H1: Sony

Transcend normal with Sony — professional-grade cameras that empower your creative vision.

Sony's lineup delivers unparalleled reliability. At the core of their business lie image sensors that deliver exceptional dynamic range and low-light performance. Applix offers Sony cameras with full-frame and APS-C sensors.

Choose a professional-grade camera with the [Sony FX6 Full-Frame Cinema Camera](#). A lightweight body is helpful for handheld shooting, gimbal mounting, or use on remote sets. Support for 4K recording formats and 10-bit colour depth makes it ideal for professional filmmakers and videographers who need extensive latitude for grading and post-production.

If you're looking for a broadcast-ready Sony camera, the Sony PXW-Z90V 4K HDR XDCAM stands out with its 1.0-type stacked Exmor RS CMOS sensor and Fast Hybrid AF system. It offers 4K HDR recording up to 30p and built-in Wi-Fi for live streaming. The PXW-Z90V is well-suited for corporate events, news and television production.

Explore Sony's professional-grade cameras at Applix and choose the perfect tool to capture brilliance.

THE END
