

youtube com activate Roku

Roku is a streaming player which is used to watch free and paid video content on your TV with the help of internet. TVs and movie streaming services such as Netflix, Amazon, Hulu, Sling TV, YouTube and TV are loaded on a Roku as like how apps load on smartphones. Although most of the content has been recorded before, services like Hulu allow to see a lot of content after a day of initial broadcast on television. In addition, apps like sling TV allow content to go live.

[YouTube com activate Roku](#) devices is very easy and the setup only takes a few minutes. Once your YouTube is activated, you can easily watch YouTube videos on your own TV screen. You will basically sign in to your account with **youtube com activate** and enter a number that Roku gave you to connect to YouTube.

Whereas, a Roku increases cable and satellite TV by adding well-on-demand material; I recommend both a Roku device and a TV antenna to provide an experience for providing a TV that eliminates the need for cable TV.

Activating **youtube com activate Roku tv** you need to follow few steps:

1. Connect your Roku to your TV and sign in to your Roku account. Make sure you are connected to your Wi-Fi as well.
2. Go to your Home Screen (if you aren't already) by pressing the Home button from your remote
3. Select the option Channel Store and press Ok from your remote
4. Go to Top Free option and select YouTube then press Ok from your remote
5. You will see an option of Add Channel. Select this option and press Ok from your remote
6. Wait for a while and it will be added to your channels. If you want to check, just press the Home button and go to My Channels. The YouTube channel should be in your channel's list.
7. Select and open the **YouTube channel**
8. Select the Gear icon on the left side of **YouTube channel**
9. Select Sign in and enter your Google/YouTube account information
10. Roku will give you an 8-digit code. Write it down somewhere or keep this screen open
11. Now go to [com/activate](#) from your laptop or phone.
12. Enter your Google account information and sign in
13. Enter the 8 digit code that Roku gave you and proceed.
14. Click Allow access if you see the option.

Now your YouTube is activated on your Roku device with the [youtube com activate Roku](#). Now, you can easily watch any program from YouTube without any trouble.
