Radu always wanted to create an online course. He had knowledge to share, but there was one big problem—he hated being on camera.

The thought of scripting, filming, editing, and marketing overwhelmed him.

He watched others make thousands selling courses, while he stayed stuck, unsure where to start.

Then he built Academy—an AI-powered platform that creates, hosts, and sells video courses without any filming or tech skills required.

Imagine waking up to sales notifications—without ever filming a single video.

If you are already paying for a handful of subscriptions, rest assured, you're not the only one.

The subscription model seems to be the new norm these days.
And customers are happily embracing it!

So why shouldn't you profit from that?

Let's say you could start your own MasterClass-like membership platform where you could sell original video courses but without having to ever be on camera yourself, edit videos, write scripts, record voiceovers, or any of that complex stuff.

INSTEAD, you can train Sora, the \$200/mo. AI behemoth, to do ALL that for you...what do you say?!

=> “ I want in, show me how to create & sell digital video courses without effort!”

There's a new app in town that lets you tap into the online course arena while removing all possible hurdles & headaches.

So far creating and selling your own digital course has been a nightmare.

Just think about it:

- > you'd have to be an EXPERT in your field
- > you'd have to be CHARISMATIC on camera
- > you'd have to have all the TECH KNOW-HOW to upload your course into a membership site

If any of these conditions was not fulfilled you'd be stuck...

And end up paying heavy \$\$\$ out of your pocket to services like Udemy, Kajabi or Wix, use their platforms and give them half of what you earn.

But this ENDS here today with Academy.

It's never been done before and is here to open a new era of internet marketing and online sales.

One where you can have the upper hand that allows you to compete 1-on-1 with big names...by unlocking a powerful AI component that handles all the time-consuming work for you.

=> Set up your membership site with 1-click

So now you know the twist: it's the AI that gathers data, compiles it and

generates expert-level courses and infoproducts in just a couple of minutes.

Your new Sora AI buddy can make you an expert in over 250 niches overnight!

That's what your platform's visitors will see and believe me, they'll love it.

Academy is a complete business-in-a-box packed to get you easy monthly payments from enthusiastic subscribers in search for fresh content.

Here's what you will find inside:
