Manager Announcements

Do your VOCs! Everything is anonymous, but any harassment is trackable! -Carlos

Please don't prop open doors, especially at night. If you encounter a stranger in the house, don't be afraid to speak up - Tiana

I'm in charge of your electronic supplies! Not network! Avoid using sensitive passwords on your public space computers, we found key-loggers on them -\_- . Printer paper is in the trays, please be tidy! Someone stole our super expensive gaming computer!!! NOOOOO - Bryan

Change the printer to print to tray 2 if you accidentally print to tray 1 (requires manual feed). -Mitar

I'm the new Graham. Please drop by to office hours if you need anything. Thank you to all the managers for helping me out this past week. **Quarters, I have them (come during OH). Move outs are August 13th, send an email if you need an extension on moving out. When you move out, please leave the room in a state that you would like it to be. Finally, habitability is coming up. If CO sees that Cloyne is not clean enough, the fine will be imposed on all of us. Main problems: cleanliness of the kitchen, put lids on things so flies don't get in it, label personal food, meat on the bottom shelves, keep the hallways and doors clear, clean up after you cook, don't blow your workshift.** - Matt

The kitchen has been good and all the workshifts have been doing an amazing job. **Please dispose of food residue from your dirty pots and pans and PUT THEM ON THE SHELVES!** Store meat on the lowest shelf... ew meat juice. Food should be labeled with name and date!  
-Chris

Togo containers were received by the house. Clean them as soon as you are done with them. They should be in circulation and in use. - WRM

Habitability is random. Seriously please put away your pot and pans. Leaving knives out by the bread is a habitability fail. Things in the hallway are a automatic failure. - Workshift

Chris thinks that Carlo did a really awesome thing socially for the house.

Receipts are held by Matt. While waiting for the receipt, please go put away your dishes.

## [C] Discussion of House Security by Giselle Kahn

We've had a few problems with security this summer. Unexpected woman living in empty triple. Computer was stolen. Three very loud and annoying strangers were kicked out of the house.

This all means that we have really crappy security practices.

Please keep the doors closed. DO NOT PROP THEM OPEN IF YOU ARE NOT ACTIVELY USING IT.

You don't have to open the door for anyone you don't know. And you can ask strangers questions about whether or not they live in the house or are a guest. Currently, any non house member or boarder that is let in by you is considered your guest until they meet their host. You are responsible for any actions your guests take.

Be nice about it! Don't interrogate people in a way that would make you uncomfortable. More often than not, people are your housemates or guests you have not yet met.

## [D] Initiation of Persona Non Grata (PNG) by Anonymous House members

There is little detail about this item, because we want to make people aware of what is going on while respecting boundaries. In executive session, no names will be recorded, only motions. If you are not a house member you must leave. Everything heard here stays here.
