

Dear 1st Grade Teachers,

Congratulations you have made it to the final unit of the school year! We are all at different points in the curriculum so please use this resource when you are ready to plan for Unit 8- Putting it All Together. In this unit students consolidate and solidify their understanding of various concepts and skills on major work of the grade. Here is some information I pulled together for you to help you when you plan:

Before Teaching

Consider your students' needs and any unfinished learning they might have.

- Log into your account and watch 1.8 Unit Launch: Learning Narrative Video.
- Read the Full Unit Narrative, section narratives, and each lesson narrative.
- Preview the End of Course Assessment to see what the learning expectations are for the unit.
- Check out the Unit Planning Map to see a breakdown of materials by lesson.
- Plan ahead for a PLC Lesson Discussion.

Unit Layout

Show Inspire Math Video the 1st time before Lesson 1 *Pro Tip: Read the Teaching Notes next to the video for instructions on how to use this video with your students.	
Section A	Lessons 1-3 Focus: Add and Subtract Within 20 *Recommended PLC Discussion Lesson 3 Activity 1 End-of-Section Resources: Section A Student Summary & Section A Checkpoint
Section B	Lessons 4-6 Focus: Story Problems Focus: Halves and Quarters *Recommended PLC Discussion Lesson 4 Activity 2
Show Inspire Math Video the 2nd time after Lesson 6 *Pro Tip: Read the Teaching Notes next to the video for instructions on how to use this video with your students.	
Section C	Lessons 7-10

	Focus: Numbers to 120 End-of-Section Resources: Section C Student Summary & Section C Checkpoint (Checklist) *Recommended PLC Discussion Lesson 8 Activity 1
Show Inspire Math Video a 3rd time after Lesson 9.	
Review & Assessment	• 1 day of review using the section practice problems (turn this into a game or have student complete collaboratively) • 1 day of End-of-Course Assessment (Test Cover Sheet) OR • ½ day of review ½ day of testing for two days
