

Drawing Plants

Grades: Pre-K, Kindergarten

LEARNING GOAL

Children will learn how to look closely to draw the lines and shapes of a plant.

MATERIALS

- Paper
- Pencil
- Plant to draw

DISCUSSION QUESTIONS

- How can we draw a plant that we see?
- What kinds of lines did you notice in the plant?
- What else did you notice about the plant? What did the artist and children in the video notice about the plant?

ACTIVITY

1. Choose a plant that you'd like to draw. It can be a plant in your home or classroom, or outside in a park.
2. Look closely at the plant. What kinds of lines do you see? Where do you see them?
3. What shapes do you see? How big or small are they?
4. Use your pencil to draw the lines and shapes that you see. Where will you draw them on the paper?
5. Look closely at your finished drawing.
What lines and shapes did you draw?
What did you notice when you looked closely at the plant?
