

Callout for @yesjejunus/@tesjejunus

CONTENT WARNINGS: Racism, r/pe mentions, noncon fanart/fanfics, forced pregnancy fetish, abuse mentions, lesbophobia

Preface

The author of this document does not condone harassment of anyone mentioned in this document. It is advised that anyone who reads this blocks YJJ and their friends, and informs others by sharing this doc. Contacting YJJ is not encouraged, as they are an inflammatory individual who has shown they enjoy bothering and hurting people.

Yesjejunus (or YJJ for short, aka Tesjejunus) has been a prominent artist and author in the Fallout fandom on Tumblr for a while now, and multiple callouts have been made about them in the past only to be forgotten. Much of the information in this document has been gathered from said callout posts and blocklists, which are linked at the bottom of this document just below the list of people who support/are friends with YJJ. The purpose of this doc is to compile all relevant information on the nasty things they've said, done and created to inform and warn members of the Fallout (and TES now, apparently) fandom on Tumblr.

Transgressions

- Has written graphic 'dub-con/non-con' fanfiction romanticizing and sexualizing rape, abuse, unwanted pregnancy (with very dehumanizing discussions of pregnancy), [age gaps](#) (22 year old with a 50+ year old, post was deleted but the age gap is still prevalent in their fics), torture, and racist depictions of Indigenous

people. Almost all of their fanfictions with abuse are typically written from the abuser's perspective. Their [ao3](#) is literally in their bio, but here's an [older archived page](#) of it anyway. Also, here are [pdfs of *Learnin' The Blues*](#) and [No Light](#) just in case they purge their ao3 (check tags before reading).

- EDIT: YJJ attempted to address their native caricatures in their fanfiction, and tried to justify them by claiming they are an amateur writer and that in-game racism justifies racism in fanworks. They also explained that one native caricature was a plot device for angst bait and nothing more. They did so in an [ask sent to fallout-lou-begas here](#), and here are [screenshots just in case they're deleted](#).
- [Firmly believes that 'fiction does not affect reality' and that there's nothing wrong with writing explicit 'non-con' fics](#). (This post was deleted when they purged their blog, but their 'non-con' fics are still up on their ao3 and they frequently insist this belief).
- [Posted](#) a [comic](#) of Joshua Graham, a white missionary, using 'la chancía' against tribals of Latine descent. This is racist because it completely ignores their history with their religious, white, colonizing oppressors. They attempted to address this months after this callout was made, completely ignoring the other stereotypes in their works. [Here's a screenshot of them addressing it along with a reaction from a Latino Fallout fan](#).
- Posted graphic art of Vulpes raping their female courier OC and holding a gun to her head into the main #fallout tag, which has since been deleted. After Tumblr's porn ban, they posted bragging about their "controversial art" and "the asshurt it wrought" ([which remains up, including a cropped screenshot of said art](#)).
- Posted art of their and @charlies-random-art OCs wearing MAGA hats, which has since been deleted though it was [reposted](#) under a [callout post](#).
- [Posted](#) (deleted) a [comic](#) (screenshot of the comic) of their female courier OC asking Joshua Graham to impregnate her so that she can "grow bigger breasts to flatter and lie to a lesbian". [A friend of YJJ attempted to justify and explain this](#).
- Frequently engages with and promotes younger/underage artists (they're in their mid 30s), befriending new and impressionable fans quickly and **possibly** grooming them to accept or even enjoy the content they do. Their fans often

attack anyone who criticizes them or their views. They often stop promoting said artists once they've been publicly associated with them and would have a difficult time breaking ties. EDIT: Upon returning to Tumblr, YJJ added 'Minors DNI' to their blog bio in a coverup attempt. [Here's a screenshot.](#)

- Here are [three anonymous testimonies](#) regarding YJJ interacting with minors. These are all anonymous and should be taken with a grain of salt, but should be noted nonetheless.
- On August 26th, YJJ purged their blog soon after this doc began to make rounds. They left a single manipulative post making themselves out to be a victim, which has already been [archived five times on the wayback machine.](#)
- YJJ has made a deeply hostile environment for Fallout fans of colour. After @allthezipofnukacola (a black indigenous woman) [addressed YJJ's return](#) outlining all the ways they have been racist, she was harassed by numerous anons downplaying YJJ's actions and speaking over her.

Keep in mind everyone listed here takes no issue with any of the transgressions listed above, many even believe this document counts as harassment. Some of the latter names are not directly involved with YJJ themselves, but are friends and supporters of their friends and supporters, and have shown they are compliant with all of the above.
