

Petition to Protect GUTS

To Interim President Robert Groves, Chief Operating Officer David Green, and Vice President of Planning and Facilities Management Lisa Belokur:

We, the undersigned community members of Georgetown University, stand in solidarity with Georgetown University GUTS Bus drivers. **We demand that the university immediately stop pursuing a contract with Abe's Transportation and maintain the GUTS fleet with its drivers as Georgetown Employees.**

The Georgetown University Transportation Shuttle (GUTS) program began in 1974 after Georgetown students petitioned for a convenient form of transport into D.C. and Virginia. With inaccessible transportation in the Georgetown neighborhood, the program eventually became a cornerstone of the Georgetown experience for students, hospital employees, faculty, staff, and workers. Bus drivers have always been vital members of our campus community, and we refuse to remain passive in the face of overt exploitation.

Georgetown is planning to subcontract the entire GUTS bus fleet by signing a deal with Abe's Transportation. The university claims they are making this decision because they cannot afford to keep GUTS, despite charging students transportation fees as a part of their tuition each semester. Moreover, Abe's has yet to acquire the all-electric fleet which Georgetown says they are pursuing. This move would eliminate all GUTS bus driver positions and force current drivers to either transfer to Abe's or move to a different facilities department and receive lower wages. If GUTS drivers switch to a different department in the university, **there has been no guarantee that their wages will remain consistent, or that they will maintain the seniority that they have accrued over the years.** The Georgetown administration has demonstrated a lack of respect through its unclear communication with bus drivers regarding the future of their careers.

Even though Abe's has verbally agreed to recognize the current union representing the GUTS bus drivers, SEIU 1199, the university has offered no promise that GUTS drivers who transfer to Abe's will retain their seniority or receive credit, monetary or otherwise, for their years of commitment to the university. Drivers are at risk of losing vital benefits, including accrued time-off, retirement support, healthcare coverage, and tuition-assistance programs. This transition leaves drivers, many of whom have been at this university for upwards of twenty years, without stable job security.

Georgetown University grounds itself in *Cura Personalis*, "Care of the Whole Person." According to the [Mission & Ministry](#) page, it is defined as "a profound care and responsibility for one another, grounded in individualized attention to the needs of the other, attentive to their unique circumstances and concerns, and their particular gifts and limitations, to encourage each person's flourishing." By threatening to replace GUTS with a subcontracted bus service, Georgetown University has demonstrated a violation of *Cura Personalis*. Rather than honoring the decades-long service of many GUTS bus drivers and their right to maintain benefits, economic security, and seniority, the university is endangering their livelihoods, insulting their

years of service to our community, and putting profit over people. The university has offered nothing but half-promises and excuses while the solution remains clear: **stop the pursuit of a contract with Abe's and keep the GUTS bus drivers.**

In solidarity,

Please sign the petition by commenting your name and your affiliation (ex. John Smith (CAS '27) or Jane Doe (Professor of History)).
