Nicotine Pouches Ireland — Tobacco-Free. Smoke-Free. Delivered to Your Door.

Nicotine pouches are becoming more popular in Ireland, and it's understandable why. These are a discreet way of satisfying your cravings without the cloud of smoke. Also, they are a far more hygienic replacement to cigarettes or vaping.

We provide shipping throughout Ireland and have anything from soft, beginner-friendly pouches to the toughest alternatives available.

What Are Nicotine Pouches?

Picture a tiny, soft white pouch about the size of a fingertip. You tuck it under your top lip, and it sits there releasing nicotine slowly through your gum — no tobacco involved, just nicotine, plant fibres, and flavouring. Most people keep one in for somewhere between 20 minutes and an hour.

There's no smoke to deal with, nothing to light, and no device to lug around — which is a big part of the appeal.

Worth knowing: people often lump pouches in with snus, but they're not quite the same thing. Snus actually contains tobacco leaf. Pouches don't — that's the whole point.

Why Nicotine Pouches Are Growing in Ireland

No smoke, no smell. Use one at your desk, on the bus, anywhere — nobody will ever know.

Nothing to carry around. Just the can. No charging, no e-liquid, no spare parts.

A genuine cigarette substitute. A lot of Irish smokers use pouches to cut down — same nicotine hit, no smoke.

You pick the strength. Anywhere from 2mg right up to 45mg+, so it's entirely up to you.

Actually decent flavours. Mint, citrus, berry, coffee — these aren't an afterthought anymore.

Nicotine Pouches Flavours — Something For Every Taste

Forget the bland, medicinal taste you might expect — today's pouches actually taste good.

Mint & Menthol — Cool and crisp, the go-to choice for most people. VELO and ZYN both do this well.

Berry — Blueberry, strawberry, mixed berry — sweet without tasting fake.

Citrus & Tropical — Lemon, mango, watermelon — bright and refreshing.

Coffee — Smooth and rich, a favourite after meals or first thing in the morning.

Tobacco-Inspired — That classic, familiar taste — minus any actual tobacco.

Is it legal to use nicotine pouches in Ireland?

Yes, completely legal for anyone 18 or over. There's no tobacco in them, so they don't fall under tobacco regulations.

Where can I purchase VELO and other nicotine pouches in my area?

You'll find VELO and a few other brands in some shops and petrol stations, but honestly, online is where you get the proper selection — and it usually arrives the next day.

What makes nicotine pouches different from snus?

Snus contains actual tobacco and is prohibited in the majority of the EU. Only nicotine, fiber, and flavor are included in pouches; tobacco is completely omitted.

What's the strongest nicotine pouch available?

Pablo's range tops out around 45mg+. That's strictly for experienced users — if you're new, steer well clear and start low instead.
