

Anything I didnt ask for, but you feel its important?

More teases to cater for minority groups of sexual appeal such as shemale BBW and other fetishes of reasonable following

I hate it when a tease ends because you picks the "wrong" path, I think there should be back buttons. It'd take a bit of time to do, to get to the correct page and all that, but it is needed.

Nothing worse than putting time into a tease, pressing the wrong button and it ending, I simply want total humiliation especially from a tranny it would make me feel purely humiliated to be thought of harshly by someone that wasn't enough of a man just like me which would just show how low I am how pathetic I am

more tease and denial, more ruined orgasms, more castration would like to see more bbw or ssbbw teases

"I love when the mistress says that I can't cum but she tease me really hard.

I love too, when someone tells me that i'm not allowed to cum, that all I have to do is to hold all that cum inside my balls. But a few sexy girls try to make me explode because they earn something for it (money, information...)"

"Teaseme, threds (better view of teases for teaseme).

Verbal/sounds of a tease, important."

bladder play, pissplay, spitplay ...

"Tasks / challenges make up a really tease,

just a story will fall flat, just direct instructions will so get tedious"

Chastity!

"Please, clear instructions.

Don't rush at writing and write everything wrong. It sucks"

thank you for doing this. good luck!~

i like to be told HOW and where to cum. ruin it or have a good full one.

Love your teases specially when pain / spanking is involved!

bad spelling can be a total turn-off

I feel as though there is a large lack of less severe teases on Milovana. Most are extreme pain, or extreme fetishes, making it sort of hard for less extreme people to find good teases. I

personally would appreciate more teases in the way of actual pleasure and, well, teasing.

ruined orgasms. forced orgasms. multiple orgasms, ruined orgasm from ball torture. stop go chance to cum probably with ruined orgasm. I like edging and then having to stroke after.

metronome is nice. Though not always. edging and then a metronome would be cool. and

different beat metronomes are really great! Like not just repetitive but per second but changing it up within the beat for a period of time. Also I only like flash teases. I like the stories that you

have alot of different options but get frustrated when the tease is over if i choose wrong. Would rather have it just go back to some place so i don't have to do the whole tease again, but all the options are pretty fun! Being able to jump to different sections is nice too for longer teases.

I'm a girl, and there arent many teases for REAL girls. Just a lot for sissies.

I'm a girl, and there arent many teases for REAL girls. Just a lot for sissies.

CEI

bladder play, not drinking your own pee, but having a restriction on when to go, or having to wait for permission. Also sometimes having to choose to continue for orgasm, or give it up to pee now, with punishment

I prefer the domme to use sweet and charish language, almost like a maternal domination.

That's why I don't like humiliation or rudeness.

There's not enough teases for us women ;)

I don't like urine or scat play.

I like it when I am being promised something and not getting it. Like: "if you do this task you will be allowed to cum" but then: "Sorry, I lied. Smack you balls 20 times"

I like teases with multiple ruined orgasms, but they should be unexpected.

"I like the following :

Being ordered to please mistress but not myself again and again,  
or, edge again and again to entertain mistress, have ruined orgasms,  
ordered to observe periods of chastity.

A good idea for a flashtease :

Have a lot of images of pornstars/hot naked women and have a random mix of them with some images showing only boobs but either pussy covered or not in frame (30% of total slides), some pics with full pussy in view (50% of total slides) and have a few images with multiple women in lesbian scenes (20% of total slides).

Then for only boob pictures order to stroke 4 times for duration of slide, 8 strokes for pussy pics and 12 for lesbian scenes.

Fix duration of each slide for 5 seconds after which slide changes to next picture.

Subject can cum only if slide is either pussy pic or lesbian pic, if started to cum on a boobs-only pic, then must have ruined orgasm.

All pics of different girls.

Good sources : twistys, one-by-day etc."

Just a comment as far as the orgasm goes. I love ruined orgasms, but didn't see that in the options, so thought I'd add.

The webteases do not have to be more than 1h to 1h and a half longer.

"I miss:

language of tease

online - offline

genre - strip games - play with me ...

length of tease - I prefer short but intense

Can you spread the solutions?

Thank you very much for your work.

Nebulak1970"

"It's important (to me) to know a few things in the first screens :

Items needed

If cum will or won't be allowed (or conditional to achievements)"

Thank you for doing this...

big boobs, big asses, hot ladies.

"Just letting you know guys are awesome :)

Oh....maybe have way to make the flash teases also available as regular ones, just for all those ppl accessing thru mobile devices"

just as a personal taste, as the male character I like it when there are other victims who are female and are in bondage

I like Teasing-series..where i will be denied in between but i didn't know it before..And have to wait several days or weeks to do the next tease from the series..Or/and with tasks in between..

Some mild exhibition and public humiliation is always nice, or having to go out shopping

"I usually notice three main things:

I think that each tease shouldn't be too long as I often find it difficult to find the time for longer teases.

I think that people should be careful with their choice of words and their spelling as occasionally it can be hard to interpret what is being asked.

I think that each tease's pictures shouldn't be a random collection but if possible all of the same person/use the same person for each character eg: if there's more than one dominant use two people.

Lastly I think it's great someone has taken the time to do this!"

I like teases where the woman sucks your cock or has sex with you either as a reward, or just as part of the story.

Flash teases with some erotic sounds please

Duration: Long term multi-day/week/month teases are great

The school of denial is by far the best teases on milovana. More like that. The ones that make you make a long term commitment.

I like character-driven humiliation teases, particularly ones about cuckolding wives or girlfriends/ex-girlfriends.

forced deepthroat cum eating (throat destruction)

"One idea that hasn't been explored much is (fake) blackmail, where the dom in the tease claims to know things about you and uses that as leverage to get you to do humiliating things.

You've also completely neglected the topic of shemales- I don't mind shemales in teases but I want to be tricked or forced to interact with them within the context of a story, rather than do it willingly."

Sense of humor. Good spelling (!) and grammar. Consistent tone - and good visuals, that feature pretty girls and not repetitive (not the same pic over and over and over .... ). And, perhaps strangely, the idea somehow that the teaser (teases? tease-atrrix?) has some affection

for not only doing the teasing but for the poor victim. I'm not into hostile and nasty Dommies that incorporate name-calling and put-downs as part of the routine.

"these are the teases i like:

cum eating

dom

shemales teases

feminization

also i dont like flash teases"

CBT shouldn't go on for too long or be too rough. Although, it can be useful if you want the person doing the tease to go soft.

dont have us sit there and stroke to the same picture for minutes on end. variety is the spice of life, use it.

Better outfits with pictures used.

"I vote nay for video webteases, unless it is a cock hero video. Mostly due to how tedious it is to load up a horde of 30 second videos.

I have yet to really find any tease that uses Tens units in them, so it would be interesting for me. Granted, I don't search for them, so they probably exist. They just have never run across one." Model selection is important. Continuity of image sets. Grammar in teases.

anal fisting teases and instructions/guide

"Better grammar and spelling in teases.

Don't have long pauses in flash teases where there's half a line of text and I have to sit there looking at it for several minutes."

i liked to be tricked into thinking i can cum and then being denied

random addition, i have played with a numbing cream before. have never seen it included into a tease. could be interesting?

some hot video in tease is a good thing.

Be forward(first couple of slides) about what's in the tease, what you'll need(clothespins, dildos, etc), and when and if you're going to cum.

How you orgasm as in ruined and multiple were left out. Also different types of strokes are some of the best parts to teases. Lastly was the hentai teases, I like them and would like to see more of them.

I am a male dominant but still enjoy a good tease that is not about being the submissive. Just sweet girls taking care of me. Being dominant is a lot of work and sometimes we want to be the center of attention. This take some giving up control on our part, but we still want to be dominant and to be served. Submissives get confused and only want to make us cum, Sometimes we want to be pampered with a long tease, to ride the edges for a while. Giving up just enough control to enjoy such a thing but still remain dominant.

Most intense results for me, when i personally feel talked to "so you entered this tease in hope of a quick orgasm?" eg.

"Unique = good! Games are fun too, like card games where you have to do tasks if you lose.

Also, the hotter the model, the more willing I am to expand my zone to try things and that's fun, so don't want to overlook something as simple as that."

Many times I will finish myself off after a tease, even when I am given explicit instructions not to. use spell checkers on the text !

cum eating

Include button if you cum before end of tease.

I suggest you make as many tease's as possible flash tease's, and add a skip to certain parts feature.

To much CBT on Milovana, every tease just CBT. I am tired of that. I think your teases are very good, you know exactly what you do. I wish you could post more.

This may be a personal opinion but I feel like teases should avoid movie actors or singers. I've seen a lot of teases like that and it just kinda disappoints me as well as losing any interest I had in doing the tease.

Thing involving Anal, A2M, cock sucking

(forced) ruined orgasms... I love it.

prefer non-nude or more softcore pics

"Find a way to bring more girls/women to the website, :)

Congratulations for this idea of making the research!"

sometime - urethral play?

Hotter women with huge fake silicontits. slutty, anal etc. Too many not so hot women.

nothing but thanks for all !!!

I like teases that give many options and based on your decisions you learn if you get to orgasm or not.

"Much more variation in metronome speed, sound, voice/moaning instead of beats, left hand/right hand.

More surprizing turns in story/speed/edge.

Embedded video combined with metronome would be ideal.

Voiced instructions instead of written (see: 'Melkzeit')

more teases where you get to have actual sex with girl.

I love flash teases much better

I'm female. Make one for us.
