FAQs

What if I am not tech-savvy?

Not a problem at all- I'll be here to help you with all of the techy things!

When will the weekly group implementation sessions be?

We'll have our one-on-one session together between January 2nd and January 10th. Our three group implementation sessions will be on Friday's @ 11 am Central on January 12th, January 19th, and January 26th.

How long are the group sessions?

Our group implementation sessions will last up to 2 hours. They are recorded if you can't make it live, but ideally you will be there live to do the work of setting up your affiliate program in real time.

Do I have to purchase anything additional to get my affiliate program set up?

You will have to sign up for an affiliate program software if you don't have one already, but the one I recommend for Shopify users has a free option for just getting started, or is \$29 a month {which will pay for itself in no time!} If you aren't using Shopify, I'll recommend something else for you!

Additional questions? Send me an email at kelly@createyouraffiliateprogram.com and I'll be happy to answer them!
