[Antitrust Policy Notice](#)

Antitrust Policy Notice

Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Code of Conduct

All participants in OpenSSF meetings are subject to the OpenSSF Code of Conduct. See: https://openssf.org/community/code-of-conduct/

x	Dave	dai@kiara.team	Kiara (Tokyo)		daijapan
x	Anova H				

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
    - Dave from Kiara
    - Anova H. - has worked with Sal in the past
- Collect Opens
- Housekeeping & Updates
    - [Blacklog] Create "OSS Newbie" class & materials #72
        - Related blogs are being published
    - [Blacklog] Security Architecture Education #79
    - [In Progress] ENISA Risk Assessment Framework Course #83
        - David connected Harald with Flavia in LF Education
    - [In Progress] Potentially host an academic venue with an OpenSSF event #85
        - CRob tagged Adrianne Marcum (OpenSSF CoS) to review 2026 events for potentially coordinating this
        - [Justin] OpenSSF side and academics side; Justin has had conversations with other external individual to help construct this (similar to SCORE, but better)
            - Looking at how to collect resources to put together a coherent strategy across OpenSSF to engage with academia
            - Academic Accreditation is moving forward
            - We should think about folding other educational efforts together; look to group everything academic facing, everything LF-related, etc.
        - [DavidW] Probably need to identify the benefits to both sides. I think there's an opportunity, need to put some meat on the bones for specifics.
        - [Justin] Two basic approaches - every academic sees this as a shiny area and wants to participate; make a safe home that keeps industry strongly engaged so conference quality remains high
            - Can we accomplish both? Are there any other approaches that should be considered?
            - Maybe coordinate with an existing conference like ACSAC, maybe NDSS. Usenix has fallen on harder times.
        - Next Steps:
            - [Justin] Academics need to have a similar discussion and take some steps down the path - they they will be more ready to do the actual thing proposed in the issue

- - [DavidW] Schedule a virtual meeting with a whiteboard prior to the holidays to figure some of this out, and incorporate them into the plan for 2026 - **@Justin** will put a group chat together to try and plan this
    - [David] - let's meet within ~3 weeks
- [David W] Courses have been added to the US Government's NICCS [catalog](#) (in addition to LFD121) as of Nov 19
  - Security for Software Development Managers (LFD125); Understanding the EU Cyber Resilience Act (CRA) (LFEL1001); Secure AI/ML-Driven Software Development (LFEL1012). LFD121 was already there.

Opens (pending)

- [DavidW] Note: Added LFEL1001 to "Tradewinds" list - provides US government a list of AI-related technologies.
  - More generally, please help us get the word out about our courses. We think they're good, but that only matters if people learn about them & take them.
- [DavidW] What courses do people really want to see in the future? We have limited resources, need to focus on a few. Ideas:
  - Anything AI related is likely to be of interest!
    - One possibility: How to integrate AI securely into delivered systems (we intentionally didn't cover that in LFEL1001). Problem: we don't know how to do that well, most techniques people advocate don't really work.
  - Security Architecture
  - Risk Assessment
    - Noted earlier
    - Security Risk Assessments. Build on CNCF, OpenSSF guides, OWASP guides, Cyber insurance companies, etc. Cyberrisk analysis currently often poor.
    - Of your own project / product / org, or of someone else's
  - Maybe OSS Newbie? https://github.com/ossf/education/issues/72
- [Justin] How do we deal with new / emerging topics wrt academic accreditation?
  - Should we be creating commonly used artifacts for things like Baseline? (the maintainers can create something to be used by others)
  - Maybe determine a list of topics each year and create common artifacts for them?
  - **@Justin** will bring this up in the next Academic Accreditation meeting
  - Let's create links from Education SIG GitHub page to some shared artifacts

Meeting Notes

- Dave Ishii - I am feeling this WG would be good for my learning - which git ticket is good for me to contribute(like small task for newbie)? I have been doing cybersecurity consulting like ISO/ISMS + AI, crypto protocol but I do not have deep experience. I am hoping to get involved something to do with SBOM (or anything)
  Memo - https://github.com/ossf/education/issues/72
   I found this this issue is "open" and "help wanted"

  https://openssf.org/technical-initiatives/sbom-tools/
  I wil check this ! tks

  - ○ Security for Software Development Managers (LFD125)

- - Understanding the EU Cyber Resilience Act (CRA) (LFEL1001)
    - Secure AI/ML-Driven Software Development (LFEL1012)
- [David W] Secure AI/ML-Driven Software Development (LFEL1012)
  - Will be released on October 16 - launch notification page
- [Justin] Quick chat about moving closer to academia in SSCS
  - Giving a talk about where we are and how we can make things better; has observed that academics who are unfamiliar with how things happen in history are not as effective in conveying impactful info
  - Can we move some of the OSSF events (maybe once per year?) to include 100-150 academics to help cross-pollinate communities? This would require funding and coordination. (this is likely 1.5 years+ out)
  - **@Justin** to create an issue; **@DaveR** to follow up with OSSF on how to make the proposal
    - Potentially host an academic venue with an OpenSSF event #85

2025-10-01 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob
x	Erijo Oghenekome				

Agenda

- (Dave Russo is out; asked David A. Wheeler to lead discussion)
- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- Main topic: Upcoming release of new free course "Secure AI/ML-Driven Software Development (LFEL1012)" on Oct 16. We need to get word out so people will take it when it's released! There's no point in creating a course if people don't take it, and we think this one is REALLY timely.

- - We've set up a "launch notification" page here; if you sign up, you'll get an email telling you when it launches. Please spread this further, this way, people who are interested will immediately find out about its release: https://docs.google.com/forms/d/e/1FAIpQLSfWW8M6PwOM62VHgc-YyogzT-eK_scJVk21BtezFUnJmMx6DQ/viewform
    - If someone can't access that form & wants to send an email request instead, they can email marketing@openssf.org and we will add them to the notification list.
  - When it's available it will be at https://training.linuxfoundation.org/express-learning/secure-ai-ml-driven-software-development-lfel1012 (currently password-protected)
  - Slides for its learning materials (CC-BY-4.0) are here: https://docs.google.com/presentation/d/1SONjRe6mdtqNuUqVE9s5kLC6tUwtuw-XTAG23MjXIFI/edit - but this isn't the full course (audio/video, quizzes along way, final exam at the end so you get a digital badge).
  - Working with marketing so we'll get the word out. Have created marketing plan with OpenSSF marketing. Some highlights (this is NOT everything):
    - Youtube preview video published - https://www.youtube.com/watch?v=Z-Li2PzFgZE
    - Youtube clips (to be done)
    - Add to LF Education Cybersecurity flyer (flyer done, to be distributed at events)
    - PR push
    - Highlight course in various presentations: AI/ML Tech Talk, Jeff D's presentation at PyTorch, etc.
    - Author blog post (for openssf.org/blog) "A New Course on Secure AI/ML-Driven Software Development" (blog post) - https://docs.google.com/document/d/1h2PrLrSeoTRVYnm0Z0QdurgZNOtlxqbr3H9i-l_dp0M/edit - currently in OpenSSF TAC review, for posting Oct 16
    - Promo email to education mailing list
    - Newsletter inclusions (OpenSSF, LF, LF Europe)
    - LinkedIn
    - Post-launch: Tech Talk on Course
    - Post-launch: Q&A video on course
  - We're open to additional marketing ideas! Let us know, David W will share with marketing. Again, we think it's a good course, but it won't matter if people don't hear about it.
    - Create a presentation about our courses, so people can submit those to conferences (need to find a venue)
    - LF Member Summit "Developer Cybersecurity Education Resources" (point to courses & guides)
- Internship on Cybersecurity?

- - BEAR WG manages internships. They completed 2025's. They may do more next year, need to talk with them.
    - https://www.outreachy.org/ - SFC does that
  -

Opens (pending)

- Academic Accreditation Status and plans to expand/advertise
  - It'd be good to market
  - Maybe Christoff can talk at conference
- Global Cyberskills Framework transferring to github, what do we want to do to curate/expand it and continue to advertise it?
  - https://cybersecurityframework.io/
  - One item: Slightly expanding some of our existing courses to cover them (better)
- AfricaCERT (Jean Robert) reached out to explore partnering/collaborating on conference near Madagascar
  - https://www.first.org/events/symposium/africa-arab-regions2025/
  - CRob has posted in the Slack channel that CFP is open
  - Focus is more on CSIRTs/PSIRTs

2025-09-17 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	Erijo Oghenekome				

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens

- "Secure AI/ML-Driven Software Development (LFEL1012)"
  - Course submitted to LF Education.
  - They reviewed with feedback & pickup requests, quizzes & final exam developed/reviewed, all resolved.
  - Slides here: https://docs.google.com/presentation/d/1SONjRe6mdtqNuUqVE9s5kLC6tUwtuw-XTAG23MjXIFI/edit
  - Expected release by Oct 16, free course
  - Beginning plans to get word out - want to make a splash!
    - PyTorch - have already asked some to announce
    - Beginning work with Marketing: social media, probably a blog post
    - Other ideas/suggestions welcome!
  - Briefly walked through presentation
  - Change: Originally we targeted this as "intermediate", but it turned out that the key issues weren't all that technical (just not widely known), so we've dropped it to "beginner". There are a few more technical slides (esp. regarding MCP servers around slide 29), but even for those, beginners will get the gist if not all the details.
- If others are interested in being involved, share with them:
  - https://openssf.org/getinvolved/
  - https://openssf.org/community/openssf-working-groups/

2025-09-03 Full SIG

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	

Agenda

- Anyone willing to assist in scribing?

- Welcome new friends
- Collect Opens
- Housekeeping
  - [Ejiro & Sal] Create "OSS Newbie" class & materials #72
    - **@Ejiro/@Sal** did you discuss the potential class?
    - Draft blog post: https://docs.google.com/document/d/11CdRqhrIHM-ldjYkyXFkCFkbYBmpsOVaze1BkVWf27g/edit?tab=t.0
      - [Sal] A course could still work for this, but at the moment I think the blog series does the trick for now!
  - Security Architecture Education #79 (Backlog)
  - ENISA Risk Assessment Framework Course #83 (Backlog)
- [DavidW (virtual)] My thanks to everyone for commenting on our draft course "Secure AI/ML-Driven Software Development (LFEL1012)"!
  - I completed the learning material, recorded it, and sent it to LF Education. They'll take steps to turn it into a course. The slides continue to be posted (CC-BY-4.0) for anyone's use, here:
    - ☐ Secure AI/ML-Driven Software Development (LFEL1012)
- Light attendance today, very short meeting…

2025-08-20 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	
x	Osham Ndubisi				
x	Lokendar Jangid	lokendarjangid1234@gmail.com	Student	he/him	

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
  - Osham (accent on second syllable) - from Nigeria. Cybersecurity policy.
- Collect Opens
- Housekeeping
  - [Ejiro & Sal] Create "OSS Newbie" class & materials #72
    - **@Ejiro** did you and Sal discuss the potential class?
    - Draft blog post: https://docs.google.com/document/d/11CdRqhrIHM-ldjYkyXFkCFkbYBmpsOVaze1BkVWf27g/edit?tab=t.0
    - No change, waiting for feedback.
  - Security Architecture Education #79 (Backlog) - temporarily frozen, AI course higher priority right now
  - ENISA Risk Assessment Framework Course #83 (Backlog)
- [DavidW] "Securely Using AI/ML to Develop Software" (LFEL1012) course
  - Final call for comments!
  - We have slides & supporting script
  - Had a "dry run" on Aug 15 with CRob & Jeff - main issue is needing to shorten script & slides. Good news: it's a lot easier to trim than to find content
  - Current: Trim, re-read ISO AI spec & NIST guides
  - Must complete all changes soon, goal is to record all slides & provide them to LF Education at end of August.
  - Outline:
    - AI/ML concepts
    - Security risks when using assistants
    - How to securely use assistants
    - How to create more secure code when using assistants
    - How to review proposed changes in a world with AI/ML
    - Wrap-up
  - Draft is here: https://docs.google.com/presentation/d/1SONjRe6mdtqNuUqVE9s5kLC6tUwtuw-XTAG23MjXIFI/edit?slide=id.g3452c05b784_0_105
  - Provide comments as a "comment" on the slide
- General information on the EDU SIG for the newcomers, explain how we approach and prioritize our tasks and collaborate with other groups.

2025-08-06 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	
x	Justin Cappos	jcappos@nyu.edu	New York University		

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- Housekeeping
    - [Ejiro & Sal] Create "OSS Newbie" class & materials #72
        - **@Ejiro** did you and Sal discuss the potential class?
        - Draft blog post: https://docs.google.com/document/d/11CdRqhrIHM-ldjYkyXFkCFkbYBmpsOVaze1BkVWf27g/edit?tab=t.0
    - Security Architecture Education #79 (Backlog) - temporarily frozen, AI course higher priority right now
    - ENISA Risk Assessment Framework Course #83 (Backlog)
- [DavidW] Possibly updating older courses (#949, #950) - DavidW is following up with course "owners"
    - Not a lot of movement, nothing in particular is glaring - we are just checking if an update is needed, David will follow up with owners
- [DavidW] "Securely Using AI/ML to Develop Software" (LFEL1012) #948
    - Jen will take a look and provide some feedback
    - David looking to wrap this up this month at the latest
- [DavidW] Best Practices badge - trying to use some AI/ML stuff
- [Justin] Accelerating accreditation
    - David posted his earlier draft, Justin gave feedback (unsure where that happened)
    - Justin looking for more tangible information on the actual material; David's slides are public and can point him towards them by adding links
    - Justin made his slides public and linked them to his application and we should be encouraging others to do the same or attach the evidence - this should be added to the form

- ○ [Justin] We need one more submission (ideally from CNCF), and then we can update the docs to fix the issues and determine next steps to begin promoting this and moving it forward

2025-07-23 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	

Agenda
- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- Housekeeping
    - ○ Security Architecture Education #79 (Backlog) - temporarily frozen, AI course higher priority right now
    - ○ ENISA Risk Assessment Framework Course #83 (Backlog)
    - ○ AI Course - need an issue filed - **@DavidW** will create one if there isn't one
- [Ejiro & Sal] Create "OSS Newbie" class & materials #72
    - ○ **@Ejiro** did you and Sal discuss the potential class?
    - ○ Feedback due today for https://docs.google.com/document/d/11CdRqhrIHM-ldjYkyXFkCFkbYBmpsOVaze1BkVWf27g/edit?tab=t.0
- [CRob / DavidW] update on the accelerating academic accreditation submissions (from last meeting)

-
  -
    - David - began filling out GMU form. My course doesn't include some of that material, so plan to update my course & then complete form to match
    - No actions from this group for now
  - [DavidW] New AI course
    - AI/ML WG - enthusiastic about class, strongly recommended just doing "first 2 of 3"
    - (1) how to use generative AI to create more secure code [building, e.g., on OpenSSF guide]
    - (2) how to review AI-generated proposals (including countering AI slop from external sources), and
    - Originally also included (3) how to securely include AI in systems, now out of scope
    - Have already initiated creation with LF education - LFEL1012
    - Timeline TBD (looking at Q4-ish); will let us know how we can help
    - Potential complication is a parallel effort to create a "code generation guide" (David looking to use this as a reference for the course) -
  - [DavidW] Updating older courses - David needs to review them and determine if they need to be updated - he will reach out to creators to get their thoughts - he will create an issue for this
    - David will file issue, and then forward question to leads (cc Dave Russo & CRob)

  - Create "OSS Newbie" class & materials #72
    - Ejiro has volunteered to work on this, Sal has offered to assist
  - Security Architecture Education #79 (Backlog)
  - ENISA Risk Assessment Framework Course #83 (Backlog)
- Collect Opens
- [Sal] Follow up from GH Issue 72: Is it time for a new "Getting started with OpenSSF" blog for 2025? Lots of new groups to cover - @Sal/Ejiro would love to contribute.
  - Ejiro is moving into a cybersecurity career, would give a great "newbie" perspective (persona) - a blog would be a great entry point
    - Could include training and resources
  - Another persona is a new corporate participant in the OSSF
    - We could make yearly revisions to the info provided
  - [CRob] May want to reach out to BEAR WG, they are frequently "new" to the cyber world - could be good collaboration (BEAR also has office hours if Ejiro or others would like to talk about their experience)
    - **@Sal** will attend next BEAR meeting to ask for collaboration
  - [CRob] Staff is working on OpenSSF Landscape, Ejiro would be good to get input from for that as well (more info forthcoming, CRob will share around mid-July)
  - [Sal] Kudos from Ejiro's experience with the "Intro to Cybersecurity" course - significantly helped with their understanding
  - [DavidW] Looked into what is already out there, added some info to the issue
- [CRob] FYI - DavidW, Justin and CRob are collaborating with the CNCF on academic accreditation program for cybersecurity, ready for the socialization phase; they will let the group know how we can support that

- [CRob] FYI - Cyberskills Framework - webinar later today to discuss the objectives and info available
  - DavidW lined up the framework with the existing LF education and identifies areas where there are gaps - they will bring this list to the SIG to get some help addressing these gaps and promote new materials
  -
- [David W] AI/ML related course? Brainstorming for ideas - https://docs.google.com/document/d/1w_DJT_RymJGRmUhsw9eIyiL3n3yvLMorij5Yg7W040o/edit
  - Lots of interest in this topic, looking for relevant courses that can be created
  - [Jennifer] I have a wealth of knowledge on LLMs, LAMs, and other AI things. I have worked heavily with them for the past 4 years. Let me know if I can help.
  - [Sal] Seeing mostly concern around LLM usage, has not seen things about implementing systems at banks, etc and ensure an agent is scoped to an environment and shuts off immediately when it leaves scope - this is on a different spectrum from the LLM-specific topics listed
  - [Justin] Does this include flow control (model says you're giving me e-mail, CC# - this data can only be sent to certain modules?
  - [CRob] Pulled into a FINOS project about AI controls in financial services space, may want to connect with them - **@CRob** will make a connection
- [David W] Enrollment numbers - 8495 across LF courses he tracks
- [Sal] Looking for more speakers (can be remote!) for the OpenUK Security Meetup on July 9th (2:30pm EST, 6:30 London) and I would love to have a panel on security education, I think it would have great impact to that audience (a lot of financial services engineers show up): https://www.meetup.com/openuk/events/305734170/
  - Main topic is security education, if that doesn't work it will likely be threat modeling, maybe a sprinkling of CRA
  - FYI - Daniel from Samsung is London-based; DaveR will check his schedule
  - David W will be on a long-planned vacation, but wishes the best!
- [Sal] Simon Brown's C4 modeling, best consulting was cruises

2025-05-28 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

Name	Email	Affiliation	Pronouns	

x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- Housekeeping
  - [Thank Intel for contributing start of LFD125 #82 (PR)](#)
  - [Create "OSS Newbie" class & materials #72](#)
    - Ejiro has volunteered to work on this, Sal has offered to assist
  - [Create Proposal Template on "How to do a Certification/Accreditation" #78](#) (In Progress)
    - They should go here instead: https://www.linuxfoundation.org/academic-computing-accreditation
  - [Security Architecture Education #79](#) (Backlog)
  - [ENISA Risk Assessment Framework Course #83](#) (Backlog)
- [DavidW] CRA course (LFEL1001) enrollment is 3,111 as of 2025-05-27
  - FYI 2026 Obligation presentation: https://docs.google.com/presentation/d/1RSXEk-iTkuQZS5TbN6FQUCIEFIxvn8p5j-yXVdS_uXg/edit?usp=sharing
- [CRob] - Talked with our old friend Glenn ten Cate about the Global Cyberskillz framework - https://training.linuxfoundation.org/cybersecurity-skills-framework/ .
  - Glenn is assigned to it
  - David W will be working on mapping to it (OpenSSF courses), gap assessment
  - This group can contribute as content creators - more info to come
- [CRob] - CRA ENISA RM class based on Harald's upcoming Tech Bi-Weekly presentation
- [CRob] Numerous CFPs are open - Amsterdam, SecurityCon - Atlanta (Nov); please consider submitting a session
  - LF planning on doing more active socialization at conferences as well

2025-04-30 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	
x	Justin Cappos	jcappos@nyu.edu	New York University		
x	Oghenekome Ejiro	Ejirooghenekome@gmail.com		she/her	

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends - Ejiro Oghenekome
- Collect Opens
- Housekeeping
    - We should close this issue: Software Manager Education #48
    - Are these still needed and something this SIG should pursue?
        - Generate an OSSF-wide glossary and definition list for terms used across the WGs and SIGs #11 - glossary.ossf.org in progress!
            - Everyone should contribute to this - CLOSE the issue
        - Create "OSS Newbie" class & materials #72
            - LF has courses, not focused on security
            - **@DavidW** will see what is out there, make a decision on next steps at that time (maybe provide a reference and links)
    - Backlog:

- - ■ [Create Proposal Template on "How to do a Certification/Accreditation" #78](#)
    - [Justin] This effort is in progress, they are gathering info for processes while doing the initial ones - see the GDoc in the issue
    - We will make a good example public for reference
    - Accelerating academic accreditation Slack channel is CNC F #accelerating-academic-accreditation
  - ■ [Security Architecture Education #79](#)
    - Looking for ideas about how to create labs for this
    - Back burner, other items like CRA course have taken precedence
  - ■ "Doing Risk Assessments per the ENISA framework" class - **@DaveR** add issue
    - Outline by late May, we can collaborate at that time
    - EU has concerns with ISOs not being available for free; the risk mgmt info is publicly available, will try to see the delta from the paywalled info
- Ask the CRA Awareness SIG if they have any additional ideas for classes or materials
  - Not a class, but we ARE working on a short page on CRA for OSS developers
  - https://docs.google.com/document/d/1Kjq7B8SMySs0OTd76p0wro-fAvIsbG3y5GnNeTzjTQg/edit
- We need to update the EDU SIG landing page to share our course info - **@DavidW** created a PR and will make the updates, need others to approve - https://github.com/ossf/education/pull/80

x	Justin Cappos	jcappos@nyu.edu	New York University		

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- [DavidW] LFEL1001 ("CRA 101") course status
  - It is out!
  - Understanding the EU Cyber Resilience Act (CRA) (LFEL1001)
  - Course: https://training.linuxfoundation.org/express-learning/understanding-the-eu-cyber-resilience-act-cra-lfel1001/
  - Slides available for reuse: https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - **@DavidW** to add this link & odp download to the repo
- [CRob] "Doing Risk Assessments per the ENISA framework" class
  - Outline by mid-May, we can collaborate at that time
  - Ask the CRA Awareness SIG if they have any additional ideas for classes
- We need to update the EDU SIG landing page to share our course info
- [Victor] CRA vs Baseline; CRA vs EU AI Act

2025-04-02 Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

Name	Email	Affiliation	Pronouns	

x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	
x	Victor Lu	victor_jun_lu@yahoo.com			

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- [DavidW] LFEL1001 ("CRA 101") course status
  - https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - Have developed materials, recorded video
  - Turning into a course - target date April 16 (very aggressive deadline)
  - Have some last-minute tweaks, etc., working on, this is normal.
  - Working on marketing plan. Issue: Need to reach "outside OpenSSF" - concerned we need more. Suggestions welcome.
- [CRob] Clyde's framework and our May rollout - https://lf-cybersec-skills-framework.vercel.app/ - this is a preview of a "build my cyber job skills" tool
  - **** PLEASE DO NOT SHARE FURTHER YET ****
  - Intended to show cyber skills for different job categories, using a maturity model methodology
  - Lots of marketing planned, including podcast
  - Future enhancement includes providing info about related artifacts/training to help people get these skills (such as LF education, other training, and things from other orgs as well); can also be a stepping stone into more robust frameworks
  - This can also help provide guidance to the EDU GIG for training in these skill areas
  - **@ALL** - CRob and Clyde looking for feedback
- [CRob] "Doing Risk Assessments per the ENISA framework" class
  - ENISA source link: https://www.enisa.europa.eu/topics/risk-management
  - CRA-related and would build upon basic class - https://training.linuxfoundation.org/express-learning/security-self-assessments-for-open-source-projects-lfel1005/

- ○ ENISA has a risk assessment methodology that we believe will end up aligning with the CRA requirements, this class would provide this info
  - ○ More relevant to manufacturers than OSS developers, but very useful info to know
  - ○ CRob will be leading this; other members from the CyberPolicy WG and friends of CRob with risk assessment experience
    - ■ This SIG agrees this is useful and is willing to contribute
    - ■ Outline in May-ish, slides in July-ish, course available end of Q3/Q4
  - ○ This will be an LF course, 60-90 mins
- ● Put a pin in building a class for the Conformity Assessment, once the info is available
  - ○ Try to turn this around quickly like we did the CRA 101 course
- ● [Victor] Suggestions to enhance the CKS exam
  - ○ https://docs.google.com/document/d/1T6obXRKQbDGvakoYcSP7l4QjwAAZJ_mmzx_F9Aihmew/edit?usp=sharing
  - ○ **@CRob** can route him to the CNCF education group to share this info

x	Anitha Natarajan	anataraj@redhat.com	Red Hat	She/her	

Agenda

- ● Anyone willing to assist in scribing?
- ● Welcome new friends
- ● Collect Opens

- FYI - [Security for Software Development Managers](#) (LFD125) course went live on March 06
  - (Slack) Travis Truman: "I'm working my way through the Security for Dev Mgrs class and wanted to drop in and thank all who contributed to it. I've been leading a security org with App Sec responsibilities and this content is really helpful for me and other security leaders to share with the peers we depend upon and need to influence to deepen their security ownership through better understanding the role they can play."
- [DavidW] [CRA introduction (LFEL1001)](#) - resolved all comments, recorded video & submitted it to LF education on March 17. We're hoping to release the course April 16, that's an aggressive timeline & not sure we'll make it, but we're trying to get it out SOON. This will be a free course.
  - Jeff Diecks & Dler are coordinating a conversation with OpenSSF Marketing about promoting the course
  - https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
- [Jennifer] Connected with CRob about the certification effort

2025-03-17 Course Content Collab - Canceled

2025-03-10 Course Content Collab

Collab Materials

- Developer Manager [training](#)
- Security Architecture [training](#)

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- Last call for comments on LFEL1001 ("Understanding the EU CRA" aka CRA 101) https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit

2025-03- 05 - Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	Jennifer Morales	jennifer.morales@infoseceducators.com	InfoSecEducators	she/her	

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- From last time:
  - **@DavidW** to ask Flavia is the LF has a one-pager on how to create a course - there are different kinds, 5 min, 60-90 min, "More"
  - They are in the process of putting something together (short intro video)
  - "We currently don't have that. But we will be creating a short introductory video in the next 2 weeks or so, and we will share it with you - thank you for this idea. The video will not go in detail about how to create a course, but will cover types of

content and general collaboration with authors. We provide detailed handouts directly to authors when we start working with them."
- [DavidW] "CRA 101" course is coming along!
  - Draft slide deck is here: https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - Feedback was due on Feb 25, being incorporated into content
  - Will next convert slide text into speaker notes and reduce the slide clutter
  - Our courses focus on what devs and mgrs need to do, plus many specific citations to the CRA - these set our course apart
  - We want to release this by end of June at the latest; LF education has limited resources so we need to get it into their hands ASAP
- [Jennifer] Offering to assist with the Academic Accreditation courses - that team meets on opposite weeks of this meeting - 'EDU SIG Certification' project
- [DavidW] Japanese translation of (updated) LFD121 and Labs is underway, not sure what the timeframe is to complete this. Have 2 labs translated & have agreed on review process for translations.
  - No concrete plans for other translations yet - this is desirable but there are complexities. We need people who know that language well & willing to help review it/do it.
- [DavidW] Dev Mgmt course should be posted shortly

2025-03-03 - Course Content Collab - Cancelled

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- [CRob] Academic Accreditation
  - Work continues, putting together a comms plan
  - What is needed? "It depends" - shooting for plan for 2025-2026 academic year

- - Putting together review process, expecting 10ish applicants for year one
- [DavidW] "CRA 101" course is coming along!
  - Draft slide deck is here: https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - Feedback due Feb 25
- [CRob] "CRA Risk Assessments" course collecting reference materials (ENISA RMF)
  - CRA requires risk assessment process and documentation
  - CRob will put together some materials based on ENISA and BSI to build a TLDR for OSS projects
- [DaveR] Recap of our conversation last time about 2025 SIG activities
  - CRob, David and Dave recorded a "What's in the SOSS" podcast discussing this SIG
  - Dev Mgr course undergoing final recordings
  - Grow group / improve info accessibility / giving presentations
  - Security Architecture (how to do labs?) Q2-Q3
    - CRob has architects lined up to contribute
  - One-pager on how to create a course - there are different kinds, 5 min, 60-90 min, "More"
    - Does LF TRaining have something already? **@DavidW** to ask Flavia

2025-02-17- Course Content Collab - CANCELED - US Holiday

2025-02-10- Course Content Collab - CANCELED

2025-02-05 - Full SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns

x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		
x	CRob	christopher.robinson@linuxfoundation.org	Linux Foundation	he/him	SecurityCRob

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- [DavidW] LFD121 labs - internationalized, Japanese translation expected to start
  - Had to switch from internal data to separate .js file for each lab, so localizations could share other data (only JavaScript can be loaded by local JS)
- [DavidW] LFD121 enrollment figures
  - 2022-2024 enrollment = 5144 + 6658 + 9361 = 21163
    - 2024 enrollment: 9,361
  - LFD104x (1st part of edX, 2020-2024) = 766+2322+1580+1191+1249=7108
  - All Japanese: 1181
    - Japanese edX (LFD104-JP, 2022-2024) = (133+57) = 190
    - Japanese LFD (LFD121-JP, 2022-2024) = 525+331+135 = 991
  - LFD + edX, Japanese + English = 21163+7108+1181 = 29452
  - [CRob] Perhaps talk with Ram to see if the course can be translated for India (e.g., Hindi)?
    - [David] I'll contact [Slack message sent 2025-02-05]
  - Perhaps check with Avashay if he has a contact to translate into Hebrew and Arabic?
- [DavidW] "CRA 101" course is coming along!
  - Draft slide deck is here: https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - Notes will have a script (see the first few slides for an example)
  - Much more to do, but it should be clearer what it will cover
  - Draft slides have "material to be discussed" there, are turning into readable slides & a script in the notes
  - Please comment in the draft slides!
- [CRob] Academic accreditation program - in next few months should talk with Christophe, etc.
  - We missed the boat on timing last year, should try to schedule it better this year
- [CRob] Discuss OpenSSF 2025 roadmap (slide 14) - one third is related to educating the modern developer - what of the first 4 bullets are we interested in working on??
  - David has an LFD121 deck
  - We should make a folder for presentations and store things there as pdf - https://github.com/ossf/wg-best-practices-os-developers/tree/main/presentations
    - Make it easy for newcomers to find the information
  - Short deck is listed on Best Practices WG website https://github.com/ossf/wg-best-practices-os-developer
  - We might want to focus on marketing all the good info the WG has produced
    - Blogs, webinars, podcasts

- ■ "What's in the SOSS?" - CRob / DavidW - discuss education - will discuss on Slack & record at our Monday "detail" meeting
- ■ Show up at BEAR, note can be for mentorship - DavidW
- ■ Work with GitHub & Xavier (training info for security effort) - DavidW (ongoing)
- ■ Pick a FEW conferences to speak at - DavidW happy to speak!
  - ● At least in OpenSSF conference?
- ■ Make sure rolling ad at OpenSSF includes LFD121 - DavidW to talk with Khahil [DavidW sent Slack message 2025-02-05]
- ■ Adjust github page to make it easier to see where we are looking for help or how to get started
- ○ Grow the membership of the SIG
  - ■ Re-show at DevRel group, (re)explain what we have, ask for others to join
  - ■ Reach out to some professors as well - DavidW
    - ● Easiest way to join: Go to <https://openssf.org/getinvolved/>, scroll down to community calendar, click on meeting you want to join - Education SIG (Full SIG), Alternate Wednesdays 9am ET
      - ○ Invited Chola Chhetri, NOVA
- ● [David] FYI: My GMU class uses the LFD121 labs
  - ○ Asking them for cases where the current hints don't help them get unstuck

Collab Materials

- Developer Manager [training](#)
- Security Architecture [training](#)

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
- [David W] "CRA 101" work begun
  - Current proposed formal name is "Understanding the EU Cyber Resilience Act (CRA) (LFEL1001)" (this name is subject to change).
  - Expect it to be free course: no cost, CC-BY-4.0. Expect to be 60-90 min video. David W is leading development, with whoever is willing to help!
  - Audience
    - Decision-makers and software developers of software manufacturers, importers, and distributors
    - Open source software (OSS) developers
    - OSS Stewards
  - Enthusiastically supported by Global Cyber Policy WG as of 2025-01-19
  - Plan for this to be a joint effort between Global Cyber Policy WG & Best Practices WG's Education SIG (that ok?)
  - Draft detailed proposal https://docs.google.com/document/d/19umGAO4NBsPD10iwxDjd01WU08uZZtSrFoyH_RcggOs/edit?tab=t.0
  - E-learning design document for LF Education https://docs.google.com/document/d/10sSO52rjh0TQ0h7OEnfdl3p0FLPfGvgIB6Ojswu0tC4/edit?tab=t.0
  - VERY early slide deck https://docs.google.com/presentation/d/1j3OlNz2k5rk9KRD8ZZz8xvsM_hyxqOioK4UUkJTWee8/edit
  - EDU SIG agreed to collaborate
- [CRob] Discuss LF 2025 roadmap in the next meeting - one third is related to educating the modern developer
- [David W] Modified his university grad course to use some of the LDF121 labs
  - Perhaps this would make an interesting blog to share with the community? It might inspire others to do the same…
  - Also looking at translating the labs into Japanese - maybe work up something to talk about this at the Japan conference?
  - **@DavidW** to add a general call for translations into the readmes - good example of "how to get involved" ([example link](#))

2025-01-13 Course Content Collab

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		

Collab Materials

- Developer Manager [training](#)
- Security Architecture [training](#)

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
-

2025-01-08 FULL SIG

Attendees

(please **Mark an "X" next to your name if you are here,** or add-row name/email/affiliation if joining)

	Name	Email	Affiliation	Pronouns	
x	Dave Russo	drusso@redhat.com	Red Hat		SecurityCaveman
x	David A. Wheeler	dwheeler@linuxfoundation.org	Linux Foundation		

Collab Materials

- Developer Manager training
- Security Architecture training

Agenda

- Anyone willing to assist in scribing?
- Welcome new friends
- Collect Opens
