Welcome!

Congratulations on your admission into the Master of Nursing program and welcome to the Faculty of Community Services as well as the Yeates School of Graduate and Postdoctoral Studies (YSGPS) at Toronto Metropolitan University!

We are pleased to offer a curriculum designed to provide you with leading edge education focused on advancing your skills and knowledge in evidence-based practice, education, policy and leadership.

We take a high-touch, hands-on approach to advanced nursing education. Together, our students, staff and faculty create a caring, committed community that is a hub for:

> Community Building. Intense, interactive classroom and practice settings that help students connect, build relationships, and expand their personal and professional networks.
>
> Community Collaboration. Connections with leading health care organizations and Toronto's vibrant, diverse neighbourhoods that offer our MN students rich, rewarding opportunities for practice, education and research.
>
> Community Leadership. Our programs are values-driven, emphasizing social justice, accountability, advocacy and partnership as core values in health care leadership.

Throughout your studies, you will have the opportunity to further develop professional relationships and build upon your current knowledge and skills in order to prepare you for a wide variety of advanced nursing roles.

Within this Welcome Package, as well as on the Current Students pages of the Master of Nursing program website, you will find important information about the MN program, the Yeates School of Graduate and Postdoctoral Studies and the University in general. This information is to assist you with your course selection process and to familiarize you with relevant program guidelines.

All the best in your Master of Nursing studies!

Cristina Catallo, RN, PhD
Associate Professor
Program Director, Master of Nursing

Master of Nursing Program Requirements

Full-time students are expected to complete the program requirements in 5 terms. Full-time students must maintain continuous enrollment with 2 courses a semester. Part-time students are expected to complete the program requirements in 3 years (or 9 terms) and maintain continuous enrollment with at least 1 course a semester. Not all courses are available for enrollment in every semester. See program plans for more details.

10 required program credits:

5 Core Master of Nursing Courses

MN8901 Quantitative Research
MN8902 Qualitative Research
MN8903 Nature & Development of Nursing Knowledge
MN8904 Seminar in Advanced Practice Nursing (taken concurrently)
MN8905 Practicum in Advanced Practice Nursing (taken concurrently)

2 Field Core Courses

Field I - Leadership in Health Care Policy and Education

MN8920 Health Policy*
MN8921 Leadership in Education*
MN8934 Interprofessional Education & Collaboration*

Field II - Health & Illness of Individuals & Communities

MN8910 Experience with Health & Illness*
MN8911 Population Health & Health Promotion*
MN8931 Diversity & Globalization*

3 Electives

*All Field courses are cross-listed as electives
MN8930 Advanced Nursing Ethics
MN8932 Health Informatics
MN8933 Selected Topics - Evidence-Informed Decision Making and Critical Appraisal**
MN 8935 Program Planning and Evaluation
MN 8936 Advanced Therapeutic Communication

**The content of this course changes and may apply as Field I, Field II or an elective

Course Details

Core courses MN8901, MN8902, and MN8903 must be completed within the first 3 terms of registration for full-time students and within the first 4 terms for part-time students.

All classroom course hours are for 36 hours per semester except the Practicum in Professional Nursing Advancement. Course requirements, assignments and methods of evaluation vary by course and may include scholarly papers, seminar presentations, examinations or evaluations by self, peers or others. Students receive letter grades for all courses except the Practicum in Professional Nursing Advancement course where students receive a pass/fail mark. The minimum passing grade for graded courses is B-.

All Required Core and Field Core courses must be successfully completed before you can enroll in MN8904 Seminar in Professional Nursing Advancement and MN8905 Practicum in Professional Nursing Advancement. Please note that MN8905 Practicum in Professional Nursing Advancement is an intensive practice experience where the student is in a practice setting for 16 hours per week over the 12-week term (192 hours). This practicum course is taken concurrently with MN 8904 Seminar in Professional Nursing Advancement which requires class attendance for 3 hours per week over the same 12 weeks.

For a complete description of all courses please go to Academic Matters tab
https://www.torontomu.ca/nursing/graduate/student-resources/mn-course-stream/

Course Schedule

All courses are held in person at the Daphne Cockwell Complex in downtown Toronto. Most courses are scheduled in 3-hour blocks from 9am to 12pm and 1pm to 4pm. The program reserves the right to change these scheduling parameters due to unforeseeable circumstances.

For the 2026-27 Master of Nursing Schedule of Courses* please go to the 2026-27 Course Offerings document found under the Quick Links tab on the Student Resources webpage:
https://www.torontomu.ca/nursing/graduate/student-resources/

*All class schedules are centrally planned by the Registrar's Office. Confirmed class schedules will be posted online on MyServiceHub near the start of term. Normally the Registrar's Office releases fall term schedules by the end of August, winter term schedules by the end of December and spring term schedules by the end of April. Prior to the release of these confirmed schedules by the Registrar's Office, the Master of Nursing program makes available this tentative schedule information to students. Class timings may be subject to change.

Course Pre-Registration

All new students must pre-register in courses for their upcoming Academic Year using the Master of Nursing Course Selection Request Form. All course selections and enrolments are finalized and approved by the Graduate Program Administrators.

Step One: Review this Welcome Package

The key components of this package that will inform your course selections for pre-registration are:

- Master of Nursing Program Requirements
- Course Schedule
- Sample Program Plans

Step Two: Submit your Course Selection Request Form

The Master of Nursing Course Selection Request Forms can be accessed at the following link:

FULL-TIME STUDENTS: https://forms.gle/vaVYkGjoZ2X1FUrW7

PART-TIME STUDENTS: https://forms.gle/MXSwsKEN3wNCtDm49

These forms will open on **Wednesday, June 17, 2026** and must be completed by **Wednesday, July 22, 2026**. Note that it is in your best interest to submit this form as soon as possible.

Step Three: Course Pre-Registration confirmation

Before **August 19th**, an email containing a personalized Program Plan with your approved pre-registrations will be sent to you by a program administrator. If you have not submitted your Course Selection Request Form by the August deadline, your first-year schedule will be assigned to you by the program. Be sure to bookmark or otherwise save your program plan for reference.

Note that although the program makes every effort to accommodate a “First” choice selection request, pre-registration is on a first-received basis. The program reserves the right to hold enrollment of each course at a maximum class size. If the program is unable to accommodate your “First” choice course selection request, indicated subsequent choices are applied. If no subsequent choices are specified, courses will be chosen for you that fit your schedule and program requirements.

Step Four: Course Enrollment

After August 19, 2026, administrators will use new students' approved Program Plan to enroll them for the Fall 2026 term. This will include the administrative placeholder course *GD1001 Continuing Graduate Studies (Research)* which is used for counting active students. It is not graded and there is no fee attached.

Should you find an anomaly in your course registration in MyServiceHub, please inform the Program Administrator as soon as possible by phone or by email.

Step Five: Complete your Program Plan

In mid-October 2026, new students will be given access to edit their digital Program Plan form and notified by email. By making course selections on this form, students complete the pre-registration process for the rest of their degree progression. From the Winter 2027 term onwards administrators will use this approved digital Program Plan to complete the enrollment process. Be sure to bookmark your program plan for reference.

Students are not permitted to drop courses but may submit a course change request via email to the Graduate Program Assistant. Any course change requests must be sent on or before the term's last date to add or drop a course. For final dates to drop courses for the fall, winter and spring terms please refer to the School of Graduate Studies Significant Dates Website:

Significant Dates Calendar - YSGPS, Toronto Metropolitan University

Fees

Pay your Deposit

To confirm your acceptance to Toronto Metropolitan University, you must pay your non-refundable tuition deposit between **June 1 and June 14, 2026**, or by the confirmation date outlined in your offer letter. Please see instructions on how to pay your deposit at the following link:

https://www.torontomu.ca/graduate/future-students/apply/deposit/

*Note that many banks still list Ryerson and not Toronto Metropolitan University as a payee. If this is the case, please use Ryerson to pay your fee.

Tuition

For the Master of Nursing program your tuition is a term charge, which is based on the number of enrolled courses (units) in a given term throughout the three terms in the graduate calendar. The basis of your program status (part- or full-time) is NOT a factor when calculating your tuition fees.

For example, if you are enrolled in the full-time course load of two courses for the fall term, you would be charged the equivalent of two units of tuition plus the appropriate ancillary fees. If you are a part-time student enrolled in one course for the fall term, then you would be charged the equivalent of one unit of tuition plus the appropriate ancillary fees.

The approximate total domestic tuition cost for the MN Program is $12,500 plus ancillary fees. In considering the overall tuition cost of your program, you need to multiply the number of required degree or certificate courses by the posted tuition amount found on the relevant Fees Information page:

Master of Nursing (MN)

- **Domestic Ontario:** Detailed fee schedule available via the Nursing Full-Time Ontario Fees Detail document.
- **Domestic Out-of-Province:** Detailed fee schedule available via the Nursing Full-Time Out-of-Province Fees Detail document.
- **International:** Detailed fee schedule available via the Nursing Full-Time International Fees Detail document.

For a complete summarization of the policies, fees, procedures and services that you will need to know as a graduate student please access the YSGPS Graduate Student Guide at https://www.torontomu.ca/graduate/student-guide/

Activating Your Online Identity and Getting a OneCard

To utilize Toronto Metropolitan's online resources including your TMU email, you must first activate your Toronto Metropolitan online identity. New students will be able to activate their online identity starting **August 19, 2026**. For instructions please follow this link:

https://www.torontomu.ca/accounts/students/

All new students are required to use two-factor authentication to access TMU online services. Use the following link to set up Two-Factor Authentication:

https://www.torontomu.ca/ccs/services/ITSecurity/protecting-your-identity/two-factor-authentication/

Doors on campus are opened with your student OneCard. Once you have activated your online identity you can apply for a OneCard.
