

Cucumberism

By Carson Williams

My religion is Cucumberism. The holy book is the Cucumber Book, a book all about cucumbers. The symbol is a cucumber, and the founder is me, Carson Williams. My major beliefs are, cucumbers have a soul, we pray in a kitchen, and we follow the 4 Cucumbers. All the wise people/spiritual leaders are Cucum's. The people who follow me are Cu's. People practice Cucumberism everywhere.

The story of Cucumberism

The story starts when I was having cucumbers in my salad. When I was eating I heard a tiny scream. It sounded like a high pitched human. I was about to take a bite of cucumber when it got a lot louder. I then realized the cucumber was talking to me. It said "don't eat me please." I put it down and then I got sucked into the cucumber.

I looked around, there were cucumbers everywhere. They took me away and I was blindfolded. I got thrown in a cucumber truck and taken to the King of Cucumbers. They unblindfolded me and said "why are you eating cucumbers." I said "because cucumbers are delicious and I love them." Then the cucumber king said "if you eat another cucumber I would live here forever." I said "I will never eat another cucumber as long as I live."

The Four Cucumbers

1: Do not eat any cucumbers.

2: Do not disobey your founder.

3: Do not use cucumbers for bad things.

4: Do not hurt cucumbers.

The holidays of Cucumberism

There are 3 holidays in Cucumberism. The first holiday is Pickle, you have to pray to the cucumber gods by giving them lots of cucumbers. The second is Cumber, on Cumber you go into Cucumber Land and pray for cucumbers to grant you all your wishes. The third holiday is Cuby, on Cuby you celebrate the Cucumber Ocean. It is a magical place where strange things happen because it is an ocean full of cucumbers. My favorite holiday is Pickle. I like it because I like pleasing the cucumber gods.

The Holy Cucumber Travel

When you go on this journey you pray to the cucumber gods. You start by going to the place where cucumbers started, The Cucumber Jar. When you go inside you start by dropping lots of cucumbers into the jar. Second, you go inside the jar and eat all the evil pickles. After cleaning the jar of evil pickles you walk around the jar 7 times screaming "I like cucumbers!" Then you drop some more cucumbers into the jar. When you have done all of this you then go home and pray for cucumbers to see what you just did.

The Holy Book of Cucumbers

The Holy Book of Cucumbers is a book that tells the story of how cucumbers came to be, see page 1. It also contains short stories of how cucumbers live and play in Cucumber Land. The book has so many stories in it it's hard to count. My favorite story is this one about how this cucumber goes on a journey to the Undercumber. He gets lost and finds a portal to the Undercumber. Then he finds his way home and lives happily ever after. I hope you enjoyed reading this.
