

Resources, Tutorials, Webservices, and Applications for Making Multimodal Projects

AUDIO

[Audacity](#) | [Audacity MP3 Encoder](#) (for exporting as MP3 files)

[GarageBand](#): audio composition

[Pro Tools](#): audio composition

[SoundCloud](#): online audio hosting

[FreeSound](#): free sound effects

[Sounle](#): royalty free sound effects

[Jamendo](#): (some) royalty free music

VIDEO/ANIMATION/LECTURE CAPTURE:

[iMovie](#): video composition (mac)

[KeepVid](#): streaming video downloader (allows you to download videos on Internet to your computer in order to cut/edit)

[Final Cut Pro](#): video composition (available at campus computers)

[Video Scribe](#): Online editing environment for creating whiteboard animations (akin to the [RSA Animate](#) series or other graphical reporting).

[Screencast-o-Matic](#): screen recording (can record your screen, webcam, or both at the same time in different windows)

[Jing](#): screen recording

[Voki](#): animated avatars (weird robots will talk so you don't need to use your own face)

[Powtoon](#): to make simple animations

[Wideo](#): simple web-based animations and videos

[Stupeflix](#): video creator (make free 20 minute long videos)

[Masher](#): video mashup creator

[AuthorSTREAM](#): turn PPTs into Flash videos that you may embed on a website)

[Royalty Free Video links](#) (free stock video footage)

[Public Domain Flicks](#): movies (some famous ones) that are now in the public domain so they are fair to use

GRAPHICS/STATIC IMAGES:

[Comic Life](#): graphic composition

[easelly](#): infographic design

[PiktoChart](#): infographic design

[Canva](#): infographic design

[Venngage](#): infographic design

[Infogr.am](#): infographic and image design

[Elements](#): image and video manipulation

[GIMP](#): image manipulation

[Photoshop](#): image manipulation

[Picasa](#): image manipulation and sharing

[ThingLink](#): image and video annotation

[SIMILE Project](#): timelines

[Timeglider](#): timelines

[Timeline JS](#): timelines

[BeFunky](#): simple online photo editor

[Pixlr](#): online photo editor

[LucidPress](#): browser-based page layout tool

[Flickr advanced search](#): ability to search for free-to-use images

WEB DESIGN/HOSTING:

[W3Schools](#): interactive tutorials for HTML and CSS (website building)

[Dreamweaver](#): website design (or [Notepad++](#) or [Komodo Edit](#) for free, code-focused/non-WYSIWYG alternatives)

[Squarespace](#): website design

[Scalar](#): multimedia scholarly projects (see workshop/training schedule and registration here: <http://scalar.usc.edu/webinars/schedule/>)

[Wix](#): website design

[Weebly](#): website design

[Moonfruit](#): website design

[Jimdo](#): website design

[WordPress](#): blog design

[Imgur](#): photo hosting

[ImageShack](#): photo hosting

[Photobucket](#): photo hosting

PRESENTATION/NOTE-TAKING:

[Evernote](#): notetaking and word processing

[Google Keep](#): notetaking

[oXygen](#): XML editor

[Prezi](#): presentations

[Scrivener](#): notetaking and word processing

[Storify](#): social media aggregator

ZINE:

[Instructions for a Zine](#)

Brochure:

[Using Microsoft Word](#)

MISC:

[Tiki-Toki](#): animated timeline generator

[Mockingbird](#): online user interface mockup tool

[Bubbl.us](#): online brainstorming/mind mapping

[Text2MindMap](#): online brainstorming/mind mapping

[SimpleMapper](#): online concept mapping

["How to Make a Storyboard" video](#)

["Zero Budget Storyboarding" video](#)

[Perry-Castañeda Library Map Collection](#): many royalty free/public domain maps

[40+ ideas on using Google Earth and Maps in the classroom](#)

Also: <http://www.thethinkingstick.com/10-ways-to-use-google-maps-in-the-classroom/>

UWM Resources:

[Studio Arts and Craft Center](#)

[Digital Humanities Lab](#) (in library)

[UWM Computer Labs](#)

[Available Software at Labs](#)
