Athletic Team Fee Information

West Michigan Aviation Academy has implemented a team fee for participation in interscholastic athletics at WMAA. This fee is designed to create sustainable athletic programs and provide consistent revenue to support our teams.

We understand that financial considerations can be a concern, so we want to emphasize that the team fee is not meant to create barriers to participation. If the fee poses a financial challenge for any athlete or their family, we encourage them to reach out to the athletic director for financial support options. Our goal is to ensure that all students have the opportunity to engage in our athletic programs.

Team fees do not replace program fundraising efforts nor cover the entirety of a program's standard operating budget for each season. Donations to programs are always welcome and additional fundraisers are still a crucial component of our athletic programs.
