

# Dyslexia

## Instructions

Watch the [video about bundles](#).

This bundle was created to edify and support your research interests. Recommended resources have the first word of the reference highlighted with light text over a dark background (e.g., **Akbarian**).

Some of the links go to research paper vendor sites with just the abstract available. To read the full article, sign in to [HOLLIS Library](#) and do the title search there.

**Key words** in search: Limit search to 2017-2021: dyslexia; developmental disorder; learning disability; learning disorder; neurodevelopmental disorder; neural correlates + dyslexia; phonological processing disorder; reading; reading impairment; specific language impairment

If you wish, you can [download this bundle](#).
