

Week of 3/4/24 List of Assignments

For Week Beginning:	3/4/24	Please email me: If you have any questions: ncapps@greenville.k12.sc.us Phone # 355-7584
Period(s):	3,4,5,6,	
Course:	8th Grade Science	
Day:	<u>Standard and Learning Target:</u>	<u>Assignment:</u>
Monday	I can find patterns of changes in the level of complexity of anatomical structures in organisms and the chronological order of fossil appearance in rock layers by engaging in the guided notes on Geologic Time Scale and the Edpuzzle - What is the Geologic Time Scale. Standard: 8.LS.4	Guided notes on Geologic Time Scale Edpuzzle - What is the Geologic Time Scale.
Tuesday	I can find patterns of changes in the level of complexity of anatomical structures in organisms and the chronological order of fossil appearance in rock layers by engaging in the Fossils / Geologic Time Vocabulary worksheet and Edpuzzle on Geologic Time Scale. Standard: 8.LS.4	Fossils / Geologic Time Vocabulary worksheet Edpuzzle on Geologic Time Scale.

Wednesday	<p>I can find patterns of changes in the level of complexity of anatomical structures in organisms and the chronological order of fossil appearance in rock layers by engaging in the Fossils Impressions Lab and guided notes on Catastrophic Events.</p> <p>Standard: 8.LS.4</p>	<p>Fossils Impressions Lab</p> <p>Guided notes on Catastrophic Events.</p>
Thursday	<p>I can find patterns of changes in the level of complexity of anatomical structures in organisms and the chronological order of fossil appearance in rock layers by engaging in the SC Geologic Time Scale worksheet and activity.</p> <p>Standard: 8.LS.4</p>	<p>SC Geologic Time Scale worksheet</p>
Friday	<p>I can find patterns of changes in the level of complexity of anatomical structures in organisms and the chronological order of fossil appearance in rock layers by engaging in the Geologic Time Scale Wheel.</p> <p>Standard: 8.LS.4</p>	<p>Geologic Time Scale Wheel</p>
