| State               | How did they develop and maintain power? |
|---------------------|------------------------------------------|
| Song Dynasty        |                                          |
| Abbasid Caliphate   |                                          |
| Delhi Sultanate     |                                          |
| Srivijaya Empire    |                                          |
| Khmer Empire        |                                          |
| Mexica              |                                          |
| Inca                |                                          |
| Great Zimbabwe      |                                          |
| Mali Empire         |                                          |
| Mongol Empire       |                                          |
| Swahili city-states |                                          |

CAUSATION

|                                                                | Causes | Effects |
|----------------------------------------------------------------|--------|---------|
| Mongol Conquests<br>c. 1206–1368                               |        |         |
| Political decentralization<br>(feudalism) in Europe            |        |         |
| Rise of Islamic states                                         |        |         |
| Rise of trade routes /<br>networks of exchange<br>1200-1450    |        |         |
| Diffusion of crops and<br>pathogens, with<br>epidemic diseases |        |         |
| Diffusion of Buddhism                                          |        |         |
| Diffusion of Islam                                             |        |         |
| Diffusion of Christianity                                      |        |         |

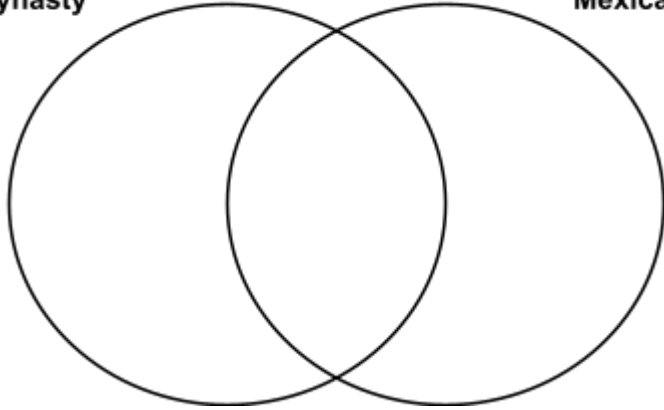

CHINESE DYNASTIES

| Song<br>960–1279 | Yuan<br>1271–1368 | Ming<br>1368–1644 |
|------------------|-------------------|-------------------|
|                  |                   |                   |
