

# INTRODUCTION

Welcome to a guide for building cities in TheoTown's sandbox mode. This series is aimed to give people tips and tricks for what the name suggests: sandbox building. This was done due to high demand for a guide on how to make good cities. To get this straight, the question is pretty vague since there really are just many ways to answer this. Because of that, I will only be focusing on sandbox building.

I will be compiling everything that I have learned from the past 6 years of playing the game.

Thank you for reading this short introduction and I hope that you learned from this.

If ever you have questions or would like to suggest a topic, feel free to dm me via discord (USERNAME: IlikeBurgerHam#9304)
