

Review Games and Flashcard Sites

Shannon Eastep (easteps1@nku.edu @ShannonEastep)

Resource	Description	Tutorial and help resources
Blooket	Blooket supports both live reviews as well as “assigned homework” to help students review material. Teachers can create their own set of material or use already created sets. Once a set is identified, a game mode is then chosen. Games can be played as a whole class or solo.	Blooket Tutorial
Flippity	This free tool requires no signup but you do need access to Google Sheets. From there you can use their templates and instructions to create flashcards, quiz games, random name pickers, scavenger hunts, matching games, word searches and more.	Flippity Tutorial
Jeopardy Lab	Jeopardy Labs allows you to create your own games or use templates created by others. These games can be played live as a group or used asynchronously as a private review game.	Jeopardy Labs Tutorial
Kahoot	This question and answer game has been around forever and it’s one of the most popular used in schools. This can be used asynchronously or synchronously. As a teacher you can host a live review game or assign a game for students to work on individually.	Kahoot Tutorial
Lumio	This content and activity delivery tool is created by SMART Technologies and helps teachers to combine PowerPoint, PDF or SMART Notebook files with interactive learning activities to prompt student learning. Videos, simulations, games, brainstorming activities, manipulatives and graphic organizers are just a few of the things that can be done with Lumio. The free version allowed for 50MB of data.	Lumio Overview Lumio Tutorial
Quizalize	This fun review game site allows you to create quiz games and activities for your class. This has a built-in AI component to help the user write class quizzes.	Overview Using AI in Quizalize

<u>Quizlet</u>	A great flashcard site that can be used as an asynchronous student study site or synchronously as a live event. With any “study set” of information, students have the ability to use flashcards, play a matching game, take a “test” or write the answers in a provided space.	<u>Quizlet Tutorial</u>
<u>Wayground</u>	Formally called Quizizz, this handy tool has a library filled with resources to engage users for all grades and subjects. These resources include: assessments, flashcards, presentations, interactive videos, and reading passages. The user can also create their own interactive materials within those same categories.	
<u>Study Stack</u>	Study Stack is an asynchronous flashcard review site that has a variety of ways to help students study content including a matching game, crossword puzzle, quiz, fill in the blank game, and more. Teachers are able to create their own content or use pre-created stacks.	<u>Study Stack Tutorial</u>

- Looking for additional free tools to engage online, hybrid, and in-person learners to use online or in the classroom? Check out [this resource](#) also written by Shannon Eastep.
- Facebook Groups to consider to connect to other educators:
 - [Simple K-12](#): all ages, all grades, and all topics are addressed in this dynamic group
 - [Bitmoji Craze for Educators](#): a fun group that shares Bitmoji classrooms
