

Brunswick High School
Summer Assignment 2025

Course: AP Statistics

Teacher: Mrs. L. Hutchinson

Due Date: First Day of Course

1—Keep your math skills sharp. One way to do that is by studying for the SAT or ACT. Subscribe and complete the SAT Questions of the Day [@SATQuestion](#) or try the FREE practice at [@khanacademy](#). Sign up at <http://satpractice.org>. (Data shows 20 hours of free practice on [@khanacademy](#) is associated with an average 115-pt gain.)

2—Volunteer, work, play outside, have fun, be a happy, productive member of your family. Your outside-the-classroom experiences add to our discussions and bring more meaning to the statistical analysis.

3—Play cards with a standard deck of cards. Download a card game. Any game. Become familiar with cards. This will help you with our probability unit. NO GAMBLING!!!

4—Study and feel comfortable with Venn Diagrams, unions, and intersections. Check out https://www.youtube.com/watch?v=Nv_tvZ5Mb3k

5—In the words of the Great Mr. Will Wannamaker, “AP Stat is a reading course.” and others have described it as a science course. Be prepared to read carefully and work hard in the fall. Bring your thinking cap, TI-84 graphing calculator (TI-84s can be checked out) and a positive attitude!
