

Power Your Future Scholarship for EVITP training

About the Scholarship

The California Central Coast region has an increasing need for Electric Vehicle Infrastructure Training Program (EVITP)-certified electricians to support electric vehicle supply equipment (EVSE) installation and maintenance in the region. To fill this gap, Ventura County Regional Energy Alliance (VCREA) and Central Coast Clean Cities Coalition (C5) are offering scholarships for EVITP training to eligible electricians. Selected applicants will receive a **\$275 scholarship** after completing the course within 90 days of registration. The scholarship will launch on **February 9th, 2023**, and remain open until funds are depleted. Applications will be reviewed on a rolling basis.

About EVITP

The electric vehicle market continues to expand in North America, and it is critical for EVSE to be properly installed to the highest safety and quality standards. The EVITP program is a 20-hour online course designed to provide qualified electricians with the most comprehensive training available today. All EVITP Certified Electricians must pass a certification exam for proof of knowledge and skill.
