average-ness compared to some of the other characters.
- Meiling- Muscles. And friendly.

- Meiling – She's pretty and she has a stable job. She's everything I want to be.
- Hong - Glory to the CCP!
- China
- Love her thighs.

Eiki Shiki, Yamaxanadu

- The law, relatable
- Why? Just play PoFV, nuff said
- Eiki - I like short hair
- I find touhou 9 characters to be underrated and just as good as the 2 other games that came before and after
- NGL, Fate of 60 Years is just that much of a bop.
- I would listen to a lecture by her for the sole purpose of getting a free walkthrough of how not to get in hell. I might still fall asleep though. She's honestly very misunderstood and underrated. She just wants people to be better :). Also 2 meter tall mommy.

Yuuma Toutetsu

- brutal goat kirby with spork
- Yuuma - fuckin love that gremlin energy she emits.
- Comically large spoon oil gremlin

Hecatia Lapislazuli

- Great personality, design, and meme potential. I'm also very sentimental towards LoLK.

- This is almost entirely design. But also she managed to befriend LITERAL PURE RAGE somehow. Also she's smart and nice to Clown.
- Hecatia: Strongest Touhou character, good fashion taste, not afraid to be goofy, courteous, highly intelligent(She had Reimu and Marisa
- I like her whole modern look

Rumia

- Rumia - Love her fanon lore
- She's cute
- osana reimu made me cry
- Why does this little fairy control darkness and labeled as "man-eating youkai"?

Also i wanna say that eosd is overrated, im gonna gain hate but this isnt be public right?

Sorry for irrelevant rating, just that this is why i rate rumia this low

- Osana Reimu

Kasen Ibaraki

- How can you read WaHH and not vote her?
- Kasen is Kasen. Well, I like WaHH and Kasen because of how her story delved into past sins and what it means to move on from them.
- Kasen - i like animals and think that she is an interesting character

Byakuren Hijiri

- Byakuren views Gensokyo differently than others, and seems to be the only character actually focused on changing and improving society in a way that isn't totally nebulous.
 - One of the unambiguously good characters in the series who has made positive affects on people in the series, shes great.
 - Byakuren - love her character
 - Byakuren Hijiri - she's actually doing her best to help youkai. but her portrayal in AoCF is less than stellar.
 - She's literally the most morally correct character in the entire franchise
 - Game is good(if you want it very challenging) and the design and theme are fantastic, No Wonder why they call it, Touhou 11
- Unidentified Fantastic Object

Rin Kaenbyou (Orin)

- Orin - Cat dance
- Personality, kasha, family, zofie
- Cute
- so joyful
- Big kitty goth gf
- Cat
- One of the cats of all time

Kanako Yasaka

- Big fan of her design and theme, also the lore present
- 1 - Kanako Yasaka

Between Ran, Yuyuko and Kanako; it goes to her today-- though all of them and my general top ten are exceedingly interesting characters and the top 5 switches order very often, Yasaka is most often the frontrunner.

. The idea of apotheosis to me has always been quite interesting and it has inspired me to read more into Japanese Mythology to know her and Suwako's origins. Her appearance, the way she carries herself, her attacks in MoF--- all of it is exceedingly fit for a goddess. I'd love if we had more lore on her and Suwako, but I know that's unlikely to happen.

I won't yap too much here, but that's my pick.

Suwa Foughten Field is amazing, too!

- Kanako - Personally responsible for the events of 3 full games; clearly the most important character

Suika Ibuki

- Something about a constantly drunk character is appealing.
- Suika- Oni has big horns
- what makes me a good Demo-oni?

Toyosatomimi no Miko

- Trans
- One of the most nuanced and well-written characters in the series.
- Toyosatomimi no Miko - I enjoy her efficient manner
- Miko - cuz shes the best, duh!
- Toyosatomimi no Miko - Do I need to explain?

Tenshi Hinanawi

- Always liked her to some extent but she really grew on me after hisoutensoku. Rocks supremacy.
- Tenshi
I just like her design
- Tenshi is just a spoiled brat Imfao. She's a great character.

Mystia Lorelei

- Birb
- I put 100 hours into mystia's Izakaya
- Mystia - she feeds the people
- Has her own well known fan game.

Shinmyoumaru Sukuna

- tiny evil
I love how shimmy was manipulated into being evil by Seija, left to figure things out for herself, then came back MORE evil
- Shinmyoumaru - Smol, plus her boss music is amazing
- Shinmy- Pint-sized badass
- Naive
- Shinmyoumaru - I want to own her as a pet.
- Very cute! Don't put in a blender

Raiko Horikawa

- Raiko - ok so you know her backstory is basically she turned evil because of the mallet, realized that it wasn't a good thing and she

could disappear when the mallet's energy is depleted, so she went to the outside world to find a substitute for her power source? i admire her for that. i don't know if "courage" is the correct way to represent this, but I wish I had that in me. if i were in her shoes i probably would just accept my fate and wither away.

- Drum lady, her theme is my absolute favourite...
- Very similar to Hecatia actually. Great stylish design, she literally saved Benben and Yatusashi, and then went and got the Prisms back together.
- Horikawa Raiko - Because I like music and she is a musician, and also because I also like drums and she is also taiko tsukumogami (my beloved)

Nue Houjuu

- 🛸🛸🛸🛸🛸 OH NO THE ALIENS ARE ABDUCTING URUMI WE HAVE U SURROUNDED PLANET 🌍🌌🌌🌌🌌🌌
- Nue - Like her design and theme
- Because most of the characters are overhyped and overused by the community that focus only on 1 characteristic of a character, making the character unlikeable, boring and irritating, like Koishi, Flandre or Yuyuko. Unlike Nue, that is pretty much untouched and a bit forgotten, so people did not sabotage this one yet.

Parsee Mizuhashi

- No idea. Cool design, probably has very pretty green eyes.
- cointoss between yuugi 4 me, we love depressed irrational women

- I certainly had flashbacks of her fight, but her two themes grew on me, as well as her design
- Parsee - her theme is amazing
- She's so me
- Jealous, cute, sexy

Okina Matara

- My favourite among the sages
- cool themes, fights you in a chair, funny doors
- She's so cool, from the moment i first saw her design i knew i would love her
- Intelligent and kind of a dickhead, plus she enjoys causing chaos.
- Okina - Secret

Rinnosuke Morichika

- Rinnosuke- He took care of Marisa when she was younger and helped her to grow into the person she is now, he did it all out of his free will, so that deserves a lot of respect.
- Man
- Rinnosuke – I like men
- Rinnosuke - transition goals

Eirin Yagokoro

- Mommy ♡♡ Actually, I think she's an interesting character, with a backstory that makes me have so many theories about her motivations and her relationship with Kaguya. But also, mommy ♡♡

- I don't even f'cking know. She's pretty, I guess? That Immortals who saw the end doujin? ???
- Eirin
I find her criminally underrated. She has some of the most memorable and best spellcards in all of Touhou imo and I would really appreciate it if she gets more recognition (looking at you ZUN)
- Her IQ is maximum.

Chimata Tenkyuu

- Her design is really good. I like how dramatic she is.
- Blessed Marketeer
- best design hands down
- Rainbow Market Goddess who is adorable and deserves all the hugs

Kosuzu Motoori

- Kosuzu immediately became one of my favorites when I started reading forbidden scollery. ZUN has always written the younger characters well.
- Really interesanting power, but I love how curious she is
- Bookworm
- Book

Clownpiece

- Beat my ass in LOLK, unique design, prankster but can be heroic
- AMERICAAAAA FUCK YEAH!!!!

Sekibanki

- Bang bang banki banki Seeexibanki... I mean, hehe funny dulahan
- Like Waka, she has a great design and high meme potential. Plus it just feels right to keep the Grassroots together.
- Sekibanki - like her design and personality.

Tewi Inaba

- Tewi Inaba - bnnuny
- Cheeky and naughty

Momiji Inubashiri

- Awoo~
- I'm a sucker for literal background characters with no relevance to the wider work.
- Tengu society and warriors are awesome

Joon Yorigami

- I love how Jo'on has this whole scheme that makes her so invincible that Yukari and Reimu can barely handle it and her goal is to steal a moderate amount of money. I love how they decided she actually needed to be reformed and dumped her off with Byakuren. I love how she kinda reformed for like 5 minutes. I love how she tries becoming an oil baron even though that makes no sense and their response to everyone is 'Shut up, u poor'
And the scene with Jo'on berating Shion is one of the best written, most clever moments in the series, where Jo'on has been using Shion as intended dead weight until then, then octuples down on

loudly berating her until she actually lashes out and becomes dangerous.

also, findom 2hoooooooooooo

- She's got swag.
- She's a bad bitch tbh
- Joon is Joon.

Junko

- Cool design, cool backstory and cool bossfight. Also she hates Lunarians to death, which is pretty based imo
- she hates Lunarians
- Junko - Imagine just being filled with pure hatred (totally not me)
- Theme is a BANGER
- My favorite villain, with interesting lore, beautiful spell cards, and the absolute best theme in the series.

Kaguya Houraisan

- Played the game, read the story, read more stories. Character is a baller. I just wish ZUN would care again.
- Shes so silly

Nitori Kawashiro

- cool engineer
- Has a nice hat.
- I love the music for touhou 10 and specially stage 3 and 4
- Engineer gaming

Chen

- Cute kitty
- Funny baby
- Pet the cat.
- Cute cat

Suwako Moriya

- Mlem Mlem
- Suwako - I think I like blonde people
- Suwa Suwa, I love her theme and the dynamic with her and Kanako, along with Sanae
- Suwako Moriya - Number 4

Whilst Kanako has her beat in appearance and some attacks, the amount of potential lore for Suwako is truly amazing. I've seen many interpretations of her and they're all insanely good with what little ZUN has left for her. I think she can be extremely versatile in her use, and like the rest of my list; I don't have a problem with her at all. Native Faith is also amazing.

Seiga Kaku

- She's an irredeemable bastard. She's so immoral and that's why i like her so much, i wish we saw more of her
- I like evil characters; and she was the first unabashedly evil character in modern canon. Also I like her design.

Yumemi Okazaki

- Yumemi Okazaki- Honestly, pretty similar to Renko- physics girl with natural curiosity

Hata no Kokoro

- Hata no Kokoro- she goofy

Renko Usami

- Other lesbian
- Renko Usami- I've always had a soft spot for physics girls, and I admire Renko's unflinching willingness to step into the unknown in search of knowledge.

I don't know whether I want to kiss Renko or be Renko. Probably both.

- She's a physicist (she's just like me fr fr)
- 1/2 of the best duo in the series.

Yuugi Hoshiguma

- Blonde one horned drunk oni, my beloved
- cointoss between parsee for me, honestly she's my favorite out of the onis
- Yuugi- Muscles. And Oni
- If I were a bad demo-oni I wouldn't be here punching ya now would I?
- I may or may not have a thing for tall women.

Wriggle Nightbug

- Been making mmd animations/writing short fics about Wriggle footdoming Remilia, among other characters, but mainly Remilia. I have fixation
- Funny bug

Mamizou Futatsuiwa

- Mamizou - trickster racoon, also hey tails fluffier than rans
- She appears so often in both games and manga, but she feels so criminally underrated. Other than just being a fun character with good interactions i think there's a lot of depth to her if you look closer
- Interesting character, featured in many stories.

Doremy Sweet

- Doremi - smug
- Doremy Sweet - Dream characters are pretty cool, also imagine how a nightmare would taste
- :3333333

Shinki

- she created alice
- I like the vibe of Mystic Square, thus the creator of Makai.

Hina Kagiya

- Always spinning in our hearts.

Mononobe no Futo

- I love her mainly because her design is similar to Shingyoku's priest form, but after getting to play TD I fell for her character as a whole. I love her memes too lol. My favorite windows 2hu :)
- She's funny
- skamtebord

Tsukasa Kudamaki

- Sex fox
- the most evil smart and modern character
- Tsukasa - She does a bit of trolling
- Fox (say gex version)

Keine Kamishirasawa

- I like her because shes a shapeshifter and i like the shapeshifters of touhou. For real I really like her character. I bet she adopted at least 2000 children. She probably won many candy crush tournaments against the other moms of Touhou. She and Mokou are also my one of 2 touhou ships that i do ever and theyre my serotonin.
- she's nice enough :)
- Keine - Wish she was in more stuff. Love her design and friendship with Mokou.
- History teacher with a cool hat. I read history books in my free time and i like cool hats. So she's a cool gal in my eyes. Her stage theme is also my favourite th8 track. Very underrated character that sadly has 0 major appearances other than her initial one (barring cameos in print works).

Komachi Onozuka

- Komachi - She's a very friendly person despite literally being the spawn of the Grim Reaper. She's also pretty cool! Sure she's lazy, but when she gets serious, watch out!
- Komachi, 10^9 sized boobs
- Komachi - Redhead (cool hair color) Scythe (coolest weapon) slacker (literally me) lady that unintentionally does the LTG quote to people she meets which is funny. Seeing her in a random youtube video is the reason i got into touhou in the first place, since i liked her design so much. Being a shinigami that doesn't actually kill people because she is too lazy to take that job is a pretty cool concept. Her ability to manipulate distances is displayed in a very cool way in WaHH and other works by Aya Azuma. She's also very talkative with the spirits that get sent her way which means she probably knows a lot of stuff from conversations with them. Imagine if she had a conversation from some famous person that incidentally got sent her way, like say, genghis khan (though unlikely since i think all the spirits are gensokyo ones, but it's fun to think about).

Her portrayal in some fanworks has her question the nature of herself as a shinigami and the death of people around her, which is such a cool topic that doesnt get explored enough. I wish she got more representation in the fandom, and i wish the shinigami as a whole got more worldbuilding by Zun. There are so many other things i want to talk about but i think that explains all the major reasons i like her.

- Komachi - enormous rack

Iku Nagae

- Iku Nagas- she's relatable.

Nazrin

- She is just a tiny mouse, she is so small and cute 🥹🥹
- creative character
- c h e e s e
- Funny rat is funny

Minamitsu Murasa

- My heart is just drawn towards her like if it got caught on her anchor
- Murasa – I'm a sucker for sailors.

Kagerou Imaizumi

- Like Waka, she has a cool personality and high meme potential. Plus it just feels right to keep the Grassroots together.
- Awoo~
- NOT A CATGIRL, ELMO

Son Biten

- Liked her theme. Plus, she's fun to draw too.
- son biten - goku but touhou
- Son Biten - Goku

Zanmu Nippaku

- cool theme

- Gotta give some love to the newcomers, and Zanmu's so awesome.
The story of Touhou 19 is fantastic
- Letssss do it

Aunn Komano

- Aunn - Youkai design + Personality
- Awoo~
- Aunn - shes nice

Sariel

- Cool design, huge potential, was forgotten few decades ago.

Keiki Haniyasushin

- Funny sculptor woman
- God damnit that moment when the theme starts and we begin to run away, and the piano solo, and her palette, i love this character
- Best music theme ever!

Lily White/Black

- Lily White, just gotta love little miss spring fairy <3
- I am the Lily white guy. She is my funny little lady

Wakasagihime

- Sweet personality, solid design, and very high meme potential.
- I dont know man i just really like mermaids
- Freshwater mermaid.

Star Sapphire

- Very cute and naughty
- Troll bastard that's only limited by her being a fairy

Chiyari Tenkajin

- My spirit animal
- NEET

Sumireko Usami

- Comes from the outside world! This makes interesting interactions with the local residents.
- Funny Chunni

Momoyo Himemushi

- So cool, can eat dragons. I can dig her (get it?)
- Momoyo - Like her design and theme
- Momoyo my beloved

Yamame Kurodani

- I just really like her for some reason, I can't name it but she's very memorable for me
- fat fuck: electric boogaloo

Hieda no Akyuu

- Mostly due to animal planet doujins
- appreciate her preservation of PC-98 FM music

Maribel Hearn

- Lesbian
- 1/2 of the best duo in the series.

Koakuma

- I like her demeanor and personality

Lunasa Prismriver

- I'm depressed and like violins. 10/10

Sagume Kishin

- Her ability is pretty cool.
- Kishin Sagume - Her ability is just cool :fire:

Watatsuki no Yorihome

- Something about the Sephiroth vibe she gives off makes me wish she had been written better, but her powers are neat
- Moonbitch

Konngara

- Konngara Touhoumon Another world carry
- Hes a pretty boy worth 2.25\$ he looks so dramatic like a kabuki actor or something idk. I like samurai boys. Hes cute.
- She's TOO COOL

Mizuchi Miyadeguchi

- this one is just to piss people off lol

- Mizuchi is a really interesting and unique compared to most other characters, and i think she deserves way more love.

Letty Whiterock

- Fatty
- Not really in my top 5 but she's here because I know she wont get many votes. She's a yuki onna and yuki onnas are cool. She just wants to fall asleep all the time except in winter. Literally just like me fr fr. She's also probably cirno's babysitter.

Hisami Yomotsu

- Stylish lesbian queen <3
- Despite being a new character, their personality and design are appealing.

Medicine Melancholy

- one of the most terrifying chracter

Shizuha Aki

- I LOVE AUTUMN

Megumu Iizunamaru

- The way ZUN designed Aya's boss is actually brilliant. She is above Aya. Her power manipulates the Starry Sky; above the mere winds Aya commands.
- Megumu - Blue Aya Best Aya
- Bird is lovely yes

Hatate Himekaidou

- I have a similar personality and lifestyle to her. Also she's underrated as far as the Tengu go.
- She's a bit like me frfr

Yachie Kicchou

- Cool villain that you want to root for, her failure in UDoALG changes none of that

Chiyuri Kitashirakawa

- Shes the best young genius crackhead and the sole reason why everyone should play PoDD tbh :)
- Chiyuri – Again, I'm a sucker for sailors. She's not a sailor though, I think? Eh, whatever.

Kutaka Niwatari

- Cock

Kisume

- My ugly gangrene child
- Kisume - she lives in a bucket aint that cool

Eika Ebisu

- Funny baby
- Eika - Because No one else wi- whatever, I'm tired

Fortune Teller

- Hot

Kotohime

- I'm her in real life

Rikako Asakura

- Rikako Asakura- I love a good scientist character

Yumeko

- If I like Sakuya because of her being the badass maid, I gotta like Yumeko too. Her throwing swords just adds up to the badassery.

Takane Yamashiro

- Pretty nice theme and I like her military camouflage

Rika

- underrated human engineer
- Best engineer ofc

Orange

- Orange – She's like a small Meiling, how adorable!

Enoko Mitsugashira

- New Dog

Tokiko

- Tokiko- a secret fandom for a semi-secret character

Seiran

- Shes so cool and i love her dango

SinGyoku

- I thought it would be very funny to actually put a giant wall of text full of silly things and memes about them which only exist and work in my head then I remembered perhaps some poor mods who didnt ask for it would read that and question the mental stake of a random guy hyperfocusing on a forgotten boss with no dialogues (and ugly sprites btw) so ill give a more legitimate and serious answer: Touhou HRtP was my entry in the series. I knew nothing about Touhou and got in a most random way. I grew up playing a lot majhong games on a windows95, so HRtP vibes immediatly hooked me. I was TERRIBLE at the game I couldnt pass the first stages, it took me several attempts to reach the first boss, so Shingyoku. They were my first real interaction with a Touhou character tbh. I got very attached to them. HRtP crew as a whole was like a 2nd family, but them especially. I loved HRtP because it was so vague and as a Dnd player, I could go wild with interpretation. And also as an artist I value creativity before anything else, Shingyoku's basic concept fueled a lot my creativity. So theyre some sort of a muse for that. I guess you could say its more the idea I made up about the character that I love then but oh well. My favorite characters in fiction have always been of that kind. I like fiction as an invitation to imaginary worlds and

stimulate my brain with creative ideas. So this is why Shingyoku is my absolute favorite Touhou character.

Works

Imperishable Night

- Imperishable Night. That's where ZUN peaked.
- Basically really good stages, specially 5. Bosses like Reisen and Marisa/Reimu are so hype and probably my favorite songs in the main games. Also great characters to choose, I love to play as Remi/sakuya
- peak Windows touhou
- I have a heavy focus on pc98 but this one is my favorite windows entry. I find it has the best flow, soundtrack, gameplay and art of the windows era.
- Imperishable Night - Peak Touhou design and gameplay
- Bopper ost
- i love the story of this game
- The fast paced themes, the bunnies and the human/youkai gameplay was such a good work of art
- It's just good in all areas: music, art, gameplay, story, characters, amount of content. There really aren't any other games in the series I believe which succeed in all categories to the degree that IN does.

Perfect Cherry Blossom

- the yuyuk <3
- Good characters, good scenario, good music, accessible fights (even my mother could enjoy while playing and this is good), it is and will probably stay my favorite for a long time

- Best atmosphere in the series with great patterns.
- Ran. Just ran. (pCB

Forbidden Scrollery

- Favorite manga, available to buy in English physically.
- Best manga, it has the youkai at the most youkai like, and it stars a character that isn't 'in the know' about things. Perfect manga starting point.
- Kosuzu is the main character
- Best designs in the series, plus the lovable kosuzu is introduced to the franchise
- FS - Kosuzu
- Forbidden Scrollery - Favorite of the written works, good premise and mystery format. Kosuzu is fun and it was interesting to learn more about the setting and its rules.

Embodiment of Scarlet Devil

- My first touhou c': difficult as heck but the characters are so memorable and the music still slaps
- yknow the og
- The game that started it all with great characters to introduce
- EoSD – It has Meiling in it.
- Embodiment of Scarlet Devil - Flan :D

Mountain of Faith

- MoF - favorite main series game, very fun.
- fall of fall is baller

- nice music and easy game for beginners

Unconnected Marketeers

- Unconnected Marketeers - I just find this one endlessly replayable!
Also love the funny market god.

Subterranean Animism

- SA is the most grand game in the series. The whole vibe of the game can be summed up as going deeper into hell until you come out into a sunrise below, it's an experience. It's the best 'as an adventure' and feels like it has the highest stakes and most credible threat. I love how the main characters confront Okuu and are like 'haha i am going to die'
Would be best if SA didn't 'have worst bomb ever' and 'needed to be removed from party'
- I have nice memories of this one
- Very fun with good difficulty and feeling of progression with three of the best bosses in the series.

Wild and Horned Hermit

- Wild and Horned Hermite - Liked the scheme based premise. I don't stop thinking about Ed, Edd n Eddy when I read this. Kasen is my favorite manga character.

Double Dealing Character

- I love DDC, it feels like the 'most Touhou' Touhou game to me, whatever sense that makes. The plot is 'the youkai are going nuts, do stuff???' and you fight a bunch of 'here is a youkai' youkai and then go to the inverted castle, which is a really weird location. The soundtrack is amazing, the characters introduced are fantastic, good.
- pretty boppin' music and vanilla-like gameplay
- DDC - it's actually not bad
- The themes are awesome
- Double Dealing Character - everything

Unfinished Dream of All Living Ghost

- First touhou game I ever played
- Touhou 19 has, in my opinion, the best story out of any of the mainline games. The cast of returning characters is great, with multiple characters getting more depth and backstory that makes them even more engaging, and the new characters all having strong connections to other characters and places in the world. There's just so much that i love about this game, even though its still so new lol
- Unfinished dream has hell cat, mommy fox, sex fox, and the rat (and guest appearance of Chen) so best game

Undefined Fantastic Object

- Best "story" in mainline game
- UFO is my favorite Touhou game. There's a problem with so many of the games where it feels like you're bumbling around and the plot doesn't start until halfway through, but UFO starts with you chasing

the ship, so it starts off immediately. I love how everyone in the game is part of the 'main faction' of the game rather than just the last two or three like many of them. It feels so much more connected than the others, which contributes a lot to why the Myouren Temple is my favorite faction in the series.

And going from SA bombs to UFO bombs is what experts call 'a whole ass thing'

- UFO - superb presentation
- UFO: nuenis

Sunken Fossil World

- Fun game
- Insanely underrated. Honestly the touhou game with the best visuals, everything works together so well and creates an aesthetic that perfectly suits the story. And dude, the story, i fucking love it! It brings back characters who haven't had a chance to shine much, and every character feels like they really fit the story. Unlike the other Twilight Frontier games, where the story modes sometimes just feel like everyone's wandering around until they find the final boss, 17.5 has a really clear journey that starts in the forest of magic and goes all the way down to the abandoned hell of bloodpools, and then the final showdown between Yuuma and Okina in the Land of the Backdoor. God, its so fucking cool. The gameplay is really fun too once you learn how it works.
- Sunken Fossil World - Flan is back :D

Touhou Sangetsusei

- Cute and heartwarming stories
- Touhou "Three Fairies of Light" Sangetsusei - Enjoyed the series as a cozy read and as a grade of how the settings shifted over the years. Hope the series gets a new entry at some point, but that probably won't happen for a while.

Magical Astronomy

- Magical Astronomy - man, as a physics student, the cover art is eye candy.
- Magical Astronomy - Necrofantasia

Lotus Eaters

- More Suika is good Suika
- Lotus Eaters - miyoi
- While still going it's my favorite manga, the art and characterization are awesome
- I've written so many long comments and i'm kinda burnt out so i'll just say that Lotus Eaters is good and Mizutaki is one of the best official touhou artists.
- Lotus Eaters - Follows in the foot steps of Forbidden Scollery, but I wish Miyoi took a more active role in the story.
- LE- Shows new characters in new light

Ten Desires

- Ten Desires - cozy game

Foul Detective Satori

- I don't know, i really like seeing that much touhou characters on a official manga that long
- Foul Detective Satori - Don't really like this translation and generally prefer "cheating" even if it might be less accurate. This is a departure from most of ZUN's other manga as he usually likes to make these works episodic while this is more serialized with the central problem stretching over the series. I appreciate older characters given the spotlight that we don't get to see a lot of like Flandre. Unfortunately, it does feel like it suffers from some pacing problems from the new format.
- FDS is finally getting good.

Legacy of Lunatic Kingdom

- I love pointdevice mode, it's great, I understand if it never comes back. It has probably the most distinctive cast in the series, and the plot seems to most impactful and 'important' out of all of them. There's a bit of a difference between 'some youkai are causing trouble' and 'the Lunarians have sent an invasion force to destroy the world'
- nice hard game with the plot being back on the Moon
- LoLK has beautiful and extremely painful spellcards to play against.
- Introduced America to touhou (LOLK)

Highly Responsive to Prayers

- This game ballin for real. I wouldnt even say its a good game honestly, just voting it as my favorite since it was my entry in the

series and im very attached to it. I still think its worth trying as it is an important part of touhou history. Also imo its osts are fire and better than a lot of the modern titles tracks.

- HRTP - underrated
- HRtP – It's so different from the rest of the series. So much simpler. It's really fun when you get the hang of it.

Wily Beast and Weakest Creature

- WBaWC- established a new set of Villans
- Might be quite weak on the side of interesting and fun patterns but the story and themes are the best in the series and the vibes are top three.

Touhou Hisoutensoku

- Hisoutensoku - I haven't played it, and I'm normally not SUPER into fighting games but OH MY GOD I WANT TO PLAY THIS SO BAD IT HURTS!
- Very fun and unique fighter that deserved way more attention than it got in the FGC.

Alternative Facts in Eastern Utopia

- AFiEU - Aya is so terrible in this that it's fucking HILARIOUS. The ads are my favorite part actually.
- AFiEU - Political Satire
- AFiEU - It was either this or Bohemian Archive, PMiSS, or Symposium. They're all lore dumps and are pretty funny, but I think I enjoy AFiEU the most.

Mystic Square

- Get to play as Yuuka
- actual peak touhou

Phantasmagoria of Flower View

- Unique game functions

Story of Eastern Wonderland

- peak music, peak gameplay, peak art, peak touhou
- BRING BACK THE TANKS
- SoEW - It's weird seeing Gensokyo before things really got codified.
The banter is great here too.

Lotus Land Story

- LLS – Solid soundtrack, solid gameplay.

Shoot the Bullet

- StB - cozy game
- StB and DS are pretty fun to play.

Dolls in Pseudo Paradise

- Has lovely mound of cherry blossoms
- DiPP - I find the narrative of this CD really interesting. Helps that i'm a horror junky

Ghostly Field Club

- Ghostly Field Club - best girl Renko's debut

Perfect Memento in Strict Sense / Symposium of Post-mysticism

- SoPM - Religion

Curiosities of Lotus Asia

- Rinnosuke and Sumereiko's stories are fun to read
- CoLA - Rinnosuke

Akyuu's Untouched Score

- anyone knows of a CD of any volume selling to the Philippines? :)
- AUS – It's Touhou music, how can you not love it?

Phantasmagoria of Dim.Dream

- So like HRtP im mostly voting out of nostalgia. I love the characters and soundtracks, I find it has the best art for pc98 era, and the scifi incident is so absurd you know it wouldnt fiy well in a modern touhou game but i love it. I dont really like the phantasmagoria touhous, this one is especially painful, but as the gameplay got way better in TH4-5, characters concepts became very bland so PoDD is still superior in that era to me.
