BODY

Use this template using Times New Roman (TNR) with the font size 12 and single-line spacing throughout the article. Figures and tables should be placed as close as possible to where they are mentioned in the text. First-level headings state the table or figure number. All the tables and images should be embedded into the file and sized appropriately. Divide your article into clearly defined and numbered sections:

1. Introduction
2. Literature Review
3. Research Method
4. Results and Discussion
5. Conclusion

Sub-section should be numbered 1.1 (then 1.1.1,1.1.2,...), 1.2., etc. Number footnotes consecutively throughout the article using superscript Arabic numbers.

APPENDIX

The appendix should immediately follow the body of the paper and precede the references.

ACKNOWLEDGEMENTS

Collate acknowledgements in a separate section at the end of the article before the references.

REFERENCES

References must be in English and arranged first alphabetically by author's last name and then sorted chronologically if necessary. Use APA style (6th edition) and include digital object identifiers (DOIs) if they have been assigned to the content.
