**User:** Find me a mobile with best display quality and performance in india.

**AI:** Based on the information I gathered, here's a summary of the top mobile phones in India known for their display quality and performance:

1. **iQOO 13:** This phone is a powerhouse, driven by the Snapdragon 8 Elite processor and an impressive AnTuTu score. It features a 6.82-inch LTPO AMOLED display with a 144Hz refresh rate, superior thermal management, and a versatile triple 50MP camera system, making it perfect for gaming enthusiasts and power users.
2. **Realme GT 7 Pro:** Offering exceptional value, the Realme GT 7 Pro is equipped with the Snapdragon 8 Elite processor and delivers remarkable performance. Its 6.78-inch LTPO AMOLED display with a 120Hz refresh rate ensures smooth visuals, while the 120W charging capability powers the 5,800mAh battery quickly. It's ideal for users seeking flagship performance at a competitive price.
3. **OnePlus 13:** The OnePlus 13 stands out with its impressive display and overall performance. It runs on the Snapdragon 8 Elite chipset and delivers excellent AnTuTu and Geekbench scores. It also excels in gaming tests, maintaining high average FPS and achieving the best temperature control among tested phones.
4. **OPPO Find X8 Pro:** Showcasing MediaTek's Dimensity 9400 chipset, the OPPO Find X8 Pro achieves a remarkable AnTuTu score. It features 16GB of RAM and an advanced cooling system for consistent performance. The device excels in photography with its advanced periscope telephoto lens and a 6.78-inch LTPO AMOLED display with Dolby Vision support.
5. **Vivo X200 Pro:** Representing the pinnacle of mobile photography innovation, the Vivo X200 Pro is powered by the MediaTek Dimensity 9400 chipset. Its advanced camera system, developed with Zeiss, features a revolutionary variable telephoto lens. The phone also has a 6.8-inch LTPO AMOLED display with a 144Hz refresh rate and a massive 6,000mAh battery.
6. **Samsung Galaxy S25 Ultra:** With its Snapdragon 8 Gen 3 processor, the S25 Ultra offers a comprehensive flagship experience. Its 6.8-inch Dynamic LTPO AMOLED display provides exceptional brightness, while the 200MP main sensor leads its versatile quad-camera setup. The S Pen integration and impressive battery life make it perfect for productivity-focused users.
7. **iPhone 16 Pro Max:** This flagship demonstrates exceptional performance with its A18 Pro chip and Super Retina XDR display with ProMotion technology. The upgraded 48MP main sensor provides enhanced low-light photography capabilities, making it ideal for Apple ecosystem users and photography enthusiasts.

8. **Xiaomi 14:** Equipped with the Snapdragon 8 Gen 3, the Xiaomi 14 achieves a high AnTuTu score. Its compact 6.36-inch AMOLED display offers a 120Hz refresh rate in a sleek design, and the Leica-tuned 50MP main camera delivers natural colors and sharp details. It's great for users seeking flagship performance in a more compact form factor.
9. **Samsung Galaxy Z Fold 6:** This foldable flagship features the Snapdragon 8 Gen 3 and a 7.6-inch inner display for excellent multitasking. Enhanced durability, a refined camera system, and productivity features make it stand out in the foldable category, perfect for multitasking professionals.
10. **Poco F6:** Despite being a year old, the Poco F6 still holds its ground as one of the fastest phones in its segment, thanks to the Snapdragon 8s Gen 3 chipset. It consistently delivers higher average gaming FPS and runs cooler than some of the latest releases.
