Folsom, CA | 916-500-8308 [Portfolio](#) | [Email](#) | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Frontend: JavaScript, HTML, CSS, Shopify Liquid, React, Responsive Design, UI/UX

Backend: Node.js, Express, Knex, SQL, Testing, Authentication

Additional Skills: E-commerce, Python, Algorithms, Graphic Art

PROJECTS

Lectric eBikes, Shopify Developer [\[URL\]](#)

- Developed and implemented a user-friendly split navigation bar with mega menus, dynamic metafields for product pages, and responsive hero sections with tiled images, videos, and text overlays.
- Enhanced e-commerce platform functionality, significantly boosting user interaction and satisfaction, which correlated with increased sales.

Story Squad, Technical Project Manager and Backend Developer [\[URL\]](#)

- Developed secure backend systems using Node.js, Docker, and pgAdmin; managed CRUD operations with Knex.
- Led developer meetings, coordinated tasks, and ensured high code quality through pair programming and issue resolution.

The Stoics, Full Stack Developer [\[GitHub\]](#)

- Implemented complete backend routes and database interactions with PostgreSQL, including error handling.
- Enhanced UI/UX with skeleton loading, responsive design, and wrote tests for frontend and backend.

EXPERIENCE

Sefia Consulting, Web Developer, Folsom, CA Oct 2022 - April 2024

- Led Shopify development from Figma designs to functional e-commerce sites.
- Managed project deliverables and timelines, ensuring efficient task completion and client satisfaction.

EDUCATION

BloomTech, Full Stack Web Development Graduate Jan 2021 - May 2022

- Completed a 720-hour certification program in Full Stack Web Development.

Additional Certifications:

- Python Data Structures (University of Michigan)
- Technical Support (Google)
