Dear Parents,

It is a requirement that students at the TCIS maintain their natural hair color. Other colors (including highlights, shading, etc.) are not acceptable. While students enjoy trying new things in the High School, hair color is not one of those things that we allow students to experiment with.

Section 5.4-2 (page 29) of the Student Parent Handbook (Uniform and Appearance) regarding hair color:

- **Hairstyles, if considered inappropriate for students in a school setting, will not be allowed.**
- **Hair, even if colored, should be of natural hair color or hue.**

Please ensure that your child's hair color is back to their natural color before February 22.

Thank you for your cooperation.

TCIS is planning to collaborate with the IELTS testing group and hope to offer the IELTS test right here on campus during the school day on Thursday, April 29.

Students who register and pay the IELTS fee will have the opportunity to take the IELTS during the school day, right here at TCIS.

In addition, the high school is organizing optional IELTS study sessions for the months of March and April during Choice Time.

More information will be shared with parents and students in the coming days.

What is IELTS?

The International English Language Test (IELTS) is designed to rate your ability to listen, read, write and speak in English during the test. IELTS is graded on a scale of 1-9.

IELTS score scale

Skill level	Description
9 Expert user	The test taker has fully operational command of the language. Their use of English is appropriate, accurate and fluent, and shows complete understanding.
8 Very good user	The test taker has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriate usage. They may misunderstand some things in unfamiliar situations. They handle complex and detailed argumentation well.
7 Good user	The test taker has operational command of the language, though with occasional inaccuracies, inappropriate usage and misunderstandings in some situations. They generally handle complex language well and understand detailed reasoning.
6 Competent user	The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations.
5 Modest user	The test taker has a partial command of the language and copes with overall meaning in most situations, although they are likely to make many mistakes. They should be able to handle basic communication in their own field.
4 Limited user	The test taker's basic competence is limited to familiar situations. They frequently show problems in understanding and expression. They are not able to use complex language.
3 Extremely limited user	The test taker conveys and understands only general meaning in very familiar situations. There are frequent breakdowns in communication.
2 Intermittent user	The test taker has great difficulty understanding spoken and written English.
1 Non-user	The test taker has no ability to use the language except a few isolated words.
0 Did not attempt the test	The test taker did not answer the questions.

What IELTS score do I need?

The higher you can score in your IELTS, reflects a better understanding and ability to communicate in English. Each university will have specific IELTS score requirements. It is recommended that you attain at least a 6.5 score.

HS Art Happenings

Art 1 Looks for Inspiration Through American Artist Dale Chihuly

Art 1 students have completed their Dale Chihuly inspired compositions. To begin their unit, we looked at his famous glass works. Then, students did a sketchbook based research essay where they explored his life and forms. Finally, students took inspiration from his style and created their own original compositions from their imagination. Skills learned in our light and shade unit assisted students in creating realistic effects on their imaginary objects. Students decided on their media and then carefully crafted their artwork.

3 Best Practices for Success Using Official SAT Practice

FOLLOWING PERSONALIZED SKILL PRACTICE RECOMMENDATIONS

Official SAT Practice provides personalized skill recommendations based on a student's previous scores on any PSAT-related test or SAT assessment. **Linking their College Board and Khan accounts unlocks these recommendations automatically.** Students can also access personalized practice through short diagnostic quizzes. They should spend the majority of their time on Official SAT Practice following these personalized skill recommendations.

TAKING A FULL-LENGTH PRACTICE TEST

The 8 full-length online practice exams can be taken in one sitting or over multiple sittings. Counselors can work with their schools to **host full-length practice test events** (either in person or virtually) to ensure that students are comfortable with timed practice; this can help reduce test-day anxiety. Encourage students to reflect on their test experience with review sessions and targeted action planning.

LEVELING UP SKILLS

Students can level up in different skill areas, which provides a signal that they are consistently advancing in the content tested on the SAT. **Leverage the student usage data in your Khan Academy coach tools to make targeted decisions about what each student should focus on.**

Additonal Support for Students

The coach tools on Khan Academy can track progress for entire classes, making it easy to support students before test day. When using Official SAT Practice in the classroom, support student behaviors such as goal setting, reflection, monitoring, and adjusting to help your students build expertise and confidence in the right skills. Thank you for your partnership in supporting students on their college preparation journey.

A Message from the High School Principal

Computer Use in the High School

November 23, 2020

TCIS is committed to providing the best education for our students! To help in that endeavor, the TCIS high school made a commitment to using a common computer

platform, the Apple MacBook. A recent survey showed that 95% of students in grades 9-12 are using MacBooks. We hope to make that 100% by the end of this year! Teachers rely on students having MacBooks so that they'll have the computational power to manage the most challenging assignments.

Holidays are coming soon!

In the coming months, many people celebrate the holidays and exchange gifts. This is a great time to purchase a Macbook for your child! We encourage you to consider ensuring your student has a MacBook that will last them through their remaining years at TCIS. There's a wide range of options and prices available.

How can we help?

As always, please don't hesitate to contact us if we can be of any assistance to you.
